Hungarian Culture and Politics in the Habsburg Monarchy 1711-1848-Gábor Vermes 2014-05-10 This book describes and analyzes the critical period of 1711-1848 within Hungary from novel points of view, including close analyses of the proceedings of Hungarian diets. Contrary to conventional interpretations, the study, stressing the strong continuity of traditionalism in Hungarian thought, society, and politics, argues that Hungarian liberalism did not begin to flower in any substantial way until the 1830s and 1840s. Hungarian Culture and Politics in the Habsburg Monarchy also traces and evaluates the complex relationship between Austria and Hungary over this span of time. Past interpretations have, with only a few exceptions, tilted heavily towards the Austrian role within the Monarchy, both because its center was in Vienna and

because few non-Hungarian scholars can read Hungarian. This analysis redresses this balance through the use of both Austrian and Hungarian sources, demonstrating the deep cultural differences between the two halves of the Monarchy, which were nevertheless closely linked by economic and administrative ties and by a mutual recognition that co-existence was preferable to any major rupture. Government and Politics in Hungary-András Körösényi 1999-01-01 Based on unprecedented access to information, Government and Politics in Hungary provides not only a historical overview but also an analysis of the main political actors, constitution, electoral system, parliament and political parties of Hungary. This timely and detailed analysis contains a wealth of important data which serves two major objectives. The first is to survey the most important institutions of the political and governmental systems and the cultural and behavioural characteristics of Hungarian politics. The second, is to provide the reader with a clear understanding of the two-way relationship between cultural-behavioural and constitutional-institutional levels of politics in Hungary. The book challenges many stereotypes of post-communist political literature and reveals why Hungarian politics does not fit into many of the generalizations and 'pigeon holes' of contemporary political science.

Politics in Color and Concrete-Krisztina Fehérváry 2013-09-16 Material culture in Eastern Europe under state socialism is remembered as uniformly gray, shabby, and monotonous—the worst of postwar modernist architecture and design. Politics in Color and Concrete revisits this history by exploring domestic space in Hungary from the 1950s through the 1990s and reconstructs the multi-textured and politicized aesthetics of daily life through the objects, spaces, and colors that made up this lived environment. Krisztina Fehérváry shows that contemporary standards of living and ideas about normalcy have roots in late socialist consumer culture and are not merely products of postsocialist transitions or neoliberalism. This engaging study decenters conventional perspectives on consumer capitalism, home ownership, and citizenship in the new Europe.

Government and Politics in Hungary-András Körösényi 1999-01-01 A historical overview and analysis of the main political actors, constitution, electoral system, parliament, and political parties of

Hungary. Korosenyi (political science, Eotvos Lorand U., Budapest) aims to analyze the two-way relationship between the cultural-behavioral and constitutional-institutional levels of politics in Hungary.

Comparative Hungarian Cultural Studies-Steven Tötösy de Zepetnek 2011-08-05 The studies presented in the collected volume Comparative Hungarian Cultural Studies -- edited by Steven Totosy de Zepetnek and Louise O. Vasvari -- are intended as an addition to scholarship in (comparative) cultural studies. More specifically, the articles represent scholarship about Central and East European culture with special attention to Hungarian culture, literature, cinema, new media, and other areas of cultural expression. On the landscape of scholarship in Central and East Europe (including Hungary), cultural studies has acquired at best spotty interest and studies in the volume aim at forging interest in the field. The volume's articles are in five parts: part one, "History Theory and Methodology of Comparative Hungarian Cultural Studies," include studies on the prehistory of multicultural and multilingual Central Europe, where vernacular literatures were first institutionalized for developing a sense of national identity. Part two, "Comparative Hungarian Cultural Studies and Literature and Culture" is about the re-evaluation of canonical works, as well as Jewish studies which has been explored inadequately in Central European scholarship. Part three, "Comparative Hungarian Cultural Studies and Other Arts," includes articles on race, jazz, operetta, and art, fin-de-siecle architecture, communist-era female fashion, and cinema. In part four, "Comparative Hungarian Cultural Studies and Gender," articles are about aspects of gender and sex(uality) with examples from fin-de-siecle transvestism, current media depictions of heterodox sexualities, and gendered language in the workplace. The volume's last section, part five, "Comparative Hungarian Cultural Studies of Contemporary Hungary," includes articles about post-1989 issues of race and ethnic relations, citizenship and public life, and new media.

