Resurrection, Apocalypse, and the Kingdom of Christ-Stanley S. MacLean 2012-04-19 In recent decades few Christian themes have attracted as much attention as that of eschatology, or Christian hope.

Resurrection, Apocalypse, and the Kingdom of Christ explores the meaning of this theme for Thomas F. Torrance, one of the twentieth-century's leading theologians. This study, the first of its kind, brings Torrance's eschatology to light through an exploration of the whole range of his corpus, including

sermons, lectures, and correspondence. It also demonstrates that his eschatology is molded by momentous historical events such as World War II, the spread of communism, and the ecumenical movement. Out of all this, we realize that eschatology is a central component of Torrance's theology--so much so that it conditions his thinking on other Christian doctrines.

Transforming Congregations through Community-Boyung Lee 2013-11-18 In this helpful book, Boyung Lee offers an encouraging vision of the mainline church's future. Lee grapples with some of the greatest challenges facing the mainline church, offering compelling responses to recurring questions: What does faithfulness to the gospel look like in this changing world? What is our distinctive voice in the larger society? How does theological education have to change if it is to serve the needs of a new century? Lee argues that the church's future is a promising one if the church can offer a richer and deeper definition of community--one that moves beyond the excessive individualism of western culture and that helps mainline Christians understand their solidarity with one another and with all of God's people. Lee further explores the crucial role of faith formation at the congregational and seminary levels. More than mere schooling, theological education must engage all aspects of educators' and students' lives to prepare seminarians for the challenges that lie ahead. While not dismissing the mainline church's challenges, Lee offers congregational leaders and seminary educators a vision of a church transformed for the 21st century.

Embodied Souls, Ensouled Bodies-Marc Cortez 2011-10-20 The book explores the relationship between Christology and theological anthropology through the lens provided by the theology of Karl Barth and the mind/body discussion in contemporary philosophy of mind. It thus comprises two major sections. The first develops an understanding of Karl Barth's theological anthropology focusing on three major facets: (1) the centrality of Jesus Christ for any real understanding of human persons; (2) the resources that such a christologically determined view of human nature has for engaging in interdisciplinary discourse; and (3) the ontological implications of this approach for understanding the mind/body relationship. The second part draws on this theological foundation to consider the implications that Christological anthropology has for analyzing and assessing several prominent ways of explaining the mind/body relationship. Specifically, it interacts with two broad categories of theories: 'nonreductive' forms of physicalism and 'holistic' forms of dualism. After providing a basic summary of each, the book applies the insights gained from Barth's anthropology to ascertain the extent to which the two approaches may be considered christologically adequate.

Body, Soul, and Life Everlasting-John W. Cooper 2000 This widely acclaimed study of biblical anthropology is available once more along with a substantial new preface by the author. Fully engaged with theological, philosophical, and scientific discussions on the nature of human persons and their destiny beyond the grave, John Cooper's defense of "holistic dualism" remains the most satisfying and biblical response to come from the monism-dualism debate. First published in 1989, Body, Soul, and Life Everlasting is required reading for Christian philosophers, theologians, psychologists, and students interested in the mind-body question.

Rethinking Hell-Christopher Date 2014-04-15 Most evangelical Christians believe that those people who are not saved before they die will be punished in hell forever. But is this what the Bible truly teaches? Do Christians need to rethink their understanding of hell? In the late twentieth century, a growing number of evangelical theologians, biblical scholars, and philosophers began to reject the traditional doctrine of eternal conscious torment in hell in favor of a minority theological perspective called conditional immortality. This view contends that the unsaved are resurrected to face divine judgment, just as Christians have always believed, but due to the fact that immortality is only given to those who are in Christ, the unsaved do not exist forever in hell. Instead, they face the punishment of the "second death"--an end to their conscious existence. This volume brings together excerpts from a variety of well-respected evangelical thinkers, including John Stott, John Wenham, and E. Earl Ellis, as they articulate the biblical, theological, and philosophical arguments for conditionalism. These readings will give thoughtful Christians strong evidence that there are indeed compelling reasons for rethinking hell.

