

## [Books] Argumentative Research Paper On Abortion

This is likewise one of the factors by obtaining the soft documents of this **argumentative research paper on abortion** by online. You might not require more times to spend to go to the books launch as with ease as search for them. In some cases, you likewise do not discover the notice argumentative research paper on abortion that you are looking for. It will enormously squander the time.

However below, next you visit this web page, it will be in view of that totally simple to get as competently as download guide argumentative research paper on abortion

It will not admit many epoch as we tell before. You can complete it while behave something else at house and even in your workplace. so easy! So, are you question? Just exercise just what we allow below as without difficulty as review **argumentative research paper on abortion** what you like to read!

Interdisciplinary Views on Abortion-Susan A. Martinelli-Fernandez 2014-01-10 This book examines issues surrounding abortion and abortion practices in the United States through the perspectives of multiple disciplines, including sociology, anthropology, philosophy, community health, theology, and political science. The essays parallel the interdisciplinary nature of feminist and women’s studies, situating abortion within a wider understanding of the impact of reproduction on women’s lives and their health. The contributing authors provide an accessible summary of the numerous topics surrounding abortion, and the essays reflect both original research and scholarly discourse on existing research and literature. Instructors considering this book for use in a course may request an examination copy here.

Life’s Dominion-Ronald Dworkin 2011-05-11 Internationally renowned lawyer and philosopher Ronald Dworkin addresses the crucially related acts of abortion and euthanasia in a brilliantly original book that examines their meaning in a nation that prizes both life and individual liberty. From Roe v. Wade to the legal battle over the death of Nancy Cruzan, no issues have opened greater rifts in American society than those of abortion and euthanasia. At the heart of Life’s Dominion is Dworkin’s inquest into why abortion and euthanasia provoke such controversy. Do these acts violate some fundamental “right to life”? Or are the objections against them based on the belief that human life is sacred? Combining incisive moral reasoning and close readings of individual court decisions with a majestic interpretation of the U.S. Constitution itself, Dworkin gives us a work that is absolutely essential for anyone who cares about the legal status of human life.

Among the Goddesses-Annie Finch 2010 In two intertwined songs, a feminist epic poem and a dreamlike opera libretto, Among the Goddesses traces one woman’s harrowing mythological journey of discovery. Tutored by encounters with seven Goddesses, both frightening and nurturing, Marie/Lily is tested by loss, rape, and abortion as she finds her community and her spiritual strength. This magical book embodies the goddesses in every woman and gives voice to the power of the feminist spirituality movement.

