God's Big Design-Vaughan Roberts 2012-01-01 What was God thinking? We live in a complex and intricate world in a vast and awe-inspiring cosmos. It's difficult to look around and not think No one could think all of this up or Nothing makes sense in this world or even more troubling, This universe is so big that something as small as I am must be insignificant. Vaughan Roberts believes that these conclusions are tragically inaccurate. We lose sight of our Creator and his great purpose behind our creation when we indulge such feelings of meaninglessness. In God's Big Design he explores the first chapters of the Bible to consider five big questions: What is our Creator like? Why did God make human beings? What's so special about the earth? What does God think about sex and marriage? Is work a punishment or a gift from God? Reading God's Big Design will remind you that despite the immensity of God's creation, he has plans for each of us, and we can each find our place and meaning in him.

God Or Religion-Charles Young 2011-07 Religion to this author is a set of man-made ideas, doctrines, rituals, practices, and dogmas. Even though some of those ideas may be correct, such as the existence of God, the theologies wrapped around those correct ideas dilute their truths. Theology itself, (the study of God) is an imperfect practice. In actuality, theology is whatever a person says it is. Doctrine has become that which proves one's religion. As odd as it may sound, religion and God are NOT synonymous. Most of the world has some sort of religion but not many people have a spiritual relationship with God. This book helps to sort it out.
