A Garden of My Life-Cheryl Ainsworth Martin 2016-09-02 Poetry is a shortcut to literacy. This book captures the rhyme and the rhythm of words. It is about feelings and emotions from the heart. It is about the soul. We feed the soul with poetry. It is about life, as we experience multiculturalism in the melting pot of New York. It describes the flavor of words and beats as they occur on a daily basis in the metropolitan areas in the cities. Cooked-Up Poetry is about the different ways that people express themselves on a daily basis. It shows the essence of living by lining up passion with poetry. It shows that we are one in the spirit, caring and sharing. The book celebrates cultures as being at the center of everything we do.

Wildest Lives of the Frontier-John Richard Stephens 2016-10-03 By and about the greatest celebrities of frontier America, these are the stories of their adventures told in their own words through excerpts from autobiographies, articles they wrote, newspaper interviews, private journals, personal letters, and court testimony. These glimpses into the worlds of these legendary figures as they describe their own personal experiences, impressions, what life in the frontier West was like, reveal the roles they played in notable events in American history.

Jefferson Davis and the World's Tribute to His Memory - Memorial-J. W. M. Jones 2007-03 PREFACE. THE Author of this very practical treatise on Scotch Loch - Fishing desires clearly that it may be of use to all who had it. He does not pretend to have written anything new, but to have attempted to put what he has to say in as readable a form as possible. Everything in the way of the history and habits of fish has been studiously avoided, and technicalities have been used as sparingly as possible. The writing of this book has afforded him pleasure in his leisure moments, and that pleasure would be much increased if he knew that the perusal of it would create any bond of sympathy between himself and the angling community in general. This section is interleaved with blank sheets for the readers notes. The Author need hardly say that any suggestions addressed to the case of the publishers, will meet with consideration in a future edition. We do not pretend to write or enlarge upon a new subject. Much has been said and written-and well said and written too on the art of fishing but loch-fishing has been rather looked upon as a second-rate performance, and to dispel this idea is one of the objects for which this present treatise has been written. Far be it from us to say anything against fishing, lawfully practised in any form but many pent up in our large towns will bear us out when me say that, on the whole, a days loch-fishing is the most convenient. One great matter is, that the loch-fisher is depend- ent on nothing but enough wind to curl the water, -and on a large loch it is very seldom that a dead calm prevails all day, -and can make his arrangements for a day, weeks beforehand whereas the stream- fisher is dependent for a good take on the state of the water and however pleasant and easy it may be for one living near the banks of a good trout stream or river, it is quite another matter to arrange for a days river-fishing, if one is looking forward to a holiday at a date some weeks ahead. Providence may favour the expectant angler with a good day, and the water in order but experience has taught most of us that the good days are in the minority, and that, as is the case with our rapid running streams, - such as many of our northern streams are, -the water is either too large or too small, unless, as previously remarked, you live near at hand, and can catch it at its best. A common belief in regard to loch-fishing is, that the tyro and the experienced angler have nearly the same chance in fishing, -the one from the stern and the other from the bow of the same boat. Of all the absurd beliefs as to loch-fishing, this is one of the most absurd. Try it. Give the tyro either end of the boat he likes give him a cast of ally flies he may fancy, or even a cast similar to those which a crack may be using and if he catches one for every three the other has, he may consider himself very lucky. Of course there are lochs where the fish are not abundant, and a beginner may come across as many as an older fisher but we speak of lochs where there are fish to be caught, and where each has a fair chance. Again, it is said that the boatman has as much to do with catching trout in a loch as the angler. Well, we dont deny that. In an untried loch it is necessary to have the guidance of a good boatman but the same argument holds good as to stream-fishing...