Thinking Critically About Abortion-Nathan Nobis 2019-06-19 This book introduces readers to the many arguments and controversies concerning abortion. While it argues for ethical and legal positions on the issues, it focuses on how to think about the issues, not just what to think about them. It is an ideal resource to improve your understanding of what people think, why they think that and whether their (and your) arguments are good or bad, and why. It’s ideal for classroom use, discussion groups, organizational learning, and personal reading. From the Preface To many people, abortion is an issue for which discussions and debates are frustrating and fruitless: it seems like no progress will ever be made towards any understanding, much less resolution or even compromise. Judgments like these, however, are premature because some basic techniques from critical thinking, such as carefully defining words and testing definitions, stating the full structure of arguments so each step of the reasoning can be examined, and comparing the strengths and weaknesses of different explanations can help us make progress towards these goals. When emotions run high, we sometimes need to step back and use a passion for calm, cool, critical thinking. This helps us better understand the positions and arguments of people who see things differently from us, as well as our own positions and arguments. And we can use critical thinking skills help to try to figure out which positions are best, in terms of being supported by good arguments: after all, we might have much to learn from other people, sometimes that our own views should change, for the better. Here we use basic critical thinking skills to argue that abortion is typically not morally wrong. We begin with less morally-controversial claims: adults, children and babies are wrong to kill and wrong to kill, fundamentally, because they, we, are conscious, aware and have feelings. We argue that since early fetuses entirely lack these characteristics, they are not inherently wrong to kill and so most abortions are not morally wrong, since most abortions are done early in pregnancy, before consciousness and feeling develop in the fetus. Furthermore, since the right to life is not the right to someone else’s body, fetuses might not have the right to the pregnant woman’s body—which she has the right to—and so she has the right to not allow the fetus use of her body. This further justifies abortion, at least until technology allows for the removal of fetuses to other wombs. Since morally permissible actions should be legal, abortions should be legal: it is an injustice to criminalize actions that are not wrong. In the course of arguing for these claims, we: 1. discuss how to best define abortion; 2. dismiss many common “question-begging” arguments that merely assume their conclusions, instead of giving genuine reasons for them; 3. refute some often-heard “everyday arguments” about abortion, on all sides; 4. explain why the most influential philosophical arguments against abortion are unsuccessful; 5. provide some positive arguments that at least early abortions are not wrong; 6. briefly discuss the ethics and legality of later abortions, and more. This essay is not a “how to win an argument” piece or a tract or any kind of apologetics. It is not designed to help anyone “win” debates: everybody “wins” on this issue when we calmly and respectfully engage arguments with care, charity, honesty and humility. This book is merely a reasoned, systematic introduction to the issues that we hope models these skills and virtues. Its discussion should not be taken as absolute “proof” of anything: much more needs to be understood and carefully discussed—always. The Turnaway Study-Diana Greene Foster 2020-06-02 “If you read only one book about democracy, The Turnaway Study should be it. Why? Because without the power to make decisions about our own bodies, there is no democracy.” —Gloria Steinem “Dr. Diana Greene Foster brings what is too often missing from the public debate around abortion: science, data, and the real-life experiences of people from diverse backgrounds…This should be required reading for every judge, member of Congress, and candidate for office—as well as anyone who hopes to better understand this complex and important issue.” —Cecile Richards, cofounder of Supermajority, former president of Planned Parenthood, and author of Make Trouble A groundbreaking and illuminating look at the state of abortion access in America and the first long-term study of the consequences—emotional, physical, financial, professional, personal, and psychological—of receiving versus being denied an abortion on women’s lives. What happens when a woman seeking an abortion is turned away? Diana Greene Foster, PhD, decided to find out. With a team of scientists—psychologists, epidemiologists, demographers, nursing scholars, and public health researchers—she set out to discover the effect of receiving versus being denied an abortion on women’s lives. Over the course of a ten-year investigation that began in 2007, she and her team followed a thousand women from more than twenty states, some of whom received their abortions, some of whom were turned away. Now, for the first time, the results of this landmark study—the largest of its kind to examine women’s experiences with abortion and unwanted pregnancy in the United States—have been gathered together in one place. Here Foster presents the emotional, physical, and socioeconomic outcomes for women who received their abortion and those who were denied. She analyzes the impact on their mental and physical health, their careers, their romantic lives, their professional aspirations, and even their existing and future children—and finds that women who received an abortion were almost always better off than women who were denied one. Interwoven with these findings are ten riveting first-person narratives by women who share their candid stories. As the debate about abortion rights intensifies, The Turnaway Study offers an in-depth examination of the real-world consequences for women of being denied abortions and provides evidence to refute the claim that abortion harms women. With brilliant synthesis and startling statistics—that thousands of American women are unable to access abortions; that 99% of women who receive an abortion do not regret it five years later—The Turnaway Study is a necessary and revelatory look at the impact of abortion access on people’s lives.

The Complete Idiot’s Guide to Study Skills-Randall S. Hansen 2008 Instructs students on developing effective studying skills and habits, such as time management, note taking, and testing techniques, and outlines how to implement these skills to improve academic performance.

How the Pro-Choice Movement Saved America-Christina Page 2008-07-31 With a new preface by the author. In the tradition of Backlash and The Morning After, and in a political climate where Roe v. Wade is in serious jeopardy, a young activist reveals that the Pro-Life Movement’s real agenda is a war on contraception, family planning, and sexual freedom.

