The Essential Guide to Caring for Aging Parents-Linda Rhodes, Ed.D. 2012-07-18 The tools and answers you need to help your parents receive the care they deserve.

Filipino English and Taglish-Roger M. Thompson 2003-10-16 English competes with Tagalog and Taglish, a mixture of English and Tagalog, for the affections of Filipinos. To understand the competing ideologies that underlie this switching between languages, this book looks at the language situation from multiple perspectives. Part A reviews the social and political forces that have propelled English through its life cycle in the Philippines from the 1898 arrival of Admiral Dewey to the 1998 election of Joseph Estrada. Part B looks at the social support for English in Metro Manila and the provinces with a focus on English teachers and their personal and public use of English. Part C examines the language of television sport broadcasts, commercials, interviews, sitcoms, and movies, and the language of newspapers from various linguistic, sociolinguistic, and sociocultural perspectives. The results put into perspective the short-lived language revolution that took place at the turn of the twenty-first century.

Aging and Diversity-Chandra Mehrotra, Ph.D. 2018-08-20 As the older population in the United States is becoming more racially and ethnically diverse, it is important to understand the characteristics, the potential, and the needs of this population. In this new and fully revised edition of Aging and Diversity, Chandra Mehrotra and Lisa Wagner address key topics in diversity and aging, discussing how the aging experience is affected by not only race and ethnicity but also gender, religious affiliation, social class, rural-urban community location, and sexual orientation and gender identity. Taking this broad view of human diversity allows the authors to convey some of the rich complexities facing our aging population - complexities that provide both challenges to meet the needs of a diverse population of elders and opportunities to learn how to live in a pluralistic society. Mehrotra and Wagner present up-to-date knowledge and scholarship about aging and diversity in a way that engages readers in active learning, placing ongoing emphasis on developing readers' knowledge and skills, fostering higher order thinking, and encouraging exploration of personal values and attitudes.

The Experience Economy, Updated Edition-B. Joseph Pine II 2011-07-05 In 1999, Joseph Pine and James Gilmore offered this idea to readers as a new way to think about connecting with customers and securing their loyalty. As a result, their book The Experience Economy is now a classic, embraced by readers and companies worldwide and read in more than a dozen languages. And though the world has changed in many ways since then, the way to a customer's heart has not. In fact, the idea of staging experiences to leave a memorable—and lucrative—impression is now more relevant than ever. With an ongoing torrent of brands attacking consumers from all sides, how do you make yours stand out? Welcome to the new Experience Economy. With this fully updated edition of the book, Pine and Gilmore make an even stronger case that experience is the missing link between a company and its potential audience. It offers new rich examples—including the U.S. Army, Heineken Experience, Autostadt, Vinopolis, American Girl Place, and others—to show fresh approaches to scripting and staging compelling experiences, while staying true to the very real economic conditions of the day.

Making the Golden Years Golden-Eva Mor 2008-07-01 I was born in the state of Maine, but my parents brought me to Indiana when I was very small. I have

lived in Southeastern Indiana most all my life. My husband is a Vietnam veteran. I married young and I am still married to the same man. I have two children and two grandchildren. The writing bug bit me many years ago and for almost three years I wrote and distributed a newsletter, which consisted of biblical teaching, inspirational segments and short stories. I have spent endless hours sitting in front of the computer applying the story telling to the screen in front of me and then sending it on to numerous people hungry for an opportunity to escape, if only for a short time, into a world of imagination. The teaching area of my letters and the inspirations were a means of getting God's message out to those who cared to listen. Hence, the title of my book. "The Master's Message." We have all been told from time to time that we are incapable of accomplishing our dreams. Why is it that we buy into all that negativity? I am an ordinary human being, with an ordinary background, in an ordinary life and I have proven that anything is possible if you just step out and have faith. We all have God given gifts and talents and if it is our desire then it is God's desire also, providing it is used to be a blessing to someone. I hope that this book blesses you. The one who is reading this now is hopefully one of many, but nevertheless, if only one is touched, then my job is done.