A History of the Hungarian Constitution-Ferenc Hörcher 2018-12-13 The new Hungarian Basic Law, which was ratified on 1 January 2012, provoked domestic and international controversy. Of particular concern was the constitutional text's explicit claim that it

was situated within a reinvigorated Hungarian legal tradition that had allegedly developed over centuries before its violent interruption during World War II, by German invaders, and later, by Soviet occupation. To explore the context and validity of this claim, and the legal traditions which have informed the stormy centuries of Hungary's constitutional development, this book brings together a group of leading historians, political scientists and legal scholars to produce a comprehensive history of Hungarian constitutional thought. Ranging in scope from an overview of Hungarian medieval jurisprudence to an assessment of the various criticisms levelled at the new Hungarian Basis Law of 2012, contributors assess the constitutions, their impacts and their legacies, as well as the social and cultural contexts within which they were drafted. The historical analysis is accompanied by a selection of original source materials, many translated here for the first time. This is the only book in English on the subject and is essential reading for all those interested in Hungary's history, political culture and constitution.

Great Expectations and Interwar Realities-Zsolt Nagy 2017-09-01 After the shock of the 1920 Treaty of Trianon, which Hungarians perceived as an unfair dictate, the leaders of the country found it imperative to change Hungary's international image in a way that would help the revision of the post-World War I settlement. The monograph examines the development of interwar Hungarian cultural diplomacy in three areas: universities, the tourist industry, and the media—primarily motion pictures and radio production. It is a story of the Hungarian elites' high hopes and deep-seated anxieties about the country's place in a Europe newly reconstructed after World War I, and how these elites perceived and misperceived themselves, their surroundings, and their own ability to affect the country's fate. The defeat in the Great War was crushing, but it was also stimulating, as Nagy documents in his examination of foreign-language journals, tourism, radio, and other tools of cultural diplomacy. The mobilization of diverse cultural and intellectual resources, the author argues, helped establish Hungary's legitimacy in the international arena, contributed to the modernization of the country, and established a set of enduring national images. Though the study is rooted in Hungary, it explores the dynamic and contingent relationship between identity construction and transnational cultural and political currents in East-Central European nations in the interwar period.

Democracy and Political Culture in Eastern Europe-Hans-Dieter Klingemann 2006-11-22 What is the relationship between democracy and political culture in countries undergoing major systemic change? Have subjective political orientations of citizens been important in shaping the development of democracy in central

and eastern Europe after the fall of communism? These core questions are tackled by an impressive range of twenty political scientists, sixteen of which are based in the central and eastern European countries covered in this essential new book. Their analyses draw on a unique set of data collected and processed by the contributors to this volume within the framework of the World Values Survey project. This data enables these authors to establish similarities and differences in support of democracy between a large number of countries with different cultural and structural conditions as well as historical legacies. The macro-level findings of the book tend to support the proposition that support of democracy declines the further east one goes. In contrast, micro-level relationships have been found to be astonishingly similar. For example, support of democracy is always positively related to higher levels of education - no matter where an individual citizen happens to live. This new book builds a clear understanding of what makes democracies strong and resistant to autocratic temptation.

The Political Economy of Hungary-Adam Fabry 2019-04-03 This book explores the political economy of Hungary from the mid-1970s to the present. Widely considered a 'poster boy' of neoliberal transformation in post-communist Eastern Europe until the mid-2000s, Hungary has in recent years developed into a model 'illiberal' regime. Constitutional checks-and-balances are non-functioning; the independent media, trade unions, and civil society groups are constantly attacked by the authorities; there is widespread intolerance against minorities and refugees; and the governing FIDESZ party, led by Prime Minister Viktor Orbán, controls all public institutions and increasingly large parts of the country's economy. To make sense of the politico-economical roller coaster that Hungary has experienced in the last four decades, Fabry employs a Marxian political economy approach, emphasising competitive accumulation, class struggle (both between capital and labour, as well as different 'fractions of capital'), and uneven and combined development. The author analyses the neoliberal transformation of the Hungarian political economy and argues that the drift to authoritarianism under the Orbán regime cannot be explained as a case of Hungarian exceptionalism, but rather represents an outcome of the inherent contradictions of the variety

of neoliberalism that emerged in Hungary after 1989.

