instructions, uses, and some histories, categorized by type or function. It remains one of the most important and comprehensive books on knots. Due to its scope and wide availability, The Ashley Book of Knots has become a significant reference work in the field of knotting. The numbers Ashley assigned to each knot can be used to unambiguously identify them. This helps to identify knots despite local colloquialisms or identification changes. Citations to Ashley numbers are usually in the form: "The Constrictor Knot (ABOK #1249)", "ABOK #1249" or even simply "#1249" if the context of the reference is clear or already established. Some knots have more than one Ashley number due to having multiple uses or forms. For example, the main entry for #1249 is in the chapter on binding knots but it is also listed as #176 in a chapter on occupational knot usage. Contents: On knots -- Occupational knots -- Knob knots, single-strand stopper or terminal knots -- Knob knots, single-strand lanyard knots -- Knob knots, single-strand button knots -- Knob knots, multi-strand stopper or terminal knots -- Knob knots, two-strand lanyard knots -- Knob knots, multi-strand buttons, tied in hand -- Knob knots, multi-strand buttons, tied on the table -- Single-loop knots -- Double- and multiple-loop knots -- The noose -- Knots tied in the bright -- Clove hitch and other crossing knots -- Binding knots -- The turk's head -- Bends -- Shroud knots (multi-strand bends) -- Belaying and making fast -- Hitches to spar and rail (right-angle pull) -- Hitches to masts, rigging, and cable (lengthwise pull) -- Hitches to stake and post, pile and bollard -- Ring hitches -- Hooks, becketts, and toggles -- Miscellaneous holdfasts -- Occasional knots -- Lashings and slings -- The monkey's fist and other knot coverings -- Flat or two-dimensional knots -- Fancy knots -- Square knotting -- Tricks and puzzles -- Long and short splices (multi-strand bends) -- Eye splices (multi-strand loops) -- Odd splices -- Chain and crown sinnets -- Plat sinnets -- Solid sinnets -- Practical marlinspike seamanship -- Decorative marlinspike seamanship (applied knots). brings together twenty essays on diverse topics in the history and science of knots. It is divided into five parts, which deal respectively with knots in prehistory and antiquity, non-European traditions, working knots, the developing science of knots, and decorative and other aspects of knots. Its authors include archaeologists who write on knots found in digs of ancient sites (one describes the knots used by the recently discovered Ice Man); practical knotters who have studied the history and uses of knots at sea, for fishing and for various life support activities; a historian of lace; a computer scientist writing on computer classification of doilies; and mathematicians who describe the history of knot theories from the eighteenth century to the present day. In view of the explosion of mathematical theories of knots in the past decade, with consequential new and important scientific applications, this book is timely in setting down a brief, fragmentary history of mankind's oldest and most useful technical and decorative device — the knot.

Introduction.

Why Knot?-Philippe Petit 2013-04-09 “Mr. Petit is the perfect teacher” in this fascinating, educational volume on knot-tying—an art and science that has held civilization together (The Wall Street Journal). Philippe Petit is known for his astounding feat of daring when, on August 7, 1974, he stepped out on a wire illegally rigged between the World Trade Center’s twin towers in New York City. But beyond his balance, courage, and showmanship, there was one thing Petit had to be absolutely certain of—his knots. Without the confidence that his knots would hold, he never would have left the ground. In fact, while most of us don’t think about them beyond tying our shoelaces, the humble knot is crucial in countless contexts, from sailing to sports to industrial safety to art, agriculture, and more. In this truly unique book, Petit offers a guide to tying over sixty of his essential knots, with practical sketches illustrating his methods and clear tying instructions. Filled with photos in which special knots were used during spectacular high-wire walks, quirky knot trivia, personal anecdotes, helpful tips, magic tricks, and special tying challenges, Why Knot? will entertain and educate readers of all ages. “In reading Philippe’s book we are cogently reminded that without the ability to secure a rope, or tether a goat, or make fast the sheets of a galley, much of the civilization that we take for granted would disappear as easily as a slipknot in the hands of a Vegas conjuror.” —Sting, musician and activist “His descriptions are clear, he deploys humor frequently and he makes his points with anecdotes that are colorful and memorable. Explaining the purpose and creation of knots and thanks to those flawless drawings Mr. Petit earns perfect marks.”

The Shipping News-Annie Proulx 2008-01-01 Winner of the Pulitzer Prize, Annie Proulx's The Shipping News is a vigorous, darkly comic, and at times magical portrait of the contemporary North American family. Quoyle, a third-rate newspaper hack, with a "head shaped like a crenshaw, no neck, reddish hair...features as bunched as kissed fingertips," is wrenched violently out of his workaday life when his two-timing wife meets her just desserts. An aunt convinces Quoyle and his two emotionally disturbed daughters to return with her to the starkly beautiful coastal landscape of their ancestral home in Newfoundland. Here, on desolate Quoyle's Point, in a house empty except for a few mementos of the family's unsavory past, the battered members of three generations try to cobble up new lives. Newfoundland is a country of coast and cove where the mercury rarely rises above seventy degrees, the local culinary delicacy is cod cheeks, and it's easier to travel by boat and snowmobile than on anything with wheels. In this harsh place of cruel storms, a collapsing fishery, and chronic unemployment, the aunt