Linking Up Contrastive and Learner Corpus Research-Gaëtanelle Gilquin 2008-01 The papers brought together in this volume explore, through corpus data, the link between contrastive and interlanguage analysis. Learner corpora are approached from a contrastive perspective, by comparing them with native corpora or corpus data produced by learners from other mother tongue backgrounds, or by combining them with contrastive data from multilingual (translation or comparable) corpora. The integration of these two frameworks, contrastive and learner corpus research, makes it possible to highlight crucial aspects of learner production, such as features of non-nativeness (errors, over- and underuse, unidiomatic expressions), including universal features of interlanguage, or more general issues like the question of transfer. The ten papers of this volume cover topics ranging from methodology to syntax (e.g. adverb placement, postverbal subjects), through lexis (collocations) and discourse (e.g. information packaging, thematic choice). The languages examined include English, Chinese, Dutch, French and Spanish. The book will be of interest to a wide array of readers, especially researchers in second language acquisition and contrastive linguistics, but also professionals working in foreign language teaching, such as language teachers, materials writers and language testers.

After Roe-Mary Ziegler 2015-06-15 In the decade after the 1973 Supreme Court decision on abortion, advocates on both sides sought common ground. But as pro-abortion and anti-abortion positions hardened over time into pro-choice and pro-life, the myth was born that Roe v. Wade was a ruling on a woman’s right to choose. Mary Ziegler’s account offers a corrective.

Civil Dialogue on Abortion-Bertha Alvarez Manninen 2018-02-07 Civil Dialogue on Abortion provides a cutting-edge discussion between two philosophy scholars on each side of the abortion debate. Bertha Alvarez Manninen argues for her pro-choice view, but also urges respect for the life of the fetus, while Jack Mulder argues for his pro-life view, but recognizes that for the pro-life movement to be consistent, it must urge society to care more for the vulnerable. Coming together to discuss their views, but also to seek common ground, the two authors show how their differing positions nevertheless rest upon some common convictions. The book helps to provide a way forward for a divide that has only seemed to widen the aisle of public discourse in recent years. This engaging book will prove essential reading for students across multiple disciplines, including applied ethics, medical ethics, and bioethics, but will also be of interest to students of religious studies and women’s studies.

Legalized Abortion and the Public Health-Institute of Medicine (U.S.) 1975

Killing for Life-Carol Mason 2018-08-06 How can those who seek to protect the “right to life” defend assassination in the name of saving lives? Carol Mason investigates this seeming paradox by examining pro-life literature—both archival material and writings from the front lines of the conflict. Her analysis reveals the apocalyptic threat that is the ideological link between established anti-abortion organizations and the more shadowy pro-life terrorists who subject clinic workers to anthrax scares, bombs, and bullets. The portrayal of abortion as “America’s Armageddon” began in the 1960s. In the 1970s, Mason says, Christian politics and the post-Vietnam paramilitary culture popularized the idea that legal abortion is a harbinger of apocalypse. By the 1990s, Mason asserts, even the movement’s mainstream had taken up the call, narrating abortion as an apocalyptic battle between so-called Christian and anti-Christian forces. “Pro-life violence of the 1990s signaled a move away from protest and toward retribution,” she writes. “Pro-life retribution is seen as a way to restore the order of God. In this light, the phenomenon of killing for ‘life’ is revealed not as an oxymoron, but as a logical consistency and a political manifestation of religious retribution.” Mason’s scrutiny of primary sources (direct mail, internal memoranda, personal letters, underground manuals, and pro-life films, magazines, and novels) draws attention to elements of pro-life millennialism. Killing for Life is a powerful indictment of pro-life ideology as a coherent, mass-produced narrative that does not merely condone violence, but anticipates it as part of “God’s plan.”

Arguments about Abortion-Kate Greasley 2017-01-19 Does the morality of abortion depend on the moral status of the human fetus? Must the law of abortion presume an answer to the question of when personhood begins? Can a law which permits late abortion but not infanticide be morally justified? These are just some of the questions this book sets out to address. With an extended analysis of the moral and legal status of abortion, Kate Greasley offers an alternative account to the reputable arguments of Ronald Dworkin and Judith Jarvis Thomson and instead brings the philosophical notion of ‘personhood’ to the foreground of this debate. Structured in three parts, the book will (I) consider the relevance of prenatal personhood for the moral and legal evaluation of abortion; (II) trace the key features of the conventional debate about when personhood begins and explore the most prominent issues in abortion ethics literature: the human equality problem and the difference between abortion and infanticide; and (III) examine abortion law and regulation as well as the differing attitudes to selective abortion. The book concludes with a snapshot into the current controversy surrounding the scope of the right to conscientiously object to participation in abortion provision.

