Accounting Ethics Education-Margarida M. Pinheiro 2020-11-05 Accounting Ethics Education: Teaching Virtues and Values gathers a diversity of contributions from invited, well-known experts. It promotes a comprehensive reflection around how ethics can and should be taught to accounting students, discussing and highlighting the most updated research on accounting ethics education, and it is an essential reference in the field. The subject of accounting ethics education is critical to foster ethical awareness that may prevent the way in which one acts or behaves, especially towards others. The point is that accounting education cannot exist without ethical education and accountants must be technically proficient and ethically sensible since ethical behavior is vital to the status and credibility of the accountancy profession. And this sensibility must be developed while the future professional is still cultivating his or her moral and intellectual structure within the school learning environment: character and practical reasoning are crucial because they include not only knowledge of rules and principles, and their correct application but also values and virtues. Examining multiple perspectives, Accounting Ethics Education: Teaching Virtues and Values advances the scholarly debate by providing cuttingedge and insightful research vital for all those interested and immersed in these matters. It begins with a historical perspective of accounting ethics education and continues by exploring challenges, opportunities and developments in the area. It will be of great value to academics, students, researchers and professionals in the fields of accounting, accounting education and ethics.

Loose Leaf for Introductory Financial Accounting for Business-Thomas P Edmonds 2018-03-01 Learning Financial Accounting can often feel like learning a foreign language to students, in particular when terminology and procedure is piled on before core concepts are truly mastered. Introductory Financial Accounting for Business is an innovative approach that emphasizes critical thinking over the rote memorization of terms, such as "debits" and "credits". The sequential learning model employed by the authors helps students see the bottom-line consequences of financial statements as it relates to the overall business, better preparing them for careers as accountants, entrepreneurs, and decision-makers. The authors focus initially on conceptual underpinnings - the reasons why we approach procedures the way we do - rather than confusing students by front-loading the material with over-complicated details. Author Chris Edmonds has also created a highly popular and widely used series of video lectures, which engage students by clearly and charismatically going over each learning objective in a conversational style. These videos help reinforce important lessons and are always available for review. By developing this stronger foundation, students understand Accounting ideas more broadly and are able to ultimately learn procedural applications more quickly and accurately. With a straightforward writing style and highly engaging video lectures, this dynamic author team leads students down a streamlined learning path focused on critical thinking, clarity of concept, and applicability of material to the real world.

Advances in Taxation-John Hasseldine 2018-11-15 Eight chapters cover short selling and corporate tax avoidance, Fin48 and earnings management, the U.S. Jobs and Growth Tax Relief Reconciliation Act of 2003, the impact of social identity on reasonable compensation cases, FACTA, corporate tax compliance in Bangladesh, enforced tax compliance behavior in Malaysia, and tax morale in Greece.

Advances in Accounting Behavioral Research-Khondkar E. Karim 2019-09-30 Focusing on research that examines both individual and organizational behavior relative to accounting, this volume of Advances in Accounting Behavioral Research offers a perspectives on topics such as tax compliance, risk judgement, and affiliation bias.

Advances in Management Accounting-Laurie L. Burney 2019-07-16 This volume of Advances in Management Accounting explores a variety of current issues through rigorous academic research. Topics include the link between CEO compensation and the 2008 financial crisis, the association between performance-based pay and employee honesty, and more.

Environmentalism and NGO Accountability-Kemi C. Yekini 2020-11-27 It is increasingly being recognised across society that the preservation of our natural environment should shape political, economic and social policies. This book delves into the partnership of non-governmental organisations (NGOs), Environmental NGOs (ENGOs), their communities, and their governmental counterparts in responding to this need.

A Handbook for Teaching and Learning in Higher Education-Heather Fry 2003-12-16 First Published in 2002. Routledge is an imprint of Taylor & Francis, an informa company.

Giving Voice to Values-Mary C. Gentile 2010-08-24 How can you effectively stand up for your values when pressured by your boss, customers, or shareholders to do the opposite? Drawing on actual business experiences as well as on social science research, Babson College business educator and consultant Mary Gentile challenges the assumptions about business ethics at companies and business schools. She gives business leaders, managers, and students the tools not just to recognize what is right, but also to ensure that the right things happen. The book is inspired by a program Gentile launched at the Aspen Institute with Yale School of Management, and now housed at Babson College, with pilot programs in over one hundred schools and organizations, including INSEAD and MIT Sloan School of Management. She explains why past attempts at preparing business leaders to act ethically too often failed, arguing that the issue isn't distinguishing what is right or wrong, but knowing how to act on your values despite opposing pressure. Through research-based advice, practical exercises, and scripts for handling a wide range of ethical dilemmas, Gentile empowers business leaders with the skills to voice and act on their values, and align their professional path with their principles. Giving Voice to Values is an engaging, innovative, and useful guide that is essential reading for anyone in business.

