Chasing Chaos-Jessica Alexander 2013-10-15 Jessica Alexander arrived in Rwanda in the aftermath of the 1994 genocide as an idealistic intern, eager to contribute to the work of the international humanitarian aid community. But the world that she encountered in the field was dramatically different than anything she could have imagined. It was messy, chaotic, and difficult—but she was hooked. In this honest and irreverent memoir, she introduces readers to the realities of life as an aid worker. We watch as she

manages a 24,000-person camp in Darfur, collects evidence for the Charles Taylor trial in Sierra Leone, and contributes to the massive aid effort to clean up a shattered Haiti. But we also see the alcohol-fueled parties and fleeting romances, the burnouts and self-doubt, and the struggle to do good in places that have long endured suffering. Tracing her personal journey from wide-eyed and naïve newcomer to hardened cynic and, ultimately, to hopeful but critical realist, Alexander transports readers to some of the most troubled locations around the world and shows us not only the seemingly impossible challenges, but also the moments of resilience and recovery.

Chasing Chaos-Jessica Alexander 2013 An experienced humanitarian worker who has helped the refugees in Rwanda, Sierra Leone, Darfur and Haiti gives an insider's view of the chaos and danger involved in such a pursuit, as well as the often-wild social lives that some workers lead to deal with the stress. Original.

The Chaos Imperative-Ori Brafman 2013-08-13 In the bestselling tradition of Switch and Made to Stick, Ori Brafman reveals how organizations can drive growth and profits by allowing contained chaos and disruption the space to flourish, generating new ideas that trigger innovation. In The Chaos Imperative, organizational expert and bestselling author Ori Brafman (Sway, The Starfish and the Spider) shows how even the best and most efficient organizations, from Fortune 500 companies to today's US Army, benefit from allowing a little unstructured space and disruption into their planning and decision-making.

The Idealist's Survival Kit-Alessandra Pigni 2016-12-27 75 brief self-care reflections to help aid workers, activists, and volunteers renew purpose and achieve fulfillment. Heal from over-exhaustion, prevent burnout, and regain your motivation with these short readings from a psychologist who has spent many years in the field working in conflict and disaster areas. Chasing Misery-Kelsey Hoppe 2014 "What motivates any of us to do the work we do? And more importantly does that work make a difference?" This is the question film producer and founder of

filmmaid.org, Caroline Baron, reflects on when she calls *Chasing Misery* an “unblinking” account of what it's like to be a woman on the front lines of global humanitarian responses. Twenty-one first person essays and 23 stunning photographs give readers a glimpse into the lives of real women who respond to emergencies—their hopes, fears, questions, challenges, frustrations as well as glimpses of the humour, beauty, and hope they find in the midst of misery.

Humanitarian Ethics-Hugo Slim 2015-01-09 Humanitarians are required to be impartial, independent, professionally competent and focused only on preventing and alleviating human suffering. It can be hard living up to these principles when others do not share them, while persuading political and military authorities and non-state actors to let an agency assist on the ground requires savvy ethical skills. Getting first to a conflict or natural catastrophe is only the beginning, as aid workers are usually and immediately presented with practical and moral questions about what to do next. For example, when does working closely with a warring party or an immoral regime move from practical cooperation to complicity in human rights violations? Should one operate in camps for displaced people and refugees if they are effectively places of internment? Do humanitarian agencies inadvertently encourage ethnic cleansing by always being ready to 'mop-up' the consequences of scorched earth warfare? This book has been written to help humanitarians assess and respond to these and other ethical dilemmas.

City of Thorns-Ben Rawlence 2016-01-05 To the charity workers, Dabaab refugee camp is a humanitarian crisis; to the Kenyan government, it is a 'nursery for terrorists'; to the western media, it is a dangerous no-go area; but to its half a million residents, it is their last resort. Situated hundreds of miles from any other settlement, deep within the inhospitable desert of northern Kenya where only thorn bushes grow, Dadaab is a city like no other. Its buildings are made from mud, sticks or plastic, its entire economy is grey, and its citizens survive on rations and luck. Over the course of four years, Ben Rawlence became a first-hand witness to a strange and desperate limbo-land, getting to know many of those who have come there

seeking sanctuary. Among them are Guled, a former child soldier who lives for football; Nisho, who scrapes an existence by pushing a wheelbarrow and dreaming of riches; Tawane, the indomitable youth leader; and schoolgirl Kheyro, whose future hangs upon her education. In *City of Thorns*, Rawlence interweaves the stories of nine individuals to show what life is like in the camp and to sketch the wider political forces that keep the refugees trapped there. Rawlence combines intimate storytelling with broad socio-political investigative journalism, doing for Dadaab what Katherine Boo's *Behind the Beautiful Forevers* did for the Mumbai slums. Lucid, vivid and illuminating, *City of Thorns* is an urgent human story with deep international repercussions, brought to life through the people who call Dadaab home.