The Safety and Quality of Abortion Care in the United States-National Academies of Sciences, Engineering, and Medicine 2018-05-24 Abortion is a legal medical procedure that has been provided to millions of American women. Since the Institute of Medicine first reviewed the health implications of national legalized abortion in 1975, there has been a plethora of related scientific research, including well-designed randomized clinical trials, systematic reviews, and epidemiological studies examining abortion care. This research has focused on examining the relative safety of abortion methods and the appropriateness of methods for different clinical circumstances. With this growing body of research, earlier abortion methods have been refined, discontinued, and new approaches have been developed. The Safety and Quality of Abortion Care in the United States offers a comprehensive review of the current state of the science related to the provision of safe, high-quality abortion services in the United States. This report considers 8 research questions and presents conclusions, including gaps in research.

Defending Life-Francis J. Beckwith 2007-08-13 Defending Life is arguably the most comprehensive defense of the pro-life position on abortion - morally, legally, and politically - that has ever been published in an academic monograph. It offers a detailed and critical analysis of Roe v. Wade and Planned Parenthood v. Casey as well as arguments by those who defend a Rawlsian case for abortion-choice, such as J. J. Thomson. The author defends the substance view of persons as the view with the most explanatory power. The substance view entails that the unborn is a subject of moral rights from conception. While defending this view, the author responds to the arguments of thinkers such as Boonin, Dworkin, Stretton, Ford and Brody. He also critiques Thomson’s famous violinist argument and its revisions by Boonin and McDonagh. Defending Life includes chapters critiquing arguments found in popular politics and the controversy over cloning and stem cell research.

A Raisin in the Sun-Lorraine Hansberry 2017-04-29 “A Raisin in the Sun” reflects Lorraine Hansberry’s childhood experiences in segregated Chicago. This electrifying masterpiece has enthralled audiences and has been heaped with critical accolades. “The play that changed American theatre forever” - The New York Times.

Should Abortion Be Legalized?-Patrick Kimuyu 2017-11-29 Essay from the year 2016 in the subject Medicine - Other, grade: 1, Egerton University, language: English, abstract: This argument paper will give an overview over the issue of abortion and attempt to provide a justification for the legalization of abortion. Abortion is seemingly becoming an enormous public health challenge in the United States. It has also emerged to be one of the most contentious social issues among the U.S population, leading to an unprecedented debate over its legalization. This debate can be attributed to the current situation whereby the prevalence rates of abortion seem to have assumed upward trends. It is quite surprising to learn that almost half of pregnancies among women, in the United States are unintended; thus, termination of the pregnancies serves as the most appropriate alternative. It has been found out that half of the women experiences at least one unintended pregnancy before the age of 45 years, and a third of these pregnancies are terminated. In the past decade, cases of abortion have increased significantly and this change in prevalence trends is believed to have been caused by an array of social, medical and economic factors. Currently, epidemiological reports indicate that four women out of ten pregnant women carry out abortion, in the U.S. However, it is worth noting that the prevalence of abortion among different social classes of people with different socioeconomic status are relatively variant, owing to the differences in conception rates. In the past two decades, unintended pregnancy rates among women with low socioeconomic status increased by 50%, whereas the rates decreased by 29% among women with high socioeconomic status. These epidemiological trends have caused uproar in the society, leading to the current abortion debate. Despite the controversy overshadowing the issue, abortion appears to be a personal issue because; it influences one’s health and social life.

Taking Chances-Kristin Luker 1978-01-01 A study of the contraceptive practices of a large sample of clients in a California abortion clinic challenges common assumptions about the social and psychological trauma associated with abortion as a means of birth control

Abortion Rights as Religious Freedom-Peter Wenz 2010-05-18 Wenz argues that the Supreme Court reached the right decision in Roe v. Wade but for the wrong reasons.

