Academic Leadership and Governance of Higher Education-Robert M. Hendrickson 2013-04-29 To meet the new and rapidly changing demands facing today's higher education managers and leaders - from department chairs to trustees - this book offers guidance on how to effectively discharge their responsibilities and how to develop their skills for managing their relationships with internal and external stakeholders. It also provides a broad understanding of the structure and functions of their institution and of the appropriate loci of decision-making. The authors go beyond the "positions" of leadership to emphasize the qualities of creativity, commitment, collaboration, delegation and courage that are essential to steer a unit, college or university through successful and enduring change Recognizing that the hallmark of higher education in the United States is a diversity of institutional types, this book enables the reader to relate issues of environment, organization and management to his or her specific institution, from not only the presidential perspective, but from the vantage point of trustees, provosts, vice presidents, deans, and department heads. By covering all these functions—as well as the role of external stakeholders—in a single volume, this book offers readers a comprehensive view of how institutions respond to external forces and internal issues, and how these impact organizational structure, functions and decision-making in their roles, and the institution at large. The book is informed by these three essential principles: • Sound institutional decisions must be based on a clearly articulated mission and set of core values; • Successful institutional adaptation to a changed environment must be grounded and aligned with the fundamental mission and core values; and • Successful academic leaders must be able to create and foster partnerships, bringing diverse individuals and interests together around a shared vision and mission grounded in common values. This handbook is divided into five units. The first introduces the reader to the scholarly field of higher education and establishes the contextual framework for the rest of the book. The second investigates the multifaceted and often complex relationships that exist between institutions of higher learning and the external constituencies. The third focuses how college and university presidents and their board of trustees keep an institutional mission focused while adapting to changes in the environment, while the fourth analyzes how colleges and universities fulfill their core mission through shared democratic partnerships. The concluding unit concerns how effective academic leaders implement their institution's academic mission. Both scholarly and accessible, this book is intended to be of interest to a broad audience, ranging from graduate students in higher education administration programs to members of institutional governing boards, and everyone in leadership positions in between. All of the authors have completed graduate work in a higher education administration program, and collectively have had experience with academic administration at every level through to the university presidency. Two of the authors are currently faculty in leading higher programs teaching classes in administration and organizational theory and have published widely in the scholarly field. One has been a member of a governing board. Study questions suitable for leadership training and graduate courses are provided online. See hot link at top right of this page.

Governance as Leadership-Richard P. Chait 2011-01-11 A new framework for helping nonprofit organizations maximize the effectiveness of their boards. Written by noted consultants and researchers attuned to the needs of practitioners, Governance as Leadership redefines nonprofit governance. It provides a powerful framework for a new covenant between trustees and executives: more macrogovernance in exchange for less micromanagement. Informed by theories that have transformed the practice of organizational leadership, this book sheds new light on the traditional fiduciary and strategic work of the board and introduces a critical third dimension of effective trusteeship: generative governance. It serves boards as both a resource of fresh approaches to familiar territory and a lucid guide to important new territory, and provides a road map that leads nonprofit trustees and executives to governance as leadership. Governance as Leadership was developed in collaboration with BoardSource, the premier resource for practical information, tools and best practices, training, and leadership development for board members of nonprofit organizations. Through its highly acclaimed programs and services, BoardSource enables organizations to fulfill their missions by helping build effective nonprofit boards and offering credible support in solving tough problems. Handbook on Responsible Leadership and Governance in Global Business-Jonathan P. Doh 2005 Reading these various non-technical articles is undeniably valuable for any person (teachers, executives, students) who is concerned about the behaviour of major companies managers in the context of globalisation and economy liberalisation. Gestion 2000 A profoundly important book for scholars and leaders alike that makes a vital timely contribution to the behavioral perspectives on leadership and governance. Doh and Stumpf, along with their world-renowned contributors, apply solidly anchored academic wisdom to offer fresh ideas on restoring faith in the integrity of American enterprise. Jeffrey Sonnenfeld, Yale School of Management, President and CEO, Chief Executive Leadership Institute and author of Leadership and Governance From The Inside Out Ethics, social responsibility, leadership, governance. These terms are heard in the classroom, in the boardroom, and viewed on the front page of newspapers and magazines. Yet serious attention to the relationships among these concepts is lacking. Although commitments to leadership, ethics, and social responsibility are evident, individuals and companies are falling short in combining these duties into policies and cultures that guide behavior and decisions. The missing element is a broad-based and integrated approach to responsible leadership and governance. This volume provides the leading thinking on these issues and includes a discussion of emerging areas that require future attention. The contributors leading scholars in the fields of leadership, governance and social responsibility summarize the state of the literature, identify complementary insights and perspectives, discuss areas of conflict and disagreement, and include a provocative and stimulating agenda for further investigation. They point up practical consequences of these perspectives in light of developments that have exposed the shortcomings in practice. Several contributors focus specifically on the challenges faced by global companies in developing and maintaining leadership and governance practices that are responsive to different national institutional and cultural settings. Through coverage and insightful discussion make this an essential reference for scholars and students of leadership, corporate responsibility and professional ethics, as well as for all those directly responsible for establishing the ethical codes and practices of their organizations.