Protestantism and Politics in Eastern Europe and Russia-Sabrina P. Ramet 1992 Coming at a time of enormous transformations in the one-time Communist bloc, this volume provides a much-needed perspective on the significance of church-state relations in the renaissance of civil society in the region. The essays collected here accentuate the peculiarly political character of Protestantism within Communist systems. With few identifiable leaders, a multiplicity of denominations, and a tendency away from hierarchical structures, the Protestant churches presents a remarkably diverse pattern of church-state relations. Consequently, the longtime coexistence of Protestantism and Communism in Eastern Europe and the former Soviet Union affords numerous examples of political accommodation and theological adaption that both reflect and foreshadow the dramatic changes of the 1990s. Based on extensive field research, including interviews with notable figures in the Protestant churches in the region, the essays in this volume address broad topics such as the church's involvement in environmentalism, pacifism, and other dissident movements, as well as issues particular to Russia, Poland, Czechoslovakia, East Germany, (1949-1989), Hungary, Yugoslavia (1945-1991), Bulgaria, and Romania. The final volume in the three-volume work "Christianity Under Stress," Protestantism and Politics in Eastern Europe and Russia will prove invaluable to anyone hoping to understand not only the workings of religion under Communism, but the historical and contemporary interactions of church and state in general. The Jews of Hungary-Raphael Patai 2015-07-01 The Jews of

Hungary is the first comprehensive history in any language of the unique Jewish community that has lived in the Carpathian Basin for eighteen centuries, from Roman times to the present. Noted historian and anthropologist Raphael Patai, himself a native of Hungary, tells in this pioneering study the fascinating story of the struggles, achievements, and setbacks that marked the flow of history for the Hungarian Jews. He traces their seminal role in Hungarian politics, finance, industry, science, medicine, arts, and literature, and their surprisingly rich contributions to Jewish scholarship and religious leadership both inside Hungary and in the Western world. In the early centuries of their history Hungarian Jews left no written works, so Patai had to piece together a picture of their life up to the sixteenth century based on documents and reports written by non-Jewish Hungarians and visitors from abroad. Once Hungarian Jewish literary activity began, the sources covering the life and work of the Jews rapidly increased in richness. Patai made full use of the wealth of information contained in the monumental eighteen-volume series of the Hungarian Jewish Archives and the other abundant primary sources available in Latin, German, Hebrew, Hungarian, Yiddish, and Turkish, the languages in vogue in various periods among the Jews of Hungary. In his presentation of the modern period he also examined the literary reflection of Hungarian Jewish life in the works of Jewish and non-Jewish Hungarian novelists, poets, dramatists, and journalists. Patai's main focus within the overall history of the Hungarian Jews is their culture and their psychology. Convinced that what is most characteristic of a people is the culture which endows its existence with specific coloration, he devotes special attention to the manifestations of Hungarian Jewish talent in the various cultural fields, most significantly literature, the arts, and scholarship. Based on the available statistical data Patai shows that from the nineteenth century, in all fields of Hungarian culture, Jews played leading roles not duplicated in any other country. Patai also shows that in the Hungarian Jewish culture a specific set of psychological motivations had a highly significant function. The Hungarian national character trait of emphatic patriotism was present in an even more fervent form in the Hungarian Jewish mind. Despite their centuries-old struggle against anti-Semitism, and especially from

the nineteenth century on, Hungarian Jews remained convinced that they were one hundred percent Hungarians, differing in nothing but denominational variation from the Catholic and Protestant Hungarians. This mindset kept them apart and isolated from the Jewries of the Western world until overtaken by the tragedy of the Holocaust in the closing months of World War II.

