Elementary Social Studies-June R. Chapin 2012-03-30 Elementary Social Studies: A Practical Guide, Eighth Edition, clearly presents, in a friendly tone, the essential content and methods for teaching social studies in the K-8 classroom, while reflecting on the recent trends in technology, teaching English Language Learners, and meeting the needs of diverse students. This brief, but thorough text deals with the various social studies disciplines in a way that reflects the field's greater focus on teaching history, geography, economics, and civic education. The content focuses on central concerns in teaching social studies in a standards-based environment, and prepares new teachers to successfully implement a social studies curriculum with concepts, strategies, and values relevant to elementary and middle grades. This edition has been thoroughly updated to include new content on technology (podcasts, blogs, e-books), a focus on teaching English Learners, and meeting the needs of diverse students. The text also features full chapters in history, civic education, geography, and economics with multiple activities to show how these subjects can be taught in a creative and engaging way to help all students to think and act as democratic citizens.

Social Studies, Literacy, and Social Justice in the Common Core Classroom-Ruchi Agarwal-Rangnath 2015-04-24 Inspired by the author's research and work with preservice and beginning teachers, this book presents a unique framework to help educators (grades 3-8) embed their efforts to teach social studies for social justice within the context of literacy. It is a resource for using primary and other sources to offer students new ways of thinking about history while meeting Language Arts Common Core Standards demands for information text and critical thinking. Grounded in the daily realities of today's public

schools, the framework offers a way of planning that takes into account teaching factors that include pressures for content coverage, preparing students for high-stakes tests, and the low importance placed by many districts on including social studies in the curriculum. Each chapter explains how teachers can restructure, reshape, and work with mandated curriculum materials to teach from a critical perspective. The book also discusses how to meet Common Core Standards by teaching language arts and social studies as complementary subjects. Book Features: Sample lessons. Text boxes indicating connections to Common Core Standards. Reflection exercises that help further extend concepts and understandings into classroom practice. Ruchi Agarwal-Rangnath is an adjunct professor in Elementary Education at San Francisco State University, and vice president of the National Association of Multicultural Education, California Chapter (NAME-CA). As an educational consultant she works with schools to develop and enrich their mission of teaching toward equity and social justice. “If you are a teacher, or preparing to become a teacher, this is a book you will want to keep so that you can refer back to it again and again. If you are a teacher educator, this is a book that will help you connect demands on teachers today with a compelling vision of academically rich, student-centered, social justice teaching. In either case, you are in for a treat.” —From the Foreword by Christine Sleeter, professor emeritus, California State University Monterey Bay “This is an important contribution for pre-service teachers and those in districts who are willing to think deeply about how to build content knowledge in an integrated fashion by combining social studies and language arts. Much more attention to social studies from the perspective of social justice is needed!” —Donna Ogle, professor emeritus, National-Louis University

Building Literacy in Social Studies-Donna Ogle 2007 Preparing students to be active, informed, literate citizens is one of the primary functions of public schools. But how can students become engaged citizens if they can't read, let alone understand, their social studies texts? What can educators--and social studies teachers in particular--do to help students develop the knowledge, skills, and motivation to become

engaged in civic life? Building Literacy in Social Studies addresses this question by presenting both the underlying concepts and the research-based techniques that teachers can use to engage students and build the skills they need to become successful readers, critical thinkers, and active citizens. The authors provide targeted strategies--including teaching models, graphic organizers, and step-by-step instructions--for activities such as * Building vocabulary, * Developing textbook literacy skills, * Interpreting primary and secondary sources, * Applying critical thinking skills to newspapers and magazines, and * Evaluating Internet sources. Readers will also learn how to organize classrooms into models of democracy by creating learning communities that support literacy instruction, distribute authority, encourage cooperation, and increase accountability among students. Realistic scenarios depict a typical social studies teacher's experience before and after implementing the strategies in the classroom, showing their potential to make a significant difference in how students respond to instruction. By making literacy strategies a vital part of content-area instruction, teachers not only help students better understand their schoolwork but also open students' eyes to the power that informed and engaged people have to change the world.
