Reading Reasons-Kelly Gallagher 2003 "Why should I read?" Can your students answer that question? Do they have trouble seeing the importance that reading may have in their lives? Are they lacking motivation, both in academic and recreational reading? Do you think you can effectively teach reading strategies if students don't understand the benefits of literacy? In Reading Reasons, Kelly Gallagher offers a series of mini-lessons specifically tailored to motivate middle and high school students to read, and in doing so, to help them understand the importance and relevance reading will take in their lives. This book introduces and explains in detail nine specific "real-world" reasons why students should be readers. The book contains forty practical, classroom-tested and reproducible mini-lessons that get to the heart of reading motivation and that can be used immediately in English (as well as other content-area) classrooms. These easy-to-use motivational lessons serve as weekly reading "boostershots" that help maintain reading enthusiasm in your classroom from September through June. The mini-lessons, ranging from five to twenty minutes in length, hit home with adolescents, and in turn, enable them to internalize the importance reading will play in their lives. Rather than telling students reading is good for them, the lessons in this book show them the benefits of reading.

Rocks in His Head-Carol Otis Hurst 2001-05-08 Some people collect stamps. Other people collect coins. Carol Otis Hurst's father collected rocks. Nobody ever thought his obsession would amount to anything. They said, "You've got rocks in your head" and "There's no money in rocks." But year after year he kept on collecting, trading, displaying, and labeling his rocks. The Depression forced the family to sell their gas station and their house, but his interest in rocks never wavered. And in the end the science museum he had visited so often realized that a person with rocks in his head was just what was needed. Anyone who has ever felt a little out of step with the world will identify with this true story of a man who followed his heart and his passion.

Being Frank-Donna W. Earnhardt 2015-01-01 Frank follows the motto, "Honesty is the best policy." He tells the truth, the whole truth, and nothing but the truth. Frank never lies to his schoolmates, he always tells the truth to adults, and he's always honest with police officers. The balancing act of finding tact, that fine line between telling the truth and telling too much truth, is the main theme of this story, and it's very funny—although not necessarily to his friend Dotti whose freckles remind Frank of the Big Dipper, or to the teacher who hears that her breath smells like onions, or to the principal who is told that his toupee looks like a weasel. No one is quite as impressed with Frank's honesty as he thinks they should be. He is sweet and straightforward, and, well, very frank, but with everyone annoyed at him, Frank is now honestly unhappy. He decides to visit his confidante and pal, Grandpa Ernest, who has a history of frankness himself. With a few lessons from Grandpa, Frank begins to understand that the truth is important, but so is not being hurtful. With amusing characters and expressive artwork, this story tells the powerful message of finding the good in everything—a lesson that sends compassion and understanding to take the place of rudeness in the complex concept of truth.

Prioritizing the Common Core-Larry Ainsworth 2013 The consensus among educators nationwide is that in-depth instruction paired with focused assessment of essential concepts and skills are far more effective than superficially covering every concept and skill in the standards. Educators are faced with the task of teaching all standards while meeting the extraordinary range of student learning needs. Prioritizing the Common Core offers common sense solutions to the dilemmas teachers face today in implementing the new, more rigorous national standards. Chapters present a rationale for prioritizing the Common Core, a step-by-step process for prioritizing standards in language arts and mathematics, strategies for soliciting feedback and input from everyone in the district or school prior to the final determination of the Priority Standards, and detailed summaries of the process schools in six different districts used to identify their Priority Standards, with accompanying commentary by those who directed the work.