yacht upholsterer in nearby Killick-Claw, and Quoyle finds a job reporting the shipping news for the local weekly, the Gammy Bird (a paper that specializes in sexual-abuse stories and grisly photos of car accidents). As the long winter closes its jaws of ice, each of the Quoyles confronts private demons, reels from catastrophe to minor triumph—in the company of the obsequious Mavis Bangs; Diddy Shovel the strongman; drowned Herald Prowse; cane-twirling Beety; Nutbeam, who steals foreign news from the radio; a demented cousin the aunt refuses to recognize; the much-zipped Alvin Yark; silent Wavey; and old Billy Pretty, with his bag of secrets. By the time of the spring storms Quoyle has learned how to gut cod, to escape from a pickle jar, and to tie a true lover's knot.

Fifty Places to Sail Before You Die—Chris Santella 2012-11-16

Landlubbers joke that sailors are always wanting to head off to the ends of the earth, but Chris Santella takes that life-changing desire very seriously. In this, the third installment in his immensely successful *Fifty Places* series, Santella assembles a crew of the world's greatest championship racers and professional adventurers and persuades them to disclose their favorite destinations around the globe. Interviewees include some of the best-known men and women in the sport: Tom Whidden and Gary Jobson (members of the winning 1987 America's Cup crew), Jeff Johnstone (of J-Boats), award-winning sailing writer Lin Pardey, and many others. The amazingly diverse places they've selected range from clubby East Coast ports (Marblehead, Annapolis), to idyllic tropical refuges (Ilha Grande, Brazil; the Polynesian atoll of Mopelia), to some of the most hair-raisingly treacherous waters on earth (Cape Horn). Coastlines around the world—even Antarctica and the Arctic—are represented, and the chosen spots include some spectacular inland waters, such as the Bras d'Or Lakes and the North Channel of Lake Huron. For each of the 50 places, the sailor recommending the venue spins an entertaining yarn about his or her experience there, and each description is accompanied by a make you want to go there now photograph.

Into These Knots-Ashley McHugh 2010-10-16 The poems of Into These Knots, Ashley Anna McHugh's debut collection, glance from heaven to earth, from earth to heaven, interrogating and elucidating in elegant and supercharged speech ultimate questions and intimate foibles. With equal parts intelligence and passion, Ms. McHugh can quarrel with scripture or riff on the amorous pleadings of Andrew Marvell or the stark musings of Baudelaire. Ms. McHugh's poems resound with a songlike intensity and an arresting power entirely their own. Personal meditations on loss, and the need to reconcile with the past, ground this collection, even as the poems struggle against their precarious conclusions. Skillfully crafted, the poems in Into These Knots capture a precise clarity of cadence, accompanied by an exacting attention to the intricacies of traditional verse. Frequently returning to their tonic chord of doubt, the poems never abandon their search for a lasting belief, an attainable transcendence, and, above all, the possibility of forgiveness.

The Ash Warriors-C. R. Anderegg 2000 In November 1991 the American flag was lowered for the last time at Clark Air Base in the Philippines. This act brought to an end American military presence in the Philippines that extended back over 90 years. It also represented the final act in a drama that began with the initial rumblings in April of that year of the Mount Pinatubo volcano, located about 9 miles to the east of Clark. The following pages tell the remarkable story of the men and women of the Clark community and their ordeal in planning for and carrying out their

from Clark in the face of impending volcanic activity. It documents the actions of those who remained on the base during a series of eruptions, and the packing out of the base during subsequent months. This is the story of the "Ash Warriors," those Air Force men and women who carried out their mission in the face of an incredible series of natural disasters, including volcanic eruption, flood, typhoons, and earthquakes, all of which plagued Clark and the surrounding areas during June and July 1991. The author of "The Ash Warriors" knew the situation first hand. Colonel Dick Anderegg was the vice commander of the 3rd Tactical Fighter Wing when the volcano erupted, and he was at Clark throughout the evacuation and standing down of the base. He brought his own personal experience to bear in writing this story. He also conducted extensive research in the archives of the Pacific Air Forces and Thirteenth Air Force, utilized scores of interviews of those who witnessed and participated in the events, and visited Clark in 1998 to see in person how the installation had changed in the 8 years since the Americans left. This story is one of courage, resourcefulness, and dedication to duty on the part of Air Force men and women called upon to respond to one of the great natural disasters of the 20th Century. As the following pages reveal, the Ash Warriors were up to the challenge in every respect.

The Book of Sailing Knots-Peter Owen 2018-11-30 In recent years, sailing has undergone some revolutionary changes: Satellites and autopilots are now used for navigation. Artificial-fiber and wire ropes have nearly replaced natural-fiber ropes. But when it comes to decorative knotting, natural fiber is still the favored choice. This book is tops when it comes to learning how to master tying the most common sailing knots.