*Estates and Constitution*-István M. Szigártó 2020-09-20 Across eighteenth-century Europe, political power resided overwhelmingly with absolute monarchs, with notable exceptions including the much-studied British Parliament as well as the frequently overlooked Hungarian Diet, which placed serious constraints on royal power and broadened opportunities for political participation. *Estates and Constitution* provides a rich account of Hungarian politics during this period, restoring the Diet to its rightful place as one of the era's major innovations in government. István M. Szigártó traces the religious, economic, and partisan forces that shaped the Diet, putting its historical significance in international perspective.

*Nationalist Politics and Everyday Ethnicity in a Transylvanian Town*-Rogers Brubaker 2018-06-05 Situated on the geographic margins of two nations, yet imagined as central to each, Transylvania has long been a site of nationalist struggles. Since the fall of communism, these struggles have been particularly intense in Cluj, Transylvania's cultural and political center. Yet heated nationalist rhetoric has evoked only muted popular response. The citizens of Cluj--the Romanian-speaking majority and the Hungarian-speaking minority--have been largely indifferent to the nationalist claims made in their names. Based on seven years of field research, this book examines not only the sharply polarized fields of nationalist politics--in Cluj, Transylvania, and the wider region--but also the more fluid terrain on which ethnicity and nationhood are experienced, enacted, and understood in everyday life. In doing so the book addresses fundamental questions about ethnicity: where it is, when it matters, and how it works. Bridging conventional divisions of academic labor, Rogers Brubaker and his collaborators employ perspectives seldom found together: historical and ethnographic, institutional and interactional, political and experiential. Further developing the argument of Brubaker's groundbreaking *Ethnicity without Groups*, the book demonstrates

that it is ultimately in and through everyday experience--as much as in political contestation or cultural articulation--that ethnicity and nationhood are produced and reproduced as basic categories of social and political life.

**Ethnic Politics in Eastern Europe**-Janusz Bugajski 1994 This guide charts national histories and policies, relevant statistics and chronologies, and the identities, programmes, and activities of the full spectrum of ethnically-based parties and organizations in Central and Eastern Europe.

**The Monumental Nation**-Bálint Varga 2016-12-01 From the 1860s onward, Habsburg Hungary attempted a massive project of cultural assimilation to impose a unified national identity on its diverse populations. In one of the more quixotic episodes in this "Magyarization," large monuments were erected near small towns commemorating the medieval conquest of the Carpathian Basin—supposedly, the moment when the Hungarian nation was born. This exactly researched study recounts the troubled history of this plan, which—far from cultivating national pride—provoked resistance and even hostility among provincial Hungarians. Author Bálint Varga thus reframes the narrative of nineteenth-century nationalism, demonstrating the complex relationship between local and national memories.

**The Culture of People's Democracy**-Tyrus Miller 2013-06-07 The essays of Hungarian Marxist philosopher and literary critic György Lukács from 1945 to 1948, including the influential volume *Literature and Democracy*, are presented here for the first time in English translation, with an introduction and annotations by the editor.

**Brave New Hungary**-János Matyas Kovács 2019-12-10 *Brave New Hungary* focuses on the rise of a "brave new" anti-liberal regime led by Viktor Orbán who made a decisive contribution to the transformation of a poorly managed liberal democracy to a well-organized authoritarian rule bordering on autocracy during the past decade. Emerging capitalism in post-1989 Hungary that once took pride in winning the Eastern European race for catching up with the West has evolved into a reclusive, statist, national-populist system reminding the observers of its communist and pre-communist predecessors. Going beyond the self-description of the Orbán

regime that emphasizes its Christian-conservative and illiberal nature, the authors, leading experts of Hungarian politics, history, society, and economy, suggest new ways to comprehend the sharp decline of the rule of law in an EU member state. Their case studies cover crucial fields of the new authoritarian power, ranging from its historical roots and constitutional properties to media and social policies. The volume presents the Hungarian “System of National Cooperation” as a pervasive but in many respects improvised and vulnerable experiment in social engineering, rather than a set of mature and irreversible institutions. The originality of this dystopian “new world” does not stem from the transition to authoritarian control per se but its plurality of meanings. It can be seen as a simulacrum that shows different images to different viewers and perpetuates itself by its post-truth variability. Rather than pathologizing the current Hungarian regime as a result of a unique master plan designed by a cynical political entrepreneur, the authors show the transnational dynamic of backsliding – a warning for other countries that suffer from comparable deadlocks of liberal democracy.

