Was the Cat in the Hat Black?-Philip Nel 2017-07-06 Racism is resilient, duplicitous, and endlessly adaptable, so it is no surprise that America is again in a period of civil rights activism. A significant reason racism endures is because it is structural: it's embedded in culture and in institutions. One of the places that racism hides-and thus perhaps the best place to oppose it-is books for young people. Was the Cat in the Hat Black? presents five serious critiques of the history and current state of children's literature tempestuous relationship with both implicit and explicit forms of racism. The book fearlessly examines topics both vivid-such as The Cat in the Hat's roots in blackface minstrelsy-and more opaque, like how the children's book industry can perpetuate structural racism via whitewashed covers even while making efforts to increase diversity. Rooted in research yet written with a lively, crackling touch, Nel delves into years of literary criticism and recent sociological data in order to show a better way forward. Though much of what is proposed here could be endlessly argued, the knowledge that we learn in childhood imparts both subtle and explicit lessons about whose lives matter is not debatable. The text concludes with a short and stark proposal of actions everyone-reader, author, publisher, scholar, citizen-can take to fight the biases and prejudices that infect children's literature. While Was the Cat in the Hat Black? does not assume it has all the answers to such a deeply systemic problem, its audacity should stimulate discussion and activism.

The Strange Story Book-Mrs. Andrew Lang 1925 The story of Wolfert Webber was said by Louis Stevenson to be one of the finest treasure-seeking stories in the world; and as Stevenson was a very good judge, I am going to tell it to you. Wolfert's ancestor, Cobus Webber, was one of the original settlers who came over from Holland and established themselves on the coast of what is now the State of New York. Like most of his countrymen, Cobus was a great gardener, and devoted himself especially to cabbages, and it was agreed on all sides that none so large or so sweet had ever been eaten by anybody. Webber's house was built after the Dutch pattern, and was large and comfortable. Birds built their nests under the eaves and filled the air with their singing, and a button-wood tree, which was nothing but a sapling when Cobus planted his first cabbage, had become a monster overshadowing half the garden in the days of his descendant Wolfert early in the eighteenth century. The button-wood tree was not the only thing that had grown during those years. The city known at first as 'New Amsterdam,' and later as 'New York,' had grown also, and surrounded the house of the Webbers. But if the family could no longer look from the windows at the beautiful woods and rivers of the countryside, as their forefathers had done, there was no reason to drive a cart about from one village to another to see who wanted cabbages, for now the housewives came to Wolfort to choose their own, which saved a great deal of trouble. Yet, though Wolfert sold all the cabbages he could raise, Ede did not become rich as he wished, and at length he began to wonder if he was becoming rich at all. Food was dearer than when he was a boy, and other people besides himself had taken to cabbage-growing. His daughter was nearly a woman, and would want a portion if she married. Was there no way by which he could make the money that would be so badly needed by and bye?