*Promptings*-Kimberly Malkogainnis 2016-11-01 Do you frequently find yourself asking, "Why?" This book will, prayerfully, prompt you to see God acting in every circumstance in your life, from the mundane to the

monumental; to appreciate that the Creator does, indeed, cause "all things [to] work for good to them that love God, to them who are called according to His purpose." (Romans 8:28) Through prose and poems based on personal experiences, the author shares pieces of her journey through faith-building events. If you have trouble focusing on God and His agenda, this book will sharpen your vision and lead you to reconsider God's purpose for the events in which you may find yourself involved on a daily basis.

Emergency Sex (And Other Desperate Measures)-Andrew Thomson 2011-05-31 What it's really like on the frontline of humanitarian aid It's the early 1990s and three young people are looking to change their lives, and perhaps also the world. Attracted to the ambitious global peacekeeping work of the UN, Andrew, Ken and Heidi's paths cross in Cambodia, from where their fates are to become inextricably bound. Over the coming years, their stories interweave through countries such as Rwanda, Bosnia, Somalia and Haiti - war-torn, lawless places where the intervention of the UN is needed like nowhere else. Driven by idealism, the three struggle to do the best they can, caught up in an increasingly tangled web of bureaucracy and ineffectual leadership. As disillusionment sets in, they attempt to keep hold of their humanity through black humour, revelry and 'emergency sex'. Brutal and moving in equal measure, Emergency Sex (And Other Desperate Measures) explores pressing global issues while never losing a sense of the personal. Deeply critical of the West's indifference to developing countries and the UN's repeated failure to intervene decisively, the book provoked massive controversy on its initial publication. Kofi Annan called for the book to be banned, and debate was sparked about the future direction of the UN. Brilliantly written and mordantly funny, it is a book that continues to make waves.

Unapologetically, Me.-Synclaire Roberts 2014-10-11 This book is a compilation of my thoughts--

transformed into poems, quotes, and self notes. At the unseasoned age of 20, I can testify to life taking me through some expected changes and detours. There were many days that I couldn't speak, think, or even write clearly. Through silence, prayer, and this little writing outlet, I've learned so much. I've found inspiration in the most unexpected places. I've learned that it's okay to cry. It's okay to not know all the answers. It's okay to be you-- Unapologetically you. Sometimes, it's even okay to feel lost.. So long as you remember who you are. We're all destined for greatness and success. I pray this book opens minds, encourages smiles, and inspires creativity. Above all, I'm forever grateful to my Heavenly Father for his magnificent plan over my life.

Band-Aid for a Broken Leg-Damien Brown 2017-01-01 Damien Brown thinks he's ready when he arrives for his first posting with Medecins Sans Frontieres in Africa. But the town he's sent to is an isolated outpost of mud huts, surrounded by landmines; the hospital, for which he's to be the only doctor, is filled with malnourished children and conditions he's never seen; and the health workers - Angolan war veterans twice his age who speak no English - walk out on him following an altercation on his first shift. In the months that follow, Damien confronts these challenges all the while dealing with the social absurdities of living with only three other volunteers for company. The medical calamities pile up - leopard attacks, landmine explosions, performing surgery using tools cleaned on the fire - but as Damien's friendships with the local people evolve, his passion for the work grows. Written with great warmth and empathy, Band-Aid for a Broken Leg is a compassionate, deeply honest and often humorous account of life on the medical frontline in Angola, Mozambique and South Sudan. It is also a moving testimony to the work done by medical humanitarian groups and the remarkable, often eccentric people who work for them.