Restitution and Memory-Dan Diner 2007 The myriad debates on restitution and memory, which have been going on in Europe for decades, indicate that World War II never ended. It is still very much with us, paradoxically re-invoked by the events of 1989/90 and the expansion of Europe to the east in the aftermath of the collapse of communism and economic globalization. The growing privatization and reprivatization in Eastern Europe revive pre-war memories that lay buried under the blanket of collectivization and nationalization of property after 1945. World War II did not only result in the death and destruction on a large scale but also in an far-reaching revolution of existing property relations. This volume offers an assessment of the problematic of restitution and its close interconnection with the discourses of memory that have recently emerged.

Global Changes--local Stages-Hans van Maanen 2009-01 Global Changes - Local Stages investigates the relationships between what happened the last twenty years on the 'world stage' and how theatre life developed on the local level. The subject has been approached from three different angles, each covered by one part of the book: "The Effects of Social Changes on Theatre Fields", "Values in Theatre Politics" and "Localization of Theatrical Values". The group of authors tries to find the links between these three areas. The book profits from the fact that the authors come from two sides of the former 'Wall'. Twenty years after its fall, the transitional processes in countries of the former 'Eastern Bloc' can be compared, not only mutually, but also with the changes in the Western part of Europe. With its 537 pages Global Changes - Local Stages is the most extensive research of the possible relationships between cultural change, theatre politics and theatre life in smaller European countries.

The Political Economy of State-Society Relations in Hungary and Poland-Anna Seleny 2006-02-13 This book shows how Hungary and Poland led the transformations that brought down Communism.

Georg Lukács-Judith Marcus 1989-01-01 The Hungarian social philosopher and literary critic Georg Lukcs (1885-1971) is one of the seminal intellectual figures of the twentieth century. With the possible exception of Leon Trotsky, he is also widely recognized as the outstanding Marxist thinker aside from Marx himself. Yet, as Lewis Coser has observed, Lukcs has remained the most enigmatic figure of the modern communist movement. Why were his theories so important to modern political and social thought? How did he come to have such influence on so many distinguished Western Intellectuals, and for such a long time? And why, despite this, did so many of his writings infuriate contemporary readers and critics? The centenary of Lukcs birth was celebrated in 1985 with symposia in a number of countries on several continents. Hundreds of Lukcs scholars and students attended, along with others who were interested in his time and his ideas, as well as the man and his work. In the process, new understanding of some of his most controversial concepts, ideas, and theses emerged. Newly

discovered information and writings, as well as previously unknown preoccupations in his seventy-year intellectual career were shared. This volume brings together some of the best and most original of the essays of participants in New York, Paris, Budapest, and Mexico City. Some of the contributions in this volume are sharply critical of Lukcs; others are clearly admiring. A great many take an objective but severe look at diverse aspects of his work. Together they constitute a close examination of the life work of the man Thomas Mann once called "The most important literary critic of today," Jean-Paul Sartre hailed as a significant modern philosopher," and Irving Howe declared "a major force in European intellectual life." Collectively, this volume shows why Georg Lukcs remains one of the remarkable intellectual figures of the twentieth century, whose work is of enduring significance for us today. Judith Marcus is on the faculty of Kenyon College. She is the author of Thomas Mann and Lukcs. Zoltn Tarrwas visiting Fulbright Scholar to Budapest, Hungary, and has taught sociology and history at the City College of CUNY, New School for Social Research, and Rutgers University. He is author of The Frankfurt School, The Critical Theories of Max Horkheimer and Theodor W. Adorno.