Safe-Paola Antonelli 2005 This book presents a wealth of contemporary design products and prototypes from all over the world that address the issues of protection and security in our everyday lives. The objects are as diverse as our notions of safety and well-being: headgear designed to withstand either a fall from a bicycle or the blast of a bomb; prefabricated shelters for victims of earthquakes; self-defense and antitheft objects; clearly illustrated emergency instructions; de-mining equipment; and toys that help people with mental disabilities gain and maintain a sense of balance and identity. This broad array of examples is accompanied by texts on the home as a safety nest, on automotive safety, on new materials and technologies, and on how architects and designers can provide support and guidance in situations of extreme emergency.

mother and her son, and the lengths she'll go to protect him. The zoo is nearly empty as Joan and her four-year-old son soak up the last few moments of playtime. They are happy, and the day has been close to perfect. But what Joan sees as she hustles her son toward the exit gate minutes before closing time sends her sprinting back into the zoo, her child in her arms. And for the next three hours—the entire scope of the novel—she keeps on running. Joan's intimate knowledge of her son and of the zoo itself—the hidden pathways and under-renovation exhibits, the best spots on the carousel and overstocked snack machines—is all that keeps them a step ahead of danger. A masterful thrill ride and an exploration of motherhood itself—from its tender moments of grace to its savage power—Fierce Kingdom asks where the boundary is between our animal instinct to survive and our human duty to protect one another. For whom should a mother risk her life?

French Refreshed-Betty Lou Phillips 2019-08-20 Simplicity is the new era of chic. Despite the grandeur in which Louis XIV and his descendants Louis XV and Louis XVI lived in the magnificent Château de Versailles, extravagance rarely suggests elegance these days. Befitting spaces less assumedly scaled than the vast palace, alluring, of-the-moment interiors exude a more discreet cachet. Clean, not stuffy, reflects our culture and the times. Betty Lou Phillips is the author of fourteen books on French and Italian design, including the award-winning Villa Décor. A professional member of the American Society of Interior Designers, her work has been featured in countless magazines and newspapers. Additionally, she has appeared on the Oprah Winfrey Show. She lives in Dallas, Texas.

Start-up Nation-Dan Senor 2011-09-07 START-UP NATION addresses the trillion dollar question: How is it that Israel-- a country of 7.1 million, only 60 years old, surrounded by enemies, in a constant state of war since its founding, with no natural resources-- produces more start-up companies than large, peaceful, and stable nations like Japan, China, India, Korea, Canada and the UK? With the savvy of foreign policy insiders, Senor and Singer examine the lessons of the country's adversity-driven culture, which flattens hierarchy and elevates informality-- all backed up by government policies focused on innovation. In a world where economies as diverse as Ireland, Singapore and Dubai have tried to re-create the "Israel effect", there are entrepreneurial lessons well worth noting. As America reboots its own economy and can-do spirit, there's never been a better time to look at this remarkable and resilient nation for some impressive, surprising clues.

Going Sane-Adam Phillips 2009-10-13 Being sane has long been defined simply as that bland and nebulous state of not being mentally ill. While writings on madness fill entire libraries, until now no one has thought to engage exclusively with the idea of sanity. In a society governed by indulgence and excess, madness is the state of mind we identify with most keenly. Though ultimately destructive, it is often credited as the wellspring of genius, individuality, and self-expression. Sanity, on the other hand, confounds us. One of the world's most respected psychoanalysts and original thinkers, Adam Phillips redresses this historical imbalance. He strips our lives back to essentials, focusing on how we—as human beings, parents, lovers, as people to whom work matters—can make space for a sane and well-balanced attitude to living. In a world saturated by tales of dysfunction and suffering, he offers a way forward that is as down-to-earth and realistic as it is uplifting and hopeful.