21 Aldgate-Patricia Friedberg 2010 21 ALDGATE by Patricia Friedberg is character-driven historical fiction set in pre-WWII London's Jewish East End and fashionable Chelsea, as well as in Germany and France . It is a fictionalized story of the relationship between the artist, Paul Maze, and his young married assistant, Clara, during and after the writing of his memoir of the Great War. A feature film based on the

author's screenplay of 21 Aldgate, titled "The One I Love," is presently in development by Progress Pictures, Ltd., U.K. and The Future Film Group, U.K. The target audience includes WWI and WWII history buffs, Jewish history enthusiasts, Anglophiles across the globe, and readers who enjoy a great love story. Similar to *The Postmistress* in tenor, 21 ALDGATE is a story of love and war that bears witness to the prejudice, bias, aggression and propaganda that influenced British society during the buildup to WWII.

Humanitarian Action and Ethics-Ayesha Ahmad 2018-06-15 From natural disaster areas to conflict zones, humanitarian workers today find themselves operating in diverse and difficult environments. While humanitarian work has always presented unique ethical challenges, such efforts are now further complicated by the impact of globalization, the escalating refugee crisis, and mounting criticisms of established humanitarian practice. Featuring contributions from humanitarian practitioners, health professionals, and social and political scientists, this book explores the question of ethics in modern humanitarian work, drawing on the lived experience of humanitarian workers themselves. Its essential case studies cover humanitarian work in countries ranging from Haiti and South Sudan to Syria and Iraq, and address issues such as gender based violence, migration, and the growing phenomenon of 'volunteer tourism'. Together, these contributions offer new perspectives on humanitarian ethics, as well as insight into how such ethical considerations might inform more effective approaches to humanitarian work.

Lane Changes-Anna Adams 2016-06-23 I waited until the last two years of high school to take Spanish and am now one of only three seniors; Sam and Rob are the others. Every day we have to conjugate verbs and today, the teacher was in a rare mood. Amar: to love That's what I associated with Rob Holland, the newest student at Naylorville High who somehow has the power to make me blush, stammer and trip all at once. Molestar: to annoy That should be Sam Seeley's middle name. Since seventh grade he has annoyed me to the point where I should earn a gold medal for ignoring him. Matar: to kill This is what I want to do to the person putting black origami roses in my locker, writing hateful notes, rude emails and texts and throwing a rock at my bedroom window. Nadar: to swim My one talent. A college scholarship I desperately

need. Something I never thought I wouldn't be able to do until an "accident" cuts my swim season short. Aprender: to learn I have a lot to learn. About Rob and how emotionally stunted a person can be. About Sam and how his life isn't better than anyone else's. About how one friend's mental illness can have lasting effects. About love. About myself...Lane Meyers.

In the novel she explores different kinds of love, and her observations about human nature are as acute here as in her longer works. In this particular attempt she especially identifies motherhood and mother's feelings for her children. An awakening attempt!

No Daffodils, No Clouds-Tom Lyford 2012-07-01 No Daffodils, No Clouds, like Tom Lyford's earlier poetry books, is a compendium of baby boomer Americana. The table of contents listing, with everything from "Brat Packs" and "Idiots' Guide to Wormholes" to "A Terrible Thing to Waste" and "Poem Nazis," reads like the big board of Alex Trebeck's Jeopardy categories. Allow Tom Lyford to personally introduce you to his unwitting mentors Janis Joplin, Bob Dylan, Tom Waits, Leonard Cohen, Stephen King, J. D. Salinger, and Ray Bradbury. Accept the tokens he offers for passage back through the Twilight Zone turnstile to relive those sights and sounds and smells of your '50s and '60s drive-in movie theater and roller skating pavilion. Contemplate his long view as to where we've been, and where we're headed. But you'll discover no "wandering lonely as a cloud" or "host of daffodils" here. Why? Because legions of Wordsworth wannabes have been doing that since 1802. What you will find, however, is a lot of humor and heart. You'll find accessible poems that you can understand. And you'll even find creative illustrations...

Boundaries-Douglas B. Carlyle 2013-08 Boundaries is a disturbing story about the blurred lines between love and betrayal, freedom and control, fantasy and treachery, good and evil, past and future. Mickey Rollins is a genius and entrepreneur about to introduce a revolutionary new therapy that will 'repair' injured or impaired brains. Their sputtering romance hits full speed when Mickey invites Diane to accompany him on a lavish and bizarre vacation to the exotic South Seas intended to stretch their senses, fulfill wild dreams, and bring them closer together. Disaster strikes, and it is Diane who becomes Mickey's first human test subject. There's a catch...the healing process requires a surrogate, and Mickey chooses their mutual friend, lover and temptress—the beautiful Suki. The resurrection of Diane that transpires is not only a transfer of physical and cerebral attributes, but a blending of relationships, feelings, and emotions, drawing many into the fray, ending as shockingly as it begins.