Gender Power, Leadership, and Governance-Georgia Duerst-Lahti 1995 Investigates how notions of masculinity and femininity inform ideology, political action, and institutional prejudice

Leadership and Governance from the Inside Out-Robert Gandossy 2004-11-11 At last, there's a business leadership book that really tackles the tough issues of integrity and governance. Taking a unique approach to leadership, this book gathers the path-breaking perspectives of influential shareholder activists; opinion-leading CEOs of major firms; trailblazing, distinguished academics; and courageous regulators. The all-star roster of contributors from the corporate world and academia includes Vanguard's John Bogle, former SEC Chairman Arthur Levitt, and Harvard Business School's Rosabeth Moss Kanter. Sherron Watkins, Enron whistleblower and Time Person of the Year, shares an inside look at Enron, and Barbara Ley Toffler, former head of Arthur Andersen's Ethics Practice, paints a picture of Anderson Consulting before their fall.

Intelligence Leadership and Governance-Patrick F. Walsh 2020-11-23 This book explores the challenges leaders in intelligence communities face in an increasingly complex security environment and how to develop future leaders to deal with these issues. As the security and policy-making environment becomes increasingly complicated for decision-makers, the focus on intelligence agencies 'to deliver' more value will increase. This book is the first extensive exploration of contemporary leadership in the context of intelligence agencies, principally in the 'Five Eyes' nations (i.e. Australia, United States, United Kingdom, Canada and New Zealand). It provides a grounded theoretical approach to building practitioner and researcher understanding of what individual and organisational factors result in better leadership. Using interviews from former senior intelligence leaders and a survey of 208 current and former intelligence leaders, the work explores the key challenges that leaders will likely face in the twenty-first century and how to address these. It also explores what principles are most likely to be important in developing future leaders of intelligence agencies in the future. This book will be of much interest to students of intelligence studies, strategic studies, leadership studies, security studies and International Relations.

Leadership, Mission, and Governance-Cinnamon Catlin-Legutko 2011-11-16 Small museums need champions. In this book, we make a case for small museums and share what the broader museum field can learn from the small museum leadership. Because a few tools have been invaluable to small museum leaders and are referred to throughout the book series, we highlight the MAP and CAP assessment process, accreditation, and provide an overview of the STEPs program that inspired this book series in this first book.

