Accounting and Financial Analysis in the Hospitality Industry-Jonathan Hales 2006-08-11 The objective of this textbook is to teach students to be conversational in speaking “numbers.” This means understanding fundamental accounting concepts, developing solid financial analysis abilities, and then applying them to understand and improve the operational performance of their hotel or restaurant. The book will accomplish this by studying the current practices of some of today’s leading hotel and restaurant companies. Chapters will be developed under the auspices of a select group of hospitality industry General Mangers, Directors of Finance, and Regional Accounting Managers to ensure that the information is current, accurate and useful. Understanding and applying the information will be the main focus of this book. This textbook should provide hospitality managers the knowledge and experience to be comfortable in using numbers to operate their departments. This includes developing the ability to perform all accounting and financial aspects of their position efficiently and correctly including revenue forecasting, wage scheduling, budgeting, P&L critiques, purchasing procedures and cost control methods. As a result, they will have more time to spend on the floor with their customers and employees. This knowledge will help them understand their operations and how to improve, change or expand them to increase revenues or profits.

Hotel Front Office Management-Lina Raske 2016-04-01 The front office is the nerve center of a hotel property. Communications and accounting are two of the most important functions of a front desk operation. Front office/reception is the first place where guests/customers arrive and come in touch with the staff. Front office/reception is the mirror of a hotel. The function of the front office is to directly get in touch with customers. The front office can discover more information about the customer by asking them questions and give answer ask by guest/customer also helping the customers out. Broadly speaking, front office includes roles that affect the right side (revenues) of trading statement of the business. Effective communications—with guests, employees, and other departments of the hotel—are paramount in projecting a hospitable image. Answering guest inquiries about hotel services and other guests, marketing and sales department requests for information on guest room availability, and housekeeping department inquiries concerning guest reservations are but a few of the routine tasks performed almost constantly by a hotel front desk in its role as communications hub. Accounting procedures involving charges to registered and nonregistered hotel guest accounts are also important in the hospitality field. Staff working in the front office can also deal with simple tasks, such as sorting emails and helping on printing and typing tasks. Front office staff needs to use different skills on technologies too, such as using the printers, fax machines and phone. The book Hotel Front Office Management addresses the demands for instructing future leaders of the hotel industry. Educators who are preparing professionals for roles as front office managers and general managers in hotels are required to meet the challenges of operations, technology, training, empowerment, and international applications.

The Blue Book-Mohamed Tolba 2020-09-19 The Blue Book is an ultimate guide for financial and management accounting in the hotel industry, and it is like no other. Some academic books for the hospitality industry do exist; however, as the term "hospitality industry" refers to lodging, food & beverage, event planning, transportation, and recreation, the industry is already complex on its own. It explains why such books do not conveniently cater to a hotel's needs.

Moreover, these books dedicate many pages to corporate financing, which has little or nothing to do with the property level. Although there are some ground rules within the hospitality industry, the hotel has its unique accounting procedures and techniques, and this is when this book plays a main role. With over twenty years of valuable experience with the best international hotel operators in six countries, the author shares the essential and practical knowledge and guidelines to build a strong Finance Division in hotels. Therefore, this book perfectly caters to all financial professionals, from the start of their careers to becoming finance leaders. The contents of this book are certainly comprehensive and thorough - highly relevant and easy to understand. This makes it suitable for financial professionals, stakeholders including division heads, general managers, auditors, owners, and owner's representatives. All will greatly benefit from it. The Blue Book includes the following two parts that provide the most essential needed information to understand the hotel finance functions and to build a strong finance division: Part One: Basic Accounting Part Two: Revenue Management Part Three: Cost Management Part Four: Labor Management Part Five: Other Expenses Guidelines Part Six: Financial Analysis Part Seven: Budgeting and Forecasting Part Eight: Cash Management Part Nine: Hotel Investments Part Ten: Hotel Management Software Part Eleven: Financial Functions and SOPs Part Twelve: Parent-Child Chart of Accounts This book uses the Uniform System of Accounts and GAAP as its main reference, ensuring that the information provided to the readers is the most updated and relevant version of the modern hotel industry.
