Enhancing Student Learning in Middle School-Martha Casas 2010-09-13 A comprehensive introduction to middle school teaching, this textbook focuses explicitly on instructional strategies that encourage adolescents to become active participants in their own learning within a world of accountability and standardized testing. The author, an experienced middle school teacher and teacher educator, takes a constructivist approach to teaching that considers the whole child, including the emotional, psychological, social, and cultural variables uniquely associated with adolescence. The text examines the full range of middle school topics, from the development and diversity of middle school learners, to the structures, curriculum, and management of the classroom itself. Special features include: "Empowering Middle School Students to Take Ownership of their Learning," "Teaching Scenario," "Key Points," and "Creating an Anti-Oppressive Atmosphere in Your Classroom" textboxes help teachers gain a clearer understanding of content presented and encourage them to become reflective practitioners. Callouts throughout explicitly link chapter content to NMSA standards. Discussion of the unique challenges of actively engaging bilingual students, special needs students, and students exhibiting antisocial behavior. Accounts about middle school students illustrate the ways adolescents think about school and learning. A chapter that focuses on ways teachers can apply the general teaching strategies to specific subject areas. Sample Lesson Plans, Focus Questions, Chapter Summaries, Journal Entries, and Student Activities/Assignments are included throughout to encourage readers to actively participate with the text.

What Color Is Your Parachute? Guide to Job-Hunting Online, Sixth Edition-Mark Emery Bolles 2011-05-17 Before you start your Internet job-hunt, there are some things that you must know, like: • Why are job sites like Monster and CareerBuilder so stunningly ineffective? • What can you do to make sure your resumes survive the elimination process? • How do you find the information that search engines like Google can't? • How can you tell the difference between a genuinely helpful job board, and a website designed only to collect resumes? • When are hobby forums more helpful than business networking sites? • When is the Internet not helpful when job-hunting? • What is the fatal flaw of all social networking sites? The Guide to Job-Hunting Online, 6th Edition, not only answers these questions and many more, but shows you how to comprehensively and effectively use the Internet for all aspects of your job-hunt. This companion to What Color Is Your Parachute?, the best-selling job-hunting book in the world, has been completely rewritten for our changing times and includes hundreds of updated website recommendations and descriptions. The Guide to Job-Hunting Online shows you how to quickly find the data that will be most helpful to you, how to identify and research the places where you will most enjoy working, how to leverage the power of social networking sites, and how to use your Internet time most effectively, avoiding the common pitfalls and setting you up for success.

Webs of Power-Evelyn Blackwood 2000 Webs of Power offers a fresh perspective on women in Southeast Asia. Although the book focuses on one village, it provides vital insights into the gendered processes of post-coloniality. By exploring the contestations and accommodations being made in rural villages by both men and women, Webs of Power reveals the processes at the heart of globalization as well as the complexities of power that circulate between women and men in a rural peasant society.

Tangled Webs-Barbara M. Robinson 2009-08 Bringing up a child is a time-consuming but rewarding task for any parent. But what is it like for the parent of a child with a disability? What then? Anxious and concerned parents, conscientious or dismissive caregivers, arrogant or caring do-gooders, insensitive or dedicated professionals, all come together to form Tangled Webs through which the journey of a child with disabilities and her family are portrayed. This is the story of the dedication of the people who supported Sharon, who was born with Down Syndrome. She matures despite all headaches, problems, and doomsayers, to become independent from her family. It is a story of triumph in a world of adversity. Tangled Webs has a message for everyone in today's society; parents, educators, social workers and medical care providers; anyone who has contact with people with disabilities.

Formation and Early Growth of Business Webs-Florian Steiner 2005 Networks of firms have been in the focus of management research for several years. Recently, special attention has been paid to so-called business webs. Business webs are networks of firms which provide complements to a common product architecture. In the past, research focused on management issues of such webs but neglected the important question of how they actually came into being. The present book explicitly examines the formation and early growth of business webs. The author illustrates the early growth phases with two in-depth cases of the formation of the wireless internet ecosystem i-mode and the leading person-to-person online auction platform eBay. The book uncovers the contingencies under which the establishment of

business webs is likely to succeed. Business researchers will benefit from the theoretical framework, while interested business managers will find explanations and advice for establishing a business web.

The Best Class You Never Taught-Alexis Wiggins 2017-09-27 The best classes have a life of their own, powered by student-led conversations that explore texts, ideas, and essential questions. In these classes, the teacher's role shifts from star player to observer and coach as the students Think critically, Work collaboratively, Participate fully, Behave ethically, Ask and answer high-level questions, Support their ideas with evidence, and Evaluate and assess their own work. The Spider Web Discussion is a simple technique that puts this kind of class within every teacher's reach. The name comes from the weblike diagram the observer makes to record interactions as students actively participate in the discussion, lead and support one another's learning, and build community. It's proven to work across all subject areas and with all ages, and you only need a little know-how, a rubric, and paper and pencil to get started. As students practice Spider Web Discussion, they become stronger communicators, more empathetic teammates, better problem solvers, and more independent learners—college and career ready skills that serve them well in the classroom and beyond. Educator Alexis Wiggins provides a step-by-step guide for the implementation of Spider Web Discussion, covering everything from introducing the technique to creating rubrics for discussion self-assessment to the nuts-and-bolts of charting the conversations and using the data collected for formative assessment. She also shares troubleshooting tips, ideas for assessment and group grading, and the experiences of real teachers and students who use the technique to develop and share content knowledge in a way that's both revolutionary and truly inspiring.