Governance and Ministry-Dan Hotchkiss 2016-01-14 Governance and Ministry has proven to be an indispensable guide for leaders and clergy on how to work together to lead congregations. In this second edition, veteran congregational consultant and minister Dan Hotchkiss updates the book to reflect today's church and synagogue landscape and shares practical insights based on his work with readers of the first edition. Governance and Ministry highlights the importance of reaching the right governance model for a congregation to fulfill its mission—to achieve both the outward results and the inward quality of life to which it is called. Hotchkiss draws on governance research from business, non-profits, and churches, as well as deep experience in a variety of denominations and congregations to help readers determine the governance model that best fits their needs. The second edition has been streamlined and reorganized to better help readers think through leadership models and the process of change. The book features new material on the implications of congregation size, the process of governance change, policy choices, and the lay-clergy relationship. It also features two appendices with resources often requested by Hotchkiss's consulting clients: a style guide for policy-makers and a unified example of a board policy book. Written with energy and humor, and offering plenty of practical examples, the second edition of this helpful resource is ideal for anyone involved in church leadership to assist in framing critical questions, creating a vision, and implementing a plan.

Governance and Leadership in Africa-Robert I. Roberg 2014-09-29 Many of the problems in Africa today, including widespread poverty and civil unrest, can be traced to the continents legacy of bad governance. In the post-independence period, authoritarian strongmen took control of many countries, enriching themselves and their cronies by exploiting the peoples labor and their countrys resources. In recent years, however, a growing number of African states have embraced democratic principles and established transparent and open governments. In this book the noted Africa scholar Dr. Robert Roberg examines the current state of governance and leadership in Africa. He discusses the various types of government found in the continent, clearly showing the correlation between the quality of a countrys leadership and the quality of life enjoyed by that countrys people.

The Practitioner's Guide to Governance as Leadership-Cathy A. Trower 2012-12-17 Praise for The Practitioner's Guide to Governance as Leadership "With wisdom and insight, Trower has written the seminal guide for nonprofit boards. This is a must-read for every current and incoming nonprofit board member." —Joel Allison, president and CEO, Baylor Health Care System "For nonprofit chief executives who are ready for more engaged and purposeful boards and for board members who want to work more meaningfully and be true partners in leadership, Trower shows the way. She brings Governance as Leadership to life with case studies, theoretical frameworks, board exercises, and practical advice." —Susan Whealler Johnston, executive vice president, Association of Governing Boards of Universities and Colleges (AGB) "It has never been more critical than it is today for nonprofits to engage their boards in ways that capture the full talent, experience and resources — those who govern the work?Yet, too often, we see organizations facing a substantial board-engagement gap.¶In this book, Trower shares the pathway forward for nonprofit and philanthropic leaders seeking to transform their boards in ways that will have an exponential impact on everything from strategy to fundraising. I've learned much from Trower's work on board leadership over the years—I'm thrilled she's now sharing it broadly through this valuable new resource for our sector." —Robert B. Acton, executive director NY, Taproot Foundation "At BoardSource, we value Governance as Leadership as a groundbreaking publication that has helped thousands of board leaders give governance in a new way. With this new book, Trower has taken on the important task of connecting the dots back to the boardroom, where nonprofits of all sizes are struggling with leading their organizations through these challenging times ... she deftly combines business, psychological, and sociological principles to help board members examine their own thought processes and raise the level of thinking and discourse in the boardroom." —Linda C. Crompton, president and CEO, BoardSource

CEO Leadership-Thomas A. Cole 2019-11-20 Corporate governance for public companies in the United States today is a fragile balance between shareholders, board members, and CEOs. Shareholders, who are focused on profits, put pressure on boards, who are accountable for operations and profitability. Boards, in turn, pressure CEOs, who must answer to the board while building their own larger vision and strategy for the future of the company. In order for this structure to be successful in the long term, it is imperative that boards and CEOs come to understand each other's roles and how best to work together. Drawing on four decades of experience advising boards and CEOs on how to do just that, Thomas A. Cole offers in CEO Leadership a straightforward and accessible guide to navigating corporate governance today. He explores the recurring question of whose benefit a corporation should be governed for, along with related matters of corporate social responsibility, and he explains the role of laws, market forces, and politics and their influence on the governance of public companies. For corporate directors, he provides a comprehensive examination of the roles, responsibilities, and accountability the role entails, while also offering guidance on how to be as effective as possible in addressing both routine corporate matters and special situations such as mergers and acquisitions, succession, and corporate crises. In addition, he offers practical suggestions for CEOs on leadership and their interactions with boards and shareholders. Cole also mounts a compelling case that a corporate culture that celebrates diversity and inclusion and has zero tolerance for sexual misconduct is critical to long-term business success. Filled with vignettes from Cole's many years of experience in the board room and C-suite, CEO Leadership is an invaluable resource for current and prospective directors, CEOs, and other senior officers of public companies as well as the next generation of corporate leaders and their business and financial advisors.