Research in Accounting in Emerging Economies-Shahzad Uddin 2010-12-02 Includes research papers that examines various issues including the adoption of International Financial Reporting Standards (IFRS) and International Public Sector Accounting Standards (IPSASs), management accounting change in the context of public sector reforms, corporate reporting disclosures, auditing, etcetera.

The Big Four-Jan D. Gow 2018-08-28 "Messrs. Gow and Kells have made an invaluable contribution, writing in an amused tone that nevertheless acknowledges the firms' immense power and the seriousness of their neglect of traditional responsibilities. 'The Big Four' will appeal to all those interested in the future of the profession--and of capitalism itself." —Jane Gleeson-White, Wall Street Journal With staffs that are collectively larger than the Russian army and combined revenues of over \$130 billion a year, the Big Four accounting firms—Deloitte, PricewaterhouseCoopers, Ernst & Young, and KPMG—are a keystone of global commerce. But leading scholar Ian Gow and award-winning author Stuart Kells warn that a house of cards may be about to fall. Stretching back to the Medicis in Renaissance Florence, this book is a fascinating story of wealth, power, and luck. The founders of the Big Four lived surprisingly colorful lives. Samuel Price, for example, married his own niece. Between the world wars, Nicholas Waterhouse collected postage stamps while also hosting decadent parties in his fashionable London home. All four firms have endured major calamities in recent decades. There have been hundreds of court cases and legal prosecutions for failed audits, tax scandals, and breaches of independence. The firms have come so close to "extinction level events" that regulators have required them to prepare "living wills." And today, the Big Four face an uncertain future—thanks to their push into China, their vulnerability to digital disruption and competition, and the hazards of providing traditional services in a new era of transparency. This account of the past, present, and likely future of the Big Four is essential reading for anyone perplexed or fascinated by professional services, working or considering working in the industry, or simply curious about the fate of the global economy.

Teaching IFRS-Richard M.S. Wilson 2013-09-13 The increasing pace of global conformance towards the adoption of International Financial Reporting Standards (IFRS) highlights the need for accounting students as well as accounting practitioners to be conversant with IFRS. Teaching IFRS offers expert descriptions of, and insights into, the IFRS convergence process from a teaching and learning perspective. Hence this book is both timely and likely to have considerable impact in providing guidance for those who teach financial reporting around the world. The contents of the book come from authoritative sources and offer something distinctive to complement the existing textbooks which typically focus on the technical aspects of IFRS and their adoption. Drawing upon the experiences of those who have sought to introduce IFRS-related classroom innovations and the associated student outcomes achieved therefrom, the book offers suggestions about how to design and deliver courses dealing with IFRS and catalogues extensive listings of IFRS-related teaching resources to support those courses. This book was originally published as a special issue of Accounting Education: An international journal.

Advances in Computer Science and Engineering-Dehai Zeng 2012-01-26 This book includes the proceedings of the second International Conference on Advances in Computer Science and Engineering (CES 2012), which was held during January 13-14, 2012 in Sanya, China. The papers in these proceedings of CES 2012 focus on the researchers' advanced works in their fields of Computer Science and Engineering mainly organized in four topics, (1) Software Engineering, (2) Intelligent Computing, (3) Computer Networks, and (4) Artificial Intelligence Software.

The Definitive Guide to Blockchain for Accounting and Business-Saurav K. Dutta 2020-09-30 Blockchain is a disruptive technology potentially impacting how economic transactions are recorded, stored, and verified. Despite such ramifications, there is a lack of literature discussing this from the accountant's perspective. Through real-world cases this book distils an abstract technology to relatable experiences for business professionals.

Communication in Accounting Education-Richard M.S. Wilson 2016-04-14 Accounting, often described as "the language of business", requires a diverse set of written, listening and oral communication skills if those who practise it are to be effective. Given the pace of change relating to, for example, the evolution of international accounting standards and the demands for greater transparency, accountants must be clear, responsive, and audience-focussed communicators. Employers of accountants consistently comment on the need for their new graduate recruits and trainees to have strong written, oral, and interpersonal communication skills. In this light accounting educators face the challenge of designing and delivering programmes that reflect professional expectations on the part of employers and clients, and educating students on how to make informed communication choices in order to achieve desired results and to build good working relationships. The chapters in this book deal with such topics as accounting students' perceptions of oral communication skills; competence-based writing skills; and the development of listening skills. This book was originally published as Accounting Education: an international journal.