Her Body, Our Laws-Michelle Oberman 2018 Drawing on her years of research in El Salvador--the only country to ban abortion without exception--Oberman explores what happens when a country makes ending a pregnancy a crime. She reveals the practical experiences of criminalizing abortion, such as selective enforcement, mistaken diagnoses, wrongful convictions, and a thriving black market in abortion drugs. She then turns her attention to Oklahoma, one of the most pro-life states, and reveals how abortion-related laws become incentives or penalties, nudging pregnant women in one direction or another. -- adapted from publisher info Sexual Rhetorics-Jonathan Alexander 2015-10-16 Sexual rhetoric is the self-conscious and critical engagement with discourses of sexuality that exposes both their naturalization and their queering, their torquing to create different or counter-discourses, giving voice and agency to multiple and complex sexual experiences. This volume explores the intersection of rhetoric and sexuality through the varieties of methods available in the fields of rhetoric and writing studies, including case studies, theoretical questioning, ethnographies, or close (and distant) readings of “texts” that help us think through the rhetorical force of sexuality and the sexual force of rhetoric.

The Moral Case for Abortion-Ann Furedi 2016-07-27 This thought-provoking book sets out the ethical arguments for a woman’s right to choose. Drawing on the traditions of sociological thinking and moral philosophy, it maintains that there is a strong moral case for recognizing autonomy in personal decision-making about reproductive intentions. More than this, it argues that to prevent a woman from making her own choice to continue or end her pregnancy is to undermine the essence of her humanity. The author, a provider of abortion services in the UK, asserts that true respect for human life and true regard for individual conscience demand that we respect a woman’s right to decide, and that support for a woman’s right to a termination has moral foundations and ethical integrity. This fresh perspective on abortion will interest both pro- and anti-choice individuals and organizations, along with academics in the fields of gender studies, philosophy, ethics and religion. Listen to Ann Furedi and three distinguished panelists discuss her book here.

Accordion Crimes-Annie Proulx 2007-12-01 Pulitzer Prize-winning author Annie Proulx brings the immigrant experience to life in this stunning novel that traces the ownership of a simple green accordion. E. Annie Proulx’s Accordion Crimes is a masterpiece of storytelling that spans a century and a continent. Proulx brings the immigrant experience in America to life through the eyes of the descendants of Mexicans, Poles, Africans, Irish-Scots, Franco-Canadians and many others, all linked by their successive ownership of a simple green accordion. The music they make is their last link with the past—voice for their fantasies, sorrows and exuberance. Proulx’s prodigious knowledge, unforgettable characters and radiant language make Accordion Crimes a stunning novel, exhilarating in its scope and originality.

Survival-Robert Frew 1985

The Mind in the Making-James Harvey Robinson 1921 “Some suggestions in regard to reading”; pages [231]-235.

The Ethics of Abortion-Christopher Kaczor 2010-10-04 Appealing to reason rather than religious belief, this book is the most comprehensive case against the choice of abortion yet published. The Ethics of Abortion critically evaluates all the major grounds for denying fetal personhood, including the views of those who defend not only abortion but also infanticide. It also provides several (non-theological) justifications for the conclusion that all human beings, including those in utero, should be respected as persons. This book also critiques the view that abortion is not wrong even if the human fetus is a person. The Ethics of Abortion examines hard cases for those who are prolife, such as abortion in cases of rape or in order to save the mother’s life, as well as hard cases for defenders of abortion, such as sex selection abortion and the rationale for being “personally opposed” but publicly supportive of abortion. It concludes with a discussion of whether artificial wombs might end the abortion debate. Answering the arguments of defenders of abortion, this book provides reasoned justification for the view that all intentional abortions are morally wrong and that doctors and nurses who object to abortion should not be forced to act against their consciences.

Abortion-Mary E. Williams 2002 Presents opposing viewpoints on the legality, morality, responsibility for, and justification of abortion, and includes critical thinking skills activities.

Writing Argumentative Essays-Nancy V. Wood 2000-05 This brief rhetoric helps students develop strategies for critical reading, critical thinking, research, and writing that will help them argue clearly and convincingly. It teaches them to identify and develop arguments, to read and form reactions and opinions of their own, to analyze an audience, to seek common ground, and to use a wide, realistic range of techniques to write argument papers that express their individual views and original perspectives on modern issues. It includes clear explanations and examples of argument theory and reading and writing processes, research and documentation skills, and offers engaging, class-tested writing assignments and activities. 49 Essays for Analysis cover several broad issue and sub-issue areas, all of contemporary concern. Unique chapters discuss student argument styles, Rogerian argument, and argument and literature.