Regressive Leadership and Governance-Chizoba MaDueke 2010-06-01 At the heart of the litany of Nigeria's public sector problems is a fundamental crisis of governance. The current crisis of development in Nigeria can be attributed in part to a history of poor governance characterized by corruption, social injustice and political instability. Effective leadership and governance are critical to a country's economic and sociopolitical development. During the 1950s and 1960s Nigerian public sector was regarded as one of the best in Africa, today it is ranked among the worst in the world. The factors isolated include ineffective control of corruption, lack of rule of law, poorly articulated government policies, and poor policy implementations. The implications for Nigeria have been a regressive leadership, poor governance and the lack of social and societal development.

Leadership and Governance in Nigeria-Mahmud Tukur 1999 A study by a Nigerian academic which argues that Nigeria has failed to install and operate "modern" national institutions, which has resulted in hindering political development.

Challenging the Rulers-Duncan Okoth-Okhombi 2011 Challenging The Rulers: A Leadership Model for Good Governance brings to the fore the issue of leadership in developing countries like Kenya. Citing specific examples, it singles out bad leadership as the cause of stagnation and underdevelopment in Africa. This book advocates for a serious discourse on leadership as the most critical factor in a national quest for good governance and prosperity. Unlike other writers who bemoan the state of affairs in Africa without offering alternatives, the authors propose a leadership model that can ensure good governance. This is based on the premise that good leadership means good governance hence reasonable economic growth and development. Values and principles of good leadership are outlined. In 2010, Kenya took its pride of place among nations by enacting a new progressive constitution which among other things provides for a devolved government. However, the authors argue that good laws, structures, systems and policies simply provide the infrastructure for good governance. To move Kenya forward, good men and women of vision, who are committed to servant leadership, must rise up to activate these laws to bring about good governance as a means of improving people's quality of life. In a nutshell, this book advocates for reforms in leadership. Challenging The Rulers is a challenge to all leaders - present and aspiring - to adopt this leadership model. To ordinary citizens, it is a call to take necessary action to elect good leaders.

Corporate Governance and Leadership-Monique Cikaluk 2020-06-30 This Element deals with leadership and governance of corporations from the point of view of the board. We expand our understanding of board leadership by focusing on the modern company as a legal person comprised of a capital fund and the relationships among directors, shareholders, management and stakeholders. We propose a model which integrates insights from the fields of leadership and corporate governance and establishes a theoretical link illustrated by empirical findings in three intersections: team leadership on the board, the chair's leadership of the board, and strategic leadership by the board. We maintain this integrative model provides a powerful means to further an understanding of the board as the nexus of leadership and governance. We close this Element by identifying the new research directions that our integrative model opens up. We also identify the implications for practice for those who either serve on boards or provide support to them.

Public Governance and Leadership-Rainer Koch 2007-11-03 In this book, internationally renowned scholars and practitioners elaborate on political as well as managerial questions, e.g. how to make overriding Public Governance changes the 'guiding model' for a now needed stronger strategic approach. More specifically, their focus is on how moves towards a re-positioning as an enabling authority are to be made drivers for adapting management systems across all levels. In accordance with present developments, the authors explain how changes in the overall governance structure have to be used to adapt leadership practices in a more output-oriented or even entrepreneurial fashion. Overall, the underlying idea is to provide some further basics for a public sector type of a design-oriented management science.