Recent Advances and Applications in Alternative Investments-Zopounidis, Constantin 2020-02-07 In recent years, there has been a swell of investment opportunities in contemporary asset classes that have gained considerable attention, including cryptocurrencies, hedge funds, and private equity. These alternative investments provide the opportunity to enhance the diversification of financial portfolios and harvest risk premiums that traditional assets like stocks and bonds fail to provide. The emergence of these new properties has created the need to further understand the mechanics, risks, and returns of alternative investments. Recent Advances and Applications in Alternative Investments is a pivotal reference source that provides vital research on the emergence and development of complementary asset classes in the field of finance and investment. While highlighting topics such as carbon emission markets, renewable energy, and digital currencies, this publication explores modern investment strategies as well as the latest products and new types of risk. This book is ideally designed for managers, strategists, accountants, financial professionals, economists, brokers, investors, business practitioners, policymakers, researchers, and academicians seeking current research on contemporary developments in investment strategies and alternative assets.

Resistance and Accountability-Cheryl R. Lehman 2020-10-27 How do public spaces generate accountability and advance social equity? Stimulating the conversation, this volume explores the creation of meaning, the increasing confrontation between regulators and the community they are purported to serve, and the prevalent conflicts in seeking a balancing of social and economic interests.

College Accounting-Jerry J. Weygandt 2019-05-29 College Accounting provides the beginning accounting student with the fundamentals of financial accounting through clear, concise, and easy-to-read text with examples and practice opportunities along the way. Combining the expertise of successful authors Paul Kimmel and Jerry Weygandt and the perspectives of two community colleges professors, DeAnna Martin and Jill Mitchell, this resource is the perfect blend of solid, time-tested content and a new streamlined design of embedded charts, lists, and illustrations that help students grasp difficult concepts.

Innovative Business Development—A Global Perspective-Ramona Orăstean 2018-11-13 This proceedings volume presents the latest trends in innovative business development theory and practice from a global, interdisciplinary perspective. Featuring selected contributions from the 25th International Economic Conference Sibiu (IECS 2018) held in Sibiu, Romania, it explores various topics in the areas of economics, business, finance and accounting, including tourism, marketing and Islamic banking and finance. Written by researchers from different regions and sectors around the world, it offers significant insights into the emerging shifts that characterize the fields of innovative economics and global development, innovative business practices, as well as innovative finance and banking, and provides organizations, managers and policy makers with new reliable solutions and opportunities for innovative development and growth within and between organizations around the globe.

International Perspectives on Improving Student Engagement-Enakshi Sengupta 2020-08-26 As the role and practices of the academic library are evolving, so too is the relationship between the library and other areas of the university. This volume explores the library's relationship with students, including the library-based learner, creating engaging classroom experiences, the library as an extension of the classroom, and more.

Research on Professional Responsibility and Ethics in Accounting-Charles Richard Baker 2019-09-30 Devoted to publishing high-quality research and cases focusing on professional responsibilities of accountants, this volume explores topics such as whistleblowing, sustainability reporting, and ethical tax standards.

'Counting Black and White Beans'-Anton Lewis 2020-10-26 Across the US and the UK, few senior accountants exist in proportion to their white peers. This problem is overwhelmingly disregarded due to an inherent assumption of racial neutrality within the field of accountancy. This book unpacks the working experience of black accountants to highlight the existence of institutionalized racism.

Intermediate Accounting Update Edition with CD-ROM, Net Tutor, Powerweb, Alternate Exercises and Problems-Sepes 2005-01 Intermediate Accounting, 3e, by Spiceland/Sepe/Tomassini will gain support in traditional and technology-driven accounting departments, especially those looking for a more concise, decision-making text that reinforces challenging concepts via CD-ROM. The revision of this text is based around a "Learning System." The revision of this "Learning System" was built on improving the clarity of the chapters, emphasizing more decision-making in order to prepare students for the changes taking place on the CPA exam, acknowledging the diversity of students and their learning styles by creating supplemental materials to assure the success of every student, and creating a consistent text and supplemental package for both students and instructor's giving us the best possible intermediate text on the market. Returning to the Third edition is the award winning "Coach" CD-ROM. The Coach CD-ROM is a multimedia product integrating audio and video clips, animated illustrations, cases, and alternative reading material that helps students comprehend some of the more difficult topics associated with intermediate accounting. Designed specifically for the Spiceland text, instructors and students will find these learning tools placed strategically throughout the text. This is the most comprehensive Learning System in Intermediate Accounting. At only 1120 pages (300 pages less than the average intermediate accounting text), Spiceland/S/T has not sacrificed content for pages. Instead, the authors have created a very flexible text with a student friendly writing style that focuses on explaining not just how to apply a procedure, but why it's applied.