Instructor’s Manual to Accompany Writing Research Papers-James D. Lester (Jr.) 1999

Should Abortion be legal?-Faith Kamau 2014-04-10 Essay from the year 2010 in the subject Sociology - Medical Care, grade: B, The University of Texas at Austin, language: English, abstract: From research which was carried by the World Health Organization, there are about four thousand abortions made every single day in America. And world wide, the numbers of abortions in a single day are about one hundred twenty thousand. The issue on whether abortion should be legalized is still bothering many people’s minds and the question is, what is abortion? This can be referred to as pregnancy destruction accidentally in form of a miscarriage or by someone’s willed. Therefore we would be weighing the merits and demerits of abortion and discover if abortion legalization is a significant right women should have. Abortions that come up as a result of rape and possible health concerns to a mother are about 7% from the research made by doctors. But social and personal factors are the major cause for most of the abortions.

The Liberal Case Against Abortion-Vasu Murti 2006-01-01 “Murti attempts to explore, without religion, one of the most contentious issues of our day: the question of abortion. For as much as the atomic bomb forever altered questions about war and peace, so has abortion forever altered the meaning of human life and our responsibility to it. By creatively and passionately using the universal question of the rights of animals, Murti analyzes the rights of the unborn. The power of his persuasion is not based on one or more bodies of religious thought, but on sentient beings’ natural tendency to protect one another.” - From the Forword by Carol Crossed, President, Democrats for Life of America Activist Vasu Murti, a card-carrying member of the People for Ethical Treatment of Animals (PETA) and the American Civil Liberties Union (ACLU), presents a formidable case against abortion, using reasoning and arguments based upon liberal philosophy.

I Know Why the Caged Bird Sings-Maya Angelou 2010-07-21 Here is a book as joyous and painful, as mysterious and memorable, as childhood itself. I Know Why the Caged Bird Sings captures the longing of lonely children, the brute insult of bigotry, and the wonder of words that can make the world right. Maya Angelou’s debut memoir is a modern American classic beloved worldwide. Sent by their mother to live with their devout, self-sufficient grandmother in a small Southern town, Maya and her brother, Bailey, endure the ache of abandonment and the prejudice of the local “powhitetrash.” At eight years old and back at her mother’s side in St. Louis, Maya is attacked by a man many times her age—and has to live with the consequences for a lifetime. Years later, in San Francisco, Maya learns that love for herself, the kindness of others, her own strong spirit, and the ideas of great authors (“I met and fell in love with William Shakespeare”) will allow her to be free instead of imprisoned. Poetic and powerful, I Know Why the Caged Bird Sings will touch hearts and change minds for as long as people read. “I Know Why the Caged Bird Sings liberates the reader into life simply because Maya Angelou confronts her own life with such a moving wonder, such a luminous dignity.”—James Baldwin From the Paperback edition.

Hills Like White Elephants-Ernest Hemingway 2013-01-29 A man and his girlfriend wait for a train to Madrid at station in rural Spain, the almost casual nature of their conversation evading the true emotional depth of what’s happening between the two of them. “Hills Like White Elephants” is considered to be among Ernest Hemingway’s best short fiction, showcasing the author’s powerful ability to strip writing down to its bare bones and allow the reader’s imagination to fill in the subtext. One of America’s foremost journalists and authors, Ernest Hemingway as also a master of the short story genre, penning more than fifty short stories during his career, many of which featured one of his most popular prose characters, Nick Adams. The most popular of Hemingway’s short stories include “Hills Like White Elephants,” “Indian Camp,” “The Big Two-Hearted River,” and “The Snows of Kilimanjaro.” HarperCollins brings great works of literature to life in digital format, upholding the highest standards in ebook production and celebrating reading in all its forms. Look for more titles in the HarperCollins short-stories collection to build your digital library.