Math Workbook for ISEE, SSAT & HSPT Prep-Allen Koh 2011-07-01 Cardinal Education is an educational consulting and tutoring company based in Palo Alto, CA. Guided by a philosophy of fulfilling students' academic potential in a way that boosts skills and confidence for life, we work to maximize successful middle school, high school, and college admissions outcomes. While some of our methods defy "conventional wisdom," we have a proven track record with a broad range of students: the Ivy League bound to those wishing to avoid community college, the self-motivated to the intransigently jaded, and the profoundly gifted to learning disabled. We have a passion for expanding students' dreams and helping them attain their goals. Cardinal Education believes in the social value of a strong public education system and sponsors pro bono programs to bring private sector expertise to bear. However, government fiscal policies are shortchanging public schools of opportunities: activities, sports, variety of classes, advanced classes, student: teacher ratios, and counseling departments. The "private school imperative" means that despite economic trends, admission to private school is becoming so competitive that it necessitates standardized testing excellence. The philosophy of this math workbook is rigor and drill. Because this is the first test students take that actively tries to trick students at every turn, students who sit for these standardized exams need reflexive familiarity with computation (math facts), problem types, and strategy. The entrance exams are the first standardized tests for which budgeting time is a significant issue. Students need to spend the majority of time on analysis to avoid getting tricked rather than computation. By building skills, speed, and confidence, we hope to eliminate anxiety and give students a solid foundation on which to build excellent scores. This book is intended as a supplement for our highly trained staff, so it does not include strategies. However, motivated students can use it successfully with occasional help from a teacher or parent. Each chapter is comprised of units, with each unit comprised of 4 problem sets of difficulty, increasing in a logically progressive manner. Students should do as many of the 4 problem sets for each unit as it takes to achieve a 90% accuracy rate. Students taking lower level exams should complete problems 1-10 in each set. Students competing for high school admissions should complete each problem set in its entirety.

Making Records-Phil Ramone 2007-10-09 Sinatra. Streisand. Dylan. Pavarotti. McCartney. Sting. Madonna. What do these musicians have in common besides their super-stardom? They have all worked with legendary music producer Phil Ramone. For almost five decades, Phil Ramone has been a force in the music industry. He has produced records and collaborated with almost every major talent in the business. There is a craft to making records, and Phil has spent his

life mastering it. For the first time ever, he shares the secrets of his trade. Making Records is a fascinating look "behind the glass" of a recording studio. From Phil's exhilarating early days recording jazz and commercial jingles at A&R, to his first studio, and eventual legendary producer status, Phil allows you to sit in on the sessions that created some of the most memorable music of the 20th century—including Frank Sinatra's Duets album, Bob Dylan's Blood on the Tracks, Ray Charles's Genius Loves Company and Paul Simon's Still Crazy After All These Years. In addition to being a ringside seat for contemporary popular music history, Making Records is an unprecedented tutorial on the magic behind what music producers and engineers do. In these pages, Phil offers a rare peek inside the way music is made . . . illuminating the creative thought processes behind some of the most influential sessions in music history. This is a book about the art that is making records—the way it began, the way it is now, and everything in between.

Practical Grammar of Modern Chinese II-Liu Yuehua 2020-10-28 Chinese grammar is characterized by its simple structure, lack of inflections, and wide use of monosyllabic morphemes. With the increasing popularity of learning Chinese as a second language, there is a demand for a guide to Chinese grammar that's targeted at second language learners. This four-volume set is one of the earliest and most influential works on Chinese grammar, with a special focus on teaching and learning Chinese as a second language. Utilizing their rich teaching experience, the authors analyze a myriad of authentic examples to describe the Chinese grammatical phenomenon and rules. This volume introduces the functional words in modern Chinese grammar, which include prepositions, conjunctions, auxiliary verbs, onomatopoeia, and interjections. Since the first edition came out in 1983, this set has been revised twice and remained one of the best sellers in this topic. Practitioners and scholars of teaching Chinese as a second language, as well as students with a basic knowledge of Chinese, will find it a handy reference.