Managerial Accounting-Charles E. Davis 2011-08-09 "Realizing that most students in an introductory managerial accounting course are not going to major in accounting, this book seeks to position managerial accounting in a broader context of business decision making."--Pref.

Audit Education-Karen A. Van Peurseem 2013-09-13 Audit professionals are valued members of society and are expected to be both skilled and ethical in their decision-making. The role of the auditor extends far beyond that of counting beans by demanding a social and political awareness, a technical knowledge, ethical principles and relationship skills. In addition, due to the team-oriented nature of the audit approach, auditors require strong team-building and interpersonal skills. This book offers expert descriptions of, and insights into, how such skills and responsibilities can be inculcated in tertiary education and professional training environments. Unlike other books which focus on auditing as a technical process, this volume examines auditing from a teaching and learning perspective. Expert contributors provide authoritative insights into an audit education which is embedded in accounting practice. The book's descriptions of these insights into improving education for future audit professionals may allow the introduction of new and challenging fields of enquiry. Audit Education will be of great interest to educators in tertiary institutions, trainers in professional firms, and key individuals in accounting professional bodies seeking to ensure their members possess acceptable levels of attainment for admission and continued membership. This book was originally published as a special issue of Accounting Education: an international journal.

Advances in Accounting-Philip M J Reckers 2002-05-08 Advances in Accounting

Loose-Leaf for Survey of Accounting-Bor-Yi Tsay 2014-01-09 Survey of Accounting, 4th edition, is designed to cover both financial and managerial accounting in a single 16-week course, presenting the material in a style easy for non-accounting majors to grasp. It incorporates the same pedagogical innovations that have made Edmonds' financial and managerial titles such fast-growing successes in the marketplace, including his unique Horizontal Financial Statements Model and a multiple accounting cycle approach that demonstrates the impact of related events over a series of accounting cycles.

Principles of Accounting Volume 1 - Financial Accounting-Mitchell Franklin 2019-04-11 The text and images in this book are in grayscale. A hardback color version is available. Search for ISBN 9781680922929. Principles of Accounting is designed to meet the scope and sequence requirements of a two-semester accounting course that covers the fundamentals of financial and managerial accounting. This book is specifically designed to appeal to both accounting and non-accounting majors, exposing students to the core concepts of accounting in familiar ways to build a strong foundation that can be applied across business fields. Each chapter opens with a relatable real-life scenario for today's college student. Thoughtfully designed examples are presented throughout each chapter, allowing students to build on emerging accounting knowledge. Concepts are further reinforced through applicable connections to more detailed business processes. Students are immersed in the "why" as well as the "how" aspects of accounting in order to reinforce concepts and promote comprehension over rote memorization.

Conjectures and Refutations-Karl Raimund Popper 1963

Financial Accounting-J. David Spiceland 2010-12 David Spiceland, Wayne Thomas and Don Herrmann have developed a unique text based on over 50 collective years of experience in the classroom. They've brought together best practices like highlighting Common Mistakes, offering frequent Let's Review exercises, integrating the course with a running Continuing Problem, demonstrating the relevance of the course to non-majors with a Career Corner, and communicating it all in a student-friendly Conversational Writing Style. The new 2nd edition of Financial Accounting, Spiceland, Thomas, Herrmann, has been developed with feedback from over 330 reviewers and focus group participants from across the country. The following list of changes and improvements is a testament to the many hours that reviewers spent analyzing the 1st edition, helping make Financial Accounting, 2nd edition, the best book of its kind.

Financial & Managerial Accounting for MBAs-Thomas R. Dyckman 2020

Financial Accounting-Jeffrey Waybright 2015 Financial Accounting - The best source for understanding why and when financially sound decisions are made in business today. Improvements made to the second Canadian edition have been focused on satisfying the differing needs and abilities of students. This edition has been enhanced with new pedagogical features designed to help students approach the material from different perspectives. This new edition also boasts enhanced coverage of the International Financial Reporting Standards (IFRS) and the Accounting Standards for Private Enterprise (ASPE), clearly distinguishing between these two approaches throughout the text.