The Samurai’s Garden-Gail Tsukiyama 2008-06-24 The daughter of a Chinese mother and a Japanese father, Gail Tsukiyama’s The Samurai’s Garden uses the Japanese invasion of China during the late 1930s as a somber backdrop for this extraordinary story. A 20-year-old Chinese painter named Stephen is sent to his family’s summer home in a Japanese coastal village to recover from a bout with tuberculosis. Here he is cared for by Matsu, a reticent housekeeper and a master gardener. Over the course of a remarkable year, Stephen learns Matsu’s secret and gains not only physical strength, but also profound spiritual insight. Matsu is a samurai of the soul, a man devoted to doing good and finding beauty in a cruel and arbitrary world, and Stephen is a noble student, learning to appreciate Matsu’s generous and nurturing way of life and to love Matsu’s soulmate, gentle Sachi, a woman afflicted with leprosy.

Sex and the State-Mala Nani Huun 2003-04-07 Sex and the State explores patterns of gender-related policy reform in Argentina, Brazil, and Chile.

Selected Writings of Mahatma Gandhi-Mahatma Gandhi 1973

Abortion in America-James C. Mohr 1979-09-20 Chronicles the incidence of abortion in nineteenthand twentieth-century America and the causes and processes of the profound social change which resulted, by 1900, in the nearly universal legal proscription of abortion.

Trust Women-Rebecca Todd Peters 2018-04-10 In an age in which women’s reproductive rights are increasingly under attack, a minister and ethicist offers a stirring argument that abortion can be a moral good Here’s a fact that we often ignore: unplanned pregnancy and abortion are a normal part of women’s reproductive lives. Roughly one-third of US women will have an abortion by age forty-five, and fifty to sixty percent of the women who have abortions were using birth control during the month they got pregnant. Yet women who have abortions are routinely shamed and judged, and safe and affordable access to abortion is under relentless assault, with the most devastating impact on poor women and women of color. Rebecca Todd Peters, a Presbyterian minister and social ethicist, argues that this shaming and judging reflects deep, often unspoken patriarchal and racist assumptions about women and women’s sexual activity. These assumptions are at the heart of what she calls the justification framework, which governs our public debate about abortion, and disrupts our ability to have authentic public discussions about the health and well-being of women and their families. Abortion, then, isn’t the social problem we should be focusing on. The problem is our inability to trust women to act as rational, capable, responsible moral agents who must weigh the concrete moral question of what to do when they are pregnant or when there are problems during a pregnancy. Ambitious in method and scope, Trust Women skillfully interweaves political analysis, sociology, ancient and modern philosophy, Christian tradition, and medical history, and grounds its analysis in the material reality of women’s lives and their decisions about sexuality, abortion, and child-bearing. It ends with a powerful re-imagining of the moral contours of pre-natal life and suggests we recognize pregnancy as a time when a woman must assent, again and again, to an ethical relationship with the prenatal.

Place Where the Sea Remembers-Sandra Benitez 1995-02-05 Finalist for the Los Angeles Times book award and winner of the Minnesota Book Award, A Place Where the Sea Remembers is a timeless classic, a mesmerizing world filled with love, betrayal, tragedy, and hope. This rich and bewitching story is a bittersweet portrait of the people in Santiago, a Mexican village by the sea. Chayo, the flower seller, and her husband Candelario, the salad maker, are finally blessed with the child they thought they would never have. Their cause for happiness, however, triggers a chain of events that impact the lives of everyone in their world. The hopes, triumphs, failures, and shortcomings of the novel’s enchanting array of characters create a graceful picture of life that is both a universal portrait and an insider’s look at life in Latin America.

Pro-Life Answers to Pro-Choice Arguments-Randy Alcorn 2009-01-21 As politicians, citizens, and families continue the raging national debate on whether it’s proper to end human life in the womb, resources like Randy Alcorn’s Prolife Answers to Prochoice Arguments have proven invaluable. With over 75,000 copies in print, this revised and updated guide offers timely information and inspiration from a “sanctity of life” perspective. Real answers to real questions about abortion appear in logical and concise form. The final chapter -- “Fifty Ways to Help Unborn Babies and Their Mothers”-- is worth the price of this book alone!

This is likewise one of the factors by obtaining the soft documents of this **argumentative research paper on abortion** by online. You might not require more mature to spend to go to the books introduction as capably as search for them. In some cases, you likewise pull off not discover the message argumentative research paper on abortion that you are looking for. It will categorically squander the time.