A Tour of C++-Bjarne Stroustrup 2013-09-16 The C++11 standard allows programmers to express ideas more clearly, simply, and directly, and to write faster, more efficient code. Bjarne Stroustrup, the designer and original implementer of C++, thoroughly covers the details of this language and its use in his definitive reference, The C++ Programming Language, Fourth Edition. In A Tour of C++ , Stroustrup excerpts the overview chapters from that complete reference, expanding and enhancing them to give an experienced programmer—in just a few hours—a clear idea of what constitutes modern C++. In this concise, self-contained guide, Stroustrup covers most major language features and the major standard-library components—not, of course, in great depth, but to a level that gives programmers a meaningful overview of the language, some key examples, and practical help in getting started. Stroustrup presents the C++ features in the context of the programming styles they support, such as object-oriented and generic programming. His tour is remarkably comprehensive. Coverage begins with the basics, then ranges widely through more advanced topics, including many that are new in C++11, such as move semantics, uniform initialization, lambda expressions, improved containers, random numbers, and concurrency. The tour ends with a discussion of the design and evolution of C++ and the extensions added for C++11. This guide does not aim to teach you how to program (see Stroustrup's Programming: Principles and Practice Using C++ for that); nor will it be the only resource you'll need for C++ mastery (see Stroustrup's The C++ Programming Language, Fourth Edition, for that). If, however, you are a C or C++ programmer wanting greater familiarity with the current C++ language, or a programmer versed in another language wishing to gain an accurate picture of the nature and benefits of modern C++, you can't find a shorter or simpler introduction than this tour provides.

No Greater Valor-Jerome Corsi 2014-11-18 Jerome Corsi's newest opus, No Greater Valor, examines the Siege of Bastogne—one of the most heroic victories of WWII—with a focus on the surprising faith of the Americans who fought there. In December of 1944, an outmanned, outgunned, and surrounded US force fought Hitler's overwhelming Panzer divisions to a miraculous standstill at Bastogne. The underdogs had saved the war for the Allies. It was nothing short of miraculous. Corsi's analysis is based on a record of oral histories along with original field maps used by field commanders, battle orders, and other documentation made at the time of the military command. With a perspective gleaned from newspapers, periodicals, and newsreels of the day, Corsi paints a riveting portrait of one of the most important battles in world history.

Cracked Media-Caleb Kelly 2009 How the deliberate cracking and breaking of playback media has produced experimental music and sound by artists and musicians ranging from Nam June Paik and Christian Marclay to Yasunao Tone and Oval.

Athletico Mince-Bob Mortimer 2017-01 In the first book inspired by their wildly popular podcast, Bob Mortimer and Andy Dawson have tried their hardest to produce an authoritative guide to the past, present and future world of football. But, as in the podcast, they tend to get a bit side-tracked - as well as bringing you some (fairly) genuine football facts 'n' stats, Bob and Andy get waylaid with speculation about the lifestyle of baked bean-loving, yellow snake-owning former England boss Steve McClaren. There's also input from the Secret Soccer Superstar - a former player who lifts the lid on what it's really like to be a top, top pro. In keeping with the occasional non-football vibe of the podcast, there's also lifestyle hacks, domestic appliance tips and meat advice, as well as Bob and Andy's fact-files on each other and a definitive guide to lifting up celebrities. In summary, it's a bit of a mess. BUT, it's a beautiful, glorious, hilarious mess... and if you're not reduced to at least one convulsion while reading it, Bob and Andy are going to be very disappointed with you indeed. In fact, they might come round to your house and force you to KISS THE ALDERMAN!

Hydrophidian-Michael Manning 2002-11-01 Enter the sequel to the best-selling Spider Garden, the aqueous palace of the Water Snake Clan, a drowned surrealistic cathedral of the erotic. Witness a water ballet of rubber naiads. Meet Lichurna, Squamata Serpentine's incestuous twin sister. Watch the transformation of Arha from sensual concubine to latex-bound plaything. Experience the mystery of the beautiful Okami: her former master, Verio, will risk all to regain her.

LONE STAR SEDUCTION(Colored Version)-Day Leclair 2020-02-24 Being torn apart from his first love, Alex, a housekeeper's son, fell in love with his boss's daughter, Rebecca. Because of that, he and his whole family felt her father's wrath when they were fired. To protect his family and his younger sister, who was still only a child, he did whatever it took and became rather successful. He now had a mansion that rivaled Rebecca's father's. However, no matter how rich he got, he couldn't forget the shame and powerlessness he felt that day. Now a cruel millionaire himself, he comes face-to-face again with Rebecca to get his revenge...

Lumenagerie-Michael Manning 1996 The Lumenagerie is the House of the Creatures of Light and their Mistresses and Masters. It is the maze of black reflective planes against which their flesh shines brilliant and lustrous.