Fully Human-Lindsey N. Kingston 2019-03-06 Citizenship within our current international system signifies being fully human, or being worthy of fundamental human rights. For some vulnerable groups, however, this form of political membership is limited or missing entirely, and they face human rights challenges despite a prevalence of international human rights law. These protection gaps are central to hierarchies of personhood, or inequalities that render some people more "worthy" than others for protections and political membership. As a remedy, Lindsey N. Kingston proposes the ideal of "functioning citizenship," which requires an active and mutually-beneficial relationship between the state and the individual and necessitates the opening of political space for those who cannot be neatly categorized. It signifies membership in a political community, in which citizens support their government while enjoying the protections and services associated with their privileged legal status. At the same time, an inclusive understanding of functioning citizenship also acknowledges that political membership cannot always be limited by the borders of the state or proven with a passport. Fully Human builds its theory by looking at several hierarchies of personhood, from the stateless to the forcibly displaced, migrants, nomadic peoples, indigenous nations, and "second class" citizens in the United States. It challenges the binary between citizen and noncitizen, arguing that rights are routinely violated in the space between the two. By recognizing these realities, we uncover limitations built into our current international system--but also begin to envision a path toward the realization of human rights norms founded on universality and inalienability. The ideal of functioning citizenship acknowledges the persistent power of the state, yet it does not rely solely on traditional conceptions of citizenship that have proven too flawed and limited for securing true rights protection.

The Humanitarian Fix-Joe Cropp 2021-01-18 This book investigates how humanitarians balance the laws and principles of civilian protection with the realities of contemporary warzones, where non-state armed actors assert cultural, political and religious traditions that are often at odds with official frameworks. This book argues that humanitarian protection on the ground is driven not by official frameworks in the traditional sense, but by the relationships between the complex mix of actors involved in contemporary wars. The frameworks, in turn, act as a unifying narrative that preserves these relationships. As humanitarian practitioners navigate this complex space, they act as unofficial brokers, translating the official frameworks to align with the often-divergent agendas of non-state armed actors. In doing so, they provide an unofficial humanitarian fix for the challenges inherent in applying the official frameworks in contemporary wars. Drawing on rich ethnographic observations from the author's time in northern Iraq, and complemented by interviews with a range of fieldworkers and humanitarian policy makers and lawyers, this book will be a compelling read for researchers and students within humanitarian and development studies, and to practitioners and policy makers who are grappling with the contradictions this book explores.

The Cloud-Matt Richtel 2013-01-29 The Cloud is an exhilarating, cutting-edge thriller from Pulitzer Prize winner and New York Times technology and science reporter Matt Richtel. When the next generation of technology seeps into the brains of the next generation of people, former medical student turned journalist Nat Idle must investigate and stop the invasion. In the tradition of Lisa Gardner, Steve Berry, and Joseph Finder, Richtel has delivered a whip-smart page-turner that melds cutting-edge science with a technological mystery and a shocking finale. A deftly told tale, the scariest part of The Cloud is how close to reality it could be. The Cloud, the second in the Nat Idle series, includes a bonus short story, "Floodgate."

Chasing Alpha-Philip Augar 2009 "\* Chasing Alpha is the definitive insider's history of Britain's financial services sector, from the early days of New Labour to the present day. At the heart of the action is the

revival of the City's institutions in the mid-nineties. Augar uses his peerless connections with the people and firms that made it happen to give a compelling narrative of how the City's golden generation turned London round. Then, as so often happens in finance, the City got carried away with its own success, boasting of a new risk-free economic paradigm that would make the world a richer place. Northern Rock gave the lie to this claim. Far from heralding the eclipse of finance capital, Augar will show how the City stands poised to emerge from the credit crunch stronger than ever. As New Labour heads towards electoral meltdown, the industry it did so much to nurture will embrace the opportunities afforded by David Cameron's even more business-friendly Conservatives. The guiding principle of th