Higher Education Leadership and Governance in the Development of the Creative and Cultural Industries in Kenya-Akuno, Emily 2017-05-05 The role of higher education in establishing structures and procedures in society and industry is clearly articulated in scholarly discussions. The narrative has recently taken a new momentum in Kenya with acknowledgement of the creative industry involves many youth, as an area that impacts on the economy. In unravelling the link between higher education and industry, the authors focus on leadership and governance in higher education and its expected and perceived contribution to the shaping of the creative industry. Through analysis of cases, the authors interrogate the processes and structures that govern the teaching and practice of the creative subjects, noting how these affect the creative industry in Kenya. This book approaches the creative disciplines from the perspectives of the students, lecturers and university administrators. The three voices provide a balanced view of what higher creative arts education in Kenya is. The multiple authorship of the book further provides a balanced account of the development of these disciplines in higher education, and their growth in industry. The key concepts here are the development of the creative industry and how higher education should contribute to the same.

Poor Leadership and Bad Governance-Ludger Helms 2012-01-01 'Leaders are not always heroes. Bad public leadership is a big problem. If we are serious about holding our public leaders to account, then we need to know why they were bad, and why we supported them. Ludger Helms and his distinguished team tackle these difficult questions with sympathy, not cynicism. Their careful and insightful analysis alerts us to the dangers of venal and poorly performing leaders.' - R.A.W. Rhodes, University of Southampton, UK 'Leadership and the lack of it is a central but underexplored issue in the study of contemporary politics. Ludger Helms is to be congratulated for bringing together a group of leading scholars to examine the relationship between leadership and governance.' - William E. Paterson OBE, Aston Centre for Europe, UK In leadership research there is a long tradition of focusing attention on the great and successful leaders and, more recently, on issues of good governance. This study breaks new ground by looking systematically into the manifestations and causes of poor leadership and bad governance in some of the world's most powerful democracies. Focusing on the presidents and prime ministers of the G8 – the United States, Canada, the United Kingdom, France, Germany, Italy, Russia and Japan – it explores the complex relationship between weak and ineffective leadership, undemocratic leadership techniques, and bad policies from a broad comparative perspective. What makes leaders weak or bad in different contexts? What are the consequences of their actions and behaviour? And has there been any learning from negative experience? These questions are at the centre of this fascinating joint inquiry that involves a team of truly distinguished leadership scholars. This book will prove invaluable for scholars and students of leadership, political science, contemporary history, and related academic disciplines. Readers with a general interest in public affairs and political history will also find plenty to interest them.

Globalisation and Governance in the Pacific Islands-Stewart Firth 2006-12-01 "The Pacific Islands are feeling the effects of globalisation. Free trade in sugar and garments is threatening two of Fiji's key industries. At the same time other opportunities are emerging. Labour migration is growing in importance, and Pacific governments are calling for more access to Australia's labour market. Fiji has joined Samoa, Tonga, Tuvalu and Kiribati as a remittance economy, with thousands of its citizens working overseas. Meantime, Papua New Guinea and Solomon Islands grapple with an older kind of globalisation in which overseas companies exploit mineral and forest resources. The Pacific Islands confront unique problems of governance in this era of globalisation. The modern, democratic state often fits awkwardly with traditional ways of doing politics in that part of the world. Just as often, politicians in the Pacific exploit tradition or invent it to serve modern political purposes. The contributors to this volume examine Pacific globalisation and governance from a wide range of perspectives. They come from Papua New Guinea, Solomon Islands, Hawai'i, the Federated States of Micronesia, Samoa, Fiji, New Zealand and Jamaica as well as Australia."--Publisher's description.

Governance in the Twenty-First-Century University: Approaches to Effective Leadership and Strategic Management-Dennis John Gayle 2011-09-28 Explores approaches to effective leadership and strategic management in the twenty-first century university that recognize and respond to the perceptions and attitudes of university leaders toward institutional structures. It examines the differences between treating universities as businesses and managing universities in a businesslike manner, what kinds of leadership will best address challenges, and how to gain consensus among constituents that change is needed. From historical background to modern e-learning techniques, we look at governance to find systems that are effectively structured to balance the needs of students, educators, administrators, trustees, and legislators.