Rock: The Primary Text-Allan F. Moore 2017-10-03 This thoroughly revised second edition of Allan Moore's ground-breaking book features new sections on melody, Britpop, authenticity, intertextuality, and an extended discussion of texture. Rock's 'primary text' - its sounds - is the focus of attention here. Allan Moore argues for the development of a musicology particular to rock within the context of the background to the genres, the beat and rhythm and blues styles of the early 1960s, 'progressive' rock and subsequent styles. He also explores the fundamental issue of rock as a medium for self-expression, and the relationship of this to changing musical styles. Rock: The Primary Text remains innovative in its exploration of an aesthetics of rock.

Binaural Technique-Dorte Hammershoi 1995-12-01

Lone Star Seduction-Day Leclair 2009-12-01 He'd been the housekeeper's son, foolish enough to fall for the boss's daughter. Kicked to the curb, Alex Montoya had become a self-made millionaire with one agenda—revenge. Now he had Rebecca Huntington exactly where he wanted her...paying off her father's debts by being his housekeeper. Alex vowed he would not feel anything but cold disdain for the woman now at his mercy. But some memories were hard to erase, just as some desires were impossible to resist.

White Boys, White Noise: Masculinities and 1980s Indie Guitar Rock-Dr Matthew Bannister 2013-01-28 To what extent do indie masculinities challenge the historical construction of rock music as patriarchal? This key question is addressed by Matthew Bannister, involving an in-depth examination of indie guitar rock in the 1980s as the culturally and historically specific production of white men. Through textual analysis of musical and critical discourses, Bannister provides the first book-length study of masculinity and ethnicity within the context of indie guitar music within US, UK and New Zealand 'scenes'. Bannister argues that past theorisations of (rock) masculinities have tended to set up varieties of working-class deviance and physical machismo as 'straw men', oversimplifying masculinities as 'men behaving badly'. Such approaches disavow the ways that masculine power is articulated in culture not only through representation but also intellectual and theoretical discourse. By re-situating indie in a historical/cultural context of art rock, he shows how masculine power can be rearticulated through high, avant-garde, bohemian culture and aesthetic theory: canonism, negation (Adorno), passivity, voyeurism and camp (Andy Warhol and the Velvet Underground), and primitivism and infantilism (Lester Bangs, Simon Reynolds). In a related vein, he also assesses the impact of Freud on

cultural theory, arguing that reversing binary conceptions of gender by associating masculinities with an essentialised passive femininity perpetuates patriarchal dualism. Drawing on his own experience as an indie musician, Bannister surveys a range of indie artists, including The Smiths, The Jesus and Mary Chain, My Bloody Valentine and The Go-Betweens; from the US, R.E.M., The Replacements, Dinosaur Jr, Hüsker Dü, Nirvana and hardcore; and from NZ, Flying Nun acts, including The Chills, The Clean, the Verlaines, Chris Knox, Bailter Space, and The Bats, demonstrating broad continuities between these apparently disparate scenes, in terms of gender, aesthetic theory and approaches to popular musical history. The result is a book which raises some important questions about how gender is studied in popular culture and the degree to which alternative cultures can critique dominant representations of gender.

The Poetics of Rock-Albin Zak 2001-11-20 "Albin Zak's *The Poetics of Rock* is a brilliant and original study of how studio recordings of rock music have introduced an entirely new dimension of music composition. Bristling with acute insights and interpretations, this book should provide engaging reading for any serious student, scholar, or aficionado of rock, of composition, or of modern music culture in general."—Peter Manuel, author of *Cassette Culture: Popular Music and Technology in North India* "In *The Poetics of Rock*, Albin Zak offers an expert guide to how records are made, not only outlining in detail technical practices and procedures in a comprehensible way, but also thoughtfully engaging the myriad of aesthetic and musical issues that recording raises. This masterful study opens up important new areas of concern for rock and is a must-read for all scholars concerned with popular music and criticism."—John Covach, editor of *Understanding Rock: Essays in Musical Analysis*

Musicology: The Key Concepts-David Beard 2016-01-22 Now in an updated 2nd edition, *Musicology: The Key Concepts* is a handy A-Z reference guide to the terms and concepts associated with contemporary musicology. Drawing on critical theory with a focus on new musicology, this updated edition contains over 35 new entries including: Autobiography Music and Conflict Deconstruction Postcolonialism Disability Music after 9/11 Masculinity Gay Musicology Aesthetics Ethnicity Interpretation Subjectivity With all entries updated, and suggestions for further reading throughout, this text is an essential resource for all students of music, musicology, and wider performance related humanities disciplines.

