Forbidden Harbor-Teresa Radice 2019-09-15 In the summer of 1807, the Explorer, a ship from Her Majesty's Navy recovers a young shipwreck off the coast of Siam, Abel, who can only remember his name. He soon becomes friends with the first officer, acting as a captain because the commander of the ship has apparently absconded with the ship's treasure. Abel returns to England with the Explorer and finds accommodation at the inn run by the three fugitive captain's daughters. Well before he can recover his memory, however, he will discover something deeply disturbing about himself, and he will understand the true nature of some of the people who helped him. A haunting and intense book that digs into the soul of the protagonists as well as the reader, with a generous helping of good ol' fashioned salty adventure along with many a shanty sung and a sprinkling of magic dust. Presented in a handsome old style, with a worn-looking hardcover, as if taken from a ship captain's library. An uplifting, enthralling escape.

Everyone Eats-E. N. Anderson 2014-02-07 Everyone eats, but rarely do we investigate why we eat what we eat. Why do we love spices, sweets, coffee? How did rice become such a staple food throughout so much of eastern Asia? Everyone Eats examines the social and cultural reasons for our food choices and provides an explanation of the nutritional reasons for why humans eat what they do, resulting in a unique cultural and biological approach to the topic. E. N. Anderson explains the economics of food in the globalization era; food's relationship to religion, medicine, and ethnicity; and offers suggestions on how to end hunger, starvation, and malnutrition. This thoroughly updated Second Edition incorporates the latest food scholarship, most notably recognizing the impact of sustainable eating advocacy and the state of food security in the world today. Anderson also brings more insight than ever before into the historical and scientific underpinnings of our food customs, fleshing this out with fifteen new and original photographs from his own extensive fieldwork. A perennial classic in the anthropology of food, Everyone Eats feeds our need to understand human ecology by explaining the ways that cultures and political systems structure the edible environment.

Rise of the Dungeon Master-David Kushner 2017-05-09 Rise of the Dungeon Master tells, in graphic form, the story of Gary Gygax, co-creator of Dungeons & Dragons, one of the most influential games ever made. Like the game itself, the narrative casts the reader into the adventure from a first person point of view, taking on the roles of the different characters in the story. Gygax was the son of immigrants who grew up in Lake Geneva, WI, in the 1950s. An imaginative misfit, he escaped into a virtual world based on science fiction novels, military history and strategic games like chess. In the mid-1970s, he co-created the wildly popular Dungeons & Dragons game. Starting out in the basement of his home, he was soon struggling to keep up with the demand. Gygax was a purist, in the sense that he was adamant that players use their imaginations and that the rules of the game remain flexible. A creative mind with no real knowledge of business, he made some strategic errors and had a falling out with the game's co-creator, his close friend and partner, David Arneson. By the late 1970s the game had become so popular among kids that parents started to worry -- so much so that a mom's group was formed to alert parents to the dangers of role play and fantasy. The backlash only fueled the fires of the young fans who continued to play the game, escaping into imaginary worlds. Before long, D&D conventions were set up around the country and the game inspired everything from movies to the first video games. With D&D, Gygax created the kind of role playing fantasy that would fuel the multibillion dollar video game industry, and become a foundation of contemporary geek culture.

The Stringbags-Garth Ennis 2020-05-20 If you do the incredible often enough, they'll want you to do the impossible. Nazi Germany, Imperial Japan, and Fascist Italy began World War II with aircraft that could devastate enemy warships and merchantmen at will. Britain's Royal Navy squadrons went to war equipped with the Fairey Swordfish. A biplane torpedo bomber in an age of monoplanes, the Swordfish was underpowered and undergunned; an obsolete museum piece, an embarrassment. Its crews fully expected to be shot from the skies. Instead, they flew the ancient "Stringbag" into legend. Writer Garth Ennis (Preacher, The Boys, War Stories) and artist PJ Holden (Battlefields, World of Tanks: Citadel) present the story of the men who crewed the Swordfish: from their triumphs against the Italian Fleet at Taranto and the mighty German battleship Bismarck in the Atlantic, to the deadly challenge of the Channel Dash in the bleak winter waters of their homeland. They lived as they flew, without a second to lose—and the greatest tributes to their courage would come from the enemy who strove to kill them. Based on the true story of the Royal Navy's Swordfish crews, The Stringbags is an epic tale of young men facing death in an aircraft almost out of time.

Pompeii-Frank Santoro 2013 \* Frank Santoro's graphic novel takes place just before the eruption of Pompeii in the year 79 AD. Santoro has constructed a historical fiction that is rooted in emotional truths and structured around classical principles of composition.