The Culture of Politics in Modern Kenya-Angelique Haugerud  
1997-05-13 Once the major success story of a troubled continent, by the early 1990s Kenya came to be regarded as its fallen star. This book challenges such images of reversal and the analytical polarities which sustain them. The analysis ranges from telescopic to microscopic fields, and combining many disciplines and perspectives to give a rich and varied picture of the culture of politics in twentieth-century Kenya. History of the Literary Cultures of East-Central Europe: Types and stereotypes-Marcel Cornis-Pope 2010 "Types and stereotypes" is the fourth and last volume of a path-breaking multinational literary history that incorporates innovative features relevant to the writing

of literary history in general. Instead of offering a traditional chronological narrative of the period 1800-1989, the "History of the Literary Cultures of East-Central Europe" approaches the region's literatures from five complementary angles, focusing on literature's participation in and reaction to key political events, literary periods and genres, the literatures of cities and sub-regions, literary institutions, and figures of representation. The main objective of the project is to challenge the self-enclosure of national literatures in traditional literary histories, to contextualize them in a regional perspective, and to recover individual works, writers, and minority literatures that national histories have marginalized or ignored. "Types and stereotypes" brings together articles that rethink the figures of National Poets, figurations of the Family, Women, Outlaws, and Others, as well as figures of Trauma and Mediation. As in the previous three volumes, the historical and imaginary figures discussed here constantly change and readjust to new political and social conditions. An Epilogue complements the basic history, focusing on the contradictory transformations of East-Central European literary cultures after 1989. This volume will be of interest to the region's literary historians, to students and teachers of comparative literature, to cultural historians, and to the general public interested in exploring the literatures of a rich and resourceful cultural region."

The Dissolution of the Austro-Hungarian Empire, 1867-1918-John W. Mason 2014-06-06 This book charts the history of the last fifty years of the Austro-Hungarian Empire from 1867 to 1918. It reveals that the Habsburg Monarchy, though not in a healthy state before 1914, was not in fact doomed to collapse. The author examines foreign and domestic policies and reveals the weaknesses inherent in the Empire. He also shows how the Austro-Hungarian Empire attempted to satisfy the claims of eleven distinct national groups.

The Inauguration of "Organized Political Warfare"-Katalin Kadarlynn 2013-09-05 The National Committee for a Free Europe - which at one point changed its name to Free Europe Committee - was a US government sponsored organization between 1949 and 1971. Its mission was to wage "organized political warfare" against Soviet Expansionism, with Radio Free Europe and Radio Liberty as the two most well known divisions. The NCFE and its anti-communist campaign remains one of the last aspects of U.S. Cold War policy that has not been thoroughly researched, and Cold War scholarship will not be complete until this history is made available. The essays in this book discuss the Bulgarian, Czechoslovakian, Hungarian, Polish, Romanian and Baltic States national committees, which were formed to lead the propaganda battle against the growth of world-wide communism, and which represented the U.S.-based exile leadership of those satellite nations. The primary sources of this research were the archival records of the two radio divisions, acquired by the Hoover Institution Archives at Stanford University in 2000.

The Development of Austro-Hungarian Sarajevo, 1878-1918-Mary Sparks 2014-09-25 The Development of Austro-Hungarian Sarajevo, 1878-1918 charts the urban history of Sarajevo in this period within the context of other modernising central-European cities. It gives detailed consideration to elements of change and continuity in the development of the urban fabric, as well as the economic, social and cultural life of the city. The book also explores how far changes were the work of the occupying Austro-Hungarian administration and the influx of immigrants from elsewhere, and suggests that the local elites from all confessions took an active role in the redevelopment of their city, building an integrated 'Sarajevan' version of urban modernity at a middle-class level. Case studies of particular buildings and their owners, and maps illustrating the

chronological development of the city during the period, are used throughout the book to highlight aspects of the aforementioned themes. The built environment forms a major source of evidence, together with material from a range of other sources, including census records, directories, newspapers, government documents, planning records and postcards. These sources are also used to augment observations and arguments put forward in this important study for all students and scholars of modern Central and Eastern Europe.