Mathematics for Economics-Michael Hoy 2001 This text offers a presentation of the mathematics required to tackle problems in economic analysis. After a review of the fundamentals of sets, numbers, and functions, it covers limits and continuity, the calculus of functions of one variable, linear algebra, multivariate calculus, and dynamics.

The Natashas-Victor Malarek 2004-10-05 The buying and selling of human beings for the worldwide sex industry is organized crime's fastest-growing business with up to two million people globally—mostly women and children—being trafficked into the sex trade every year. In *The Natashas*, leading investigative journalist Victor Malarek details the tragic lives of the women and girls ensnared in the most recent wave of this brutal trade. He unearths evidence of training centers in Serbia where teenage girls from Ukraine, Moldova and Romania are viciously indoctrinated into the world of prostitution. He travels to war-torn countries such as Kosovo and Bosnia where he exposes corruption involving United Nations peacekeepers. And he uncovers scandalous situations throughout Europe, Israel and North America where the trafficking trade continues to flourish. Shocking stories of corrupt cops, complicit government officials and complacent politicians combine to form a powerful truth—one that Malarek hopes will not be ignored.

Principles of Digital Audio-Ken C. Pohlmann 1995

The Producer as Composer-Virgil Moorefield 2010 Virgil Moorefield traces the evolution of rock and pop music with detailed discussions of works by producers and producer-musicians. This book describes the importance of disco, hip-hop, remixing and other forms of electronic music production in shaping the sound of contemporary pop.

Music, Electronic Media and Culture-Simon Emmerson 2016-04-29 Technology revolutionised the ways that music was produced in the twentieth century. As that century drew to a close and a new century begins a new revolution in roles is underway. The separate categories of composer, performer, distributor and listener are being challenged, while the sounds of the world itself become available for musical use. All kinds of sounds are now brought into the remit of composition, enabling the music of others to be sampled (or plundered), including that of unwitting musicians from non-western cultures. This sound world may appear contradictory - stimulating and invigorating as well as exploitative and destructive. This book addresses some of the issues now posed by the brave new world of music produced with technology.

Analyzing Popular Music-Allan F. Moore 2003-05-22 How do we know music? We perform it, we compose it, we sing it in the shower, we cook, sleep and dance to it. Eventually we think and write about it. This book represents the culmination of such shared processes. Each of these essays, written by leading writers on popular music, is analytical in some sense, but none of them treats analysis as an end in itself. The book presents a wide range of genres (rock, dance, TV soundtracks, country, pop, soul, easy listening, Turkish Arabesk) and deals with issues as broad as methodology, modernism, postmodernism, Marxism and communication. It aims to encourage listeners to think more seriously about the 'social' consequences of the music they spend time with and is the first collection of such essays to incorporate contextualisation in this way.

Richard Prince-Richard Prince 2008 Ilse Zhalina is the daughter of one of Melnek's more prominent merchants. She has lived most of her life surrounded by the trappings of wealth and privilege. Many would consider hers a happy lot. But there are dark secrets, especially in the best of families. Ilse has learned that for a young woman of her beauty and social station, to be passive and silent is the best way to survive. When Ilse finally meets the older man she is to marry, she realizes he is far crueler and more deadly than her father could ever be. Ilse chooses to run. This choice will change her life forever. And it will lead her to Raul Kosenmark, master of one of the land's most notorious pleasure houses...and who is, as Ilse discovers, a puppetmaster of a different sort altogether. Ilse discovers a world where every pleasure has a price and there are levels of magic and intrigue she once thought unimaginable. She also finds the other half of her heart. *Passion Play* is Beth Bernobich's first novel.
