Down Among the Dead Men-Dany 2012-03-23 The story of Dany Laferriere, the narrator and writer living in exile in Montreal, who finally comes home to Haiti. Nothing is different, and yet everything has changed. There is his mother, who has never left Haiti, not even for one minute, and who still performs all the rituals of old. But there is also the army of zombies that takes over the streets at night, while the American army occupies the country by day. What is this country of dead men? Is every Haitian a secret citizen? Is it possible for Laferriere to cross over to that country and then return? Laferriere wanders through Port-au-Prince interrogating old friends and new acquaintances. The tone becomes strident, as do the questions: Do we stay? Do we leave? What's the point? Where can we be ourselves and live like humans at the same time? In the end Laferriere decides to head for Bombardopolis, a village where you only need to eat once every three months -- a way of curing hunger? What will become of him once he gets there, and who will be when he returns?

The Visit-Friedrich Dürrenmatt 1973 In The Visit (original title Der Besuch der alten Dame), Claire Zachanassian, now a multimillion heiress and an older woman, returns to the impoverished town of her youth with a dreadful bargain: in exchange for returning the town to prosperity through her vast wealth, she wants the townspeople to kill the man who jilted her. From its subtle exploration of parochial politics to its horrific climax, The Visit shows a population willing to sacrifice loyalty and scruples in the pursuit of riches. It is a drama of the absurd that reduces human nature to its most ridiculous depths. Dürrenmatt was one of the most important figures of modern European drama and The Visit remains both a powerful critique of twentieth century civilisation and an outstanding piece of experimental theatre.

Learning in the Global Era-Marcelo Suarez-Orozco 2007-10-15 An international gathering of leading scholars, policymakers, and educators takes on some of the most difficult and controversial issues of our time in this groundbreaking exploration of how globalization is affecting education around the world. The contributors, drawing from innovative research in both the social sciences and the neurosciences, examine the challenges and opportunities now facing schools as a result of massive migration flows, new economic realities, new technologies, and the growing cultural diversity of the world's major cities. Writing for a wide audience, they address such questions as: How do we educate all youth to develop the skills and sensibilities necessary to thrive in globally linked, technologically interconnected economies? What can schools do to meet the urgent need to educate growing numbers of migrant youth at risk of failure in societies already divided by inequality? What are the limits of cultural tolerance as tensions over gender, religion, and race threaten social cohesion in schools and neighborhoods alike? Bringing together scholars with deep experience in Africa, the Americas, Asia, Europe, and the Middle East, this work, grounded in rich examples from everyday life, is highly relevant not only to scholars and policymakers but also to all stakeholders responsible for the day-to-day workings of schools in cities across the globe.

The Victorians-Jeremy Paxman 2010-11-23 Jeremy Paxman's unique portrait of the Victorian age takes readers on an exciting journey through the birth of modern Britain. Using the paintings of the era as a starting point, he tells us stories of urban life, family, faith, industry and empire that helped define the Victorian spirit and imagination. To Paxman, these paintings were the television of their day, and his exploration of Victorian art and society shows how these artists were chronicling a world changing before their eyes. This enthralling history is Paxman at his best - opinionated, informed, witty, surprising - and a glorious reminder of how the Victorians made us who we are today.

College Essay Essentials-Ethan Sawyer 2016-07-01 Writing an amazing college admission essay is easier than you think! So you're a high school senior given the task of writing a 650-word personal statement for your college application. Do you tell the story of your life, or a story from your life? Do you choose a single moment? If so, which one? The options seem endless. Lucky for you, they're not. College counselor Ethan Sawyer (aka The College Essay Guy) will show you that there are only four (really, four!) types of college admission essays. And all you have to do to figure out which type is best for you is answer two simple questions: 1. Have you experienced significant challenges in your life? 2. Do you know what you want to be or do in the future? With these questions providing the building blocks for your essay, Sawyer guides you through the rest of the process, from choosing a structure to revising your essay, and answers the big questions that have probably been keeping you up at night: How do I brag in a way that doesn't sound like bragging? and How do I make my essay, like, deep? Packed with tips, tricks, exercises, and sample essays from real students who got into their dream schools, College Essay Essentials is the only college essay guide to make this complicated process logical, simple, and (dare we say it?) a little bit fun.

Between Past and Future-Hannah Arendt 2006-09-26 From the author of Eichmann in Jerusalem and The Origins of Totalitarianism, "a book to think with through the political impasses and cultural confusions of our day" (Harper's Magazine) Hannah Arendt's insightful observations of the modern world, based on a profound knowledge of the past, constitute an impassioned contribution to political philosophy. In Between Past and Future Arendt describes the perplexing crises modern society faces as a result of the loss of meaning of the traditional key words of politics: justice, reason, responsibility, virtue, and glory. Through a series of eight exercises, she shows how we can redistill the vital essence of these concepts and use them to regain a frame of reference for the future. To participate in these exercises is to associate, in action, with one of the most original and fruitful minds of the twentieth century.

Academic Writing and Publishing-James Hartley 2008-04-22 Academic Writing and Publishing will show academics (mainly in the social sciences) how to write and publish research articles. It should serve as a handbook for postgraduates and lecturers new to publishing. The book is written in a readable and lively personal style. The advice given is direct and based on up-to-date research that goes beyond that given in current textbooks. For example, the chapter on titles lists different kinds of titles and their purposes not discussed in other texts. The chapter on abstracts instructs the reader on writing structured abstracts from the start.
