shaping Brazil's national identity. Analyzing representations of Brazil throughout the world, this ambitious survey demonstrates the ways in which life in one of the world's largest nations has been conceived and revised in visual arts, literature, film, and a variety of other media. Beginning with the first explorations of Brazil by the Portuguese, Darlene J. Sadlier incorporates extensive source material, including paintings, historiographies, letters, poetry, novels, architecture, and mass media to trace the nation's shifting sense of its own history. Topics include the oscillating themes of Edenic and cannibal encounters, Dutch representations of Brazil, regal constructs, the literary imaginary, Modernist utopias, "good neighbor" protocols, and filmmakers' revolutionary and dystopian images of Brazil. A magnificent panoramic study of race, imperialism, natural resources, and other themes in the Brazilian experience, this landmark work is a boon to the field.

The Regal Phantasm (Routledge Revivals)-Christopher Pye 2015-08-11 First published in 1989, this title explores the relationship between theater and power in the English Renaissance. Shakespeare's *Henry V*, *Richard II*, and *Macbeth* are examined alongside a range of cultural materials, including philosophical and historical accounts of sovereignty, royal portraiture and representations of treason and punishment. Renaissance theater was far more than a vehicle for the expression of a political content: it played a constitutive role in forming the distinctive theory of sovereignty and the distinctive political subjectivity of the era. By reading Shakespeare's plays in conjunction with other, ideologically charged forms of representation, the book continues new-historicist efforts to uncover the complex relations between literary texts and cultural contexts. Providing an interesting and detailed analysis, this reissue will be of value to students of Shakespeare and the English Renaissance, and those concerned with exploring the intersection between cultural analysis, post-structuralism, and psychoanalytic interpretation.

Urban Impact-John L. Thompson 2010-10-26 Half of the population of the world lives in cities of one million or more. If we don't reach and disciple from these masses, our future missionary and pastoral force will be diminished. The book Urban Impact is a trumpet call to muster our forces but also deals with the philosophy and practical principles that make any ministry in the city successful. Brandishing a practical writing style coupled with real life experiences, John Thompson helps the reader understand the problems, burdens, joys, and powerful impact cities have on the rest of society. Helping the city pastor or missionary develop an effective ministry, Thompson elaborates on seven critical principles necessary for an effective urban ministry. Following this discussion the book turns to two of the leading challenges of great cities. The first being how to reach the disenfranchised--those from minority groups, people who have substance abuse problems, and the homeless, to name but a few. The second challenge deals with one of the greatest foundational problems in our cities and in all of society: the plight of the Absent Father. Other chapters address urban discipleship as the most effective approach to promote life transformation, planting churches in the difficult urban environment, and a topic rarely discussed in urban books, raising a family in the city.

The Roman Historical Tradition-James H. Richardson 2014 The study of Regal and Republican Rome presents a difficult and yet exciting challenge. The extant evidence, which for the most part is literary, is late, sparse, and difficult, and the value of it has long been a subject of intense and sometimes heated scholarly discussion. This volume provides students with an introduction to a range of important problems in the study of ancient Rome during the Regal and Republican periods in one accessible collection, bringing together a diverse range of influential papers. Of particular importance is the question of the value of the historiographical evidence (i.e. what the Romans themselves wrote about their past). By

juxtaposing different and sometimes incompatible reactions to the evidence, the collection aims to challenge its readers and invite them to join the debate, and to assess the ancient evidence and modern interpretations of it for themselves.

Apostles Today-Benji G. McNair Scott 2014-06-02 Are apostles amongst us today? According to a growing section of the church, the answer is yes. This book investigates and appraises that idea seeking answers to the following questions in the context of the church in the USA and particularly Britain: Is there a robust scriptural justification for the charismatic apostolate (CA) that most charismatic groups are proclaiming? How widespread is this belief and why has it become more commonplace? What kind of apostles are being advocated by influential popular teachers? What does church history and tradition have to offer to this idea? Is there a way to endorse and embrace ecumenically the CA? Does the CA have a future in the universal church? These are important questions to answer for the sake of the church's mission and health.

Evangelism and the Openness of God-Vaughn W. Baker 2012-12-18 In Evangelism and the Openness of God, Vaughn Baker argues that a dynamic concept of God as articulated in open theism better serves the evangelistic mission of the church than does conventional theology. Open theism affirms an ontology of love as opposed to power, and it focuses on God's kenosis in creation, allowing for the authentic freedom of creation influenced by divine persuasion. God's genuine temporal relationship with creation--one that is open, synergist, and non-coercive--provides a new perspective for evangelistic activity. In this volume the author has made a valuable contribution to the integration of new developments in theology and evangelism.

Eden's Bridge-David B. Doty 2012-01-01 Eden's Bridge: The Marketplace in Creation and Mission explores a biblically based theology of the marketplace implicit in the creation narrative of Genesis 1-2. The thesis validates the calling and ministry of all marketplace Christians. David Doty invites readers to rethink and

redirect the purposes of vocation, trade, and profit toward the purposes of God's Kingdom, as they were revealed in the beginning and are to be restored in Christ's reign. This book is eye-opening and inviting as it explores how God is moving to reclaim the marketplace for His Kingdom, and His redeeming purposes for the world of commerce. The marketplace holds untold potential if business is conducted according to God's plan: poverty can be eradicated, abundant living can be shared among all people, and shalom can prevail. Eden's Bridge offers hope for recovering from the recent collapse of the global economic system by envisioning a new view of how wealth is made and how the marketplace is yet to serve God's purposes in His mission to the world.

War and Society in Early Rome-Jeremy Armstrong 2016-04-08 This book combines the rich, but problematic, literary tradition for early Rome with the ever-growing archaeological record to present a new interpretation of early Roman warfare and how it related to the city's various social, political, religious, and economic institutions. Largely casting aside the anachronistic assumptions of late republican writers like Livy and Dionysius of Halicarnassus, it instead examines the general modes of behaviour evidenced in both the literature and the archaeology for the period and attempts to reconstruct, based on these characteristics, the basic form of Roman society and then to 're-map' that on to the extant tradition. It will be important for scholars and students studying many aspects of Roman history and warfare, but particularly the history of the regal and republican periods.