"The Church as the Image of the Trinity"-Kevin J. Bidwell 2011-06-10 A resurgence of Trinitarian interest gained momentum in the twentieth century and it is showing little sign of abating in the twenty-first

century. This research endeavors to critically evaluate Miroslav Volf's ecclesial model for "the church as the image of the Trinity," one that he presents with the English title, *After Our Likeness*. Volf proposes a social doctrine of the Trinity, one that is heavily influenced by the theological writings of Jurgen Moltmann, and he puts forward that this nonhierarchical Trinity should be reflected in the structures and theology of the church. If Volf is correct, then a radical reshaping is needed for the church to conform to an egalitarian pattern, one that is "after the likeness" (Gen 1:26) of an egalitarian God. In this critical examination, Kevin J. Bidwell begins by stating the theological influences that are pertinent to Volf's thesis in *After Our Likeness* and the assumptions that undergird and inform his whole theological paradigm. An important theological excursus is offered to assess the theology of John Smyth, the first English Baptist, who is Volf's representative figure for the location of his own ecclesiology, the Free Church. A critical analysis follows of Volf's engagement with his two chosen dialogue partners who represent both Western and Eastern theological traditions: Joseph Ratzinger and John D. Zizioulas. Volf presents five theses for "the church as the image of the Trinity," which could be labeled as Volf's Free Church in the image of Volf's revised doctrine of the Trinity. This monograph offers extensive insight into the contemporary debate on the doctrine of the Trinity, but it also assesses many aspects of ecclesiology from both Eastern and Western perspectives.

The Theology of the Bible, Itself the Teacher and Its Own Interpreter-Oliver Spencer Halsted 1866
Christian Theology and Religious Pluralism-David S. Nah 2012-04-18 The question of religious pluralism is the most significant yet thorniest of issues in theology today, and John Hick (1922-2012) has long been recognized as its most important scholar. However, while much has been written analyzing the philosophical basis of Hick's pluralism, very little attention has been devoted to the theological foundations of his argument. Filling this gap, this book examines Hick's theological attempts to systematically deconstruct the church's traditional incarnational Christology. Special attention is given to evaluating Hick's foundational theses "that Jesus himself did not teach what was to become the orthodox Christian understanding of him" and "that the dogma of Jesus' two natures . . . has proved to be incapable of being explicated in any satisfactory way." By elucidating the ways in which Hick's arguments fail, David Nah demonstrates that Hick was unwarranted in breaking away from the church's incarnational Christology that has been at the core of Christianity for almost two thousand years.

God's Gym-Stephen D. Moore 1996 In this strikingly original work, Stephen Moore considers God's male bodies--the body of Yahweh in the Hebrew Bible, and the Father of Jesus Christ, and Jesus himself in the New Testament--and our obsessive earthly quest for a perfect human form. *God's Gym* is about divinity, physical pain, and the visions of male perfectability. Weaving together his obsession with human anatomy and dissection, an interest in the technologies of torture, the cult of physical culture, and an expert knowledge of biblical criticism, Moore explains the male narcissism at the heart of the biblical God. *God's Gym* is an intensely personal book, brimming with our culture's phobias and fascinations about male perfectability.

Theological Reflections on the Charismatic Renewal-John C. Haughey 1978

Out of Egypt: Biblical Theology and Biblical Interpretation-Zondervan, 2011-03-01 Biblical theology attempts to explore the theological coherence of the canonical witnesses; no serious Christian theology can overlook this issue. The essays in the present volume illustrate the complexity and richness of the conversation that results from attentive consideration of the question. In a time when some voices are calling for a moratorium on biblical theology or pronouncing its concerns obsolete, this collection of meaty essays demonstrates the continuing vitality and necessity of the enterprise. Richard B. Hays, George Washington Ivey Professor of New Testament, The Divinity School, Duke University, USA This volume on biblical theology jumps into the fray and poses the right kind of questions. It does not offer a single way forward. Several of the essays are quite fresh and provocative, breaking new ground (Bray, Reno); others set out the issues with clarity and grace (Bartholomew); others offer programmatic analysis (Webster; Bauckham); others offer a fresh angle of view (Chapman, Martin). The success of this series is in facing

the challenge of disarray in biblical studies head-on and then modeling a variety of approaches to stimulate our reflection. Christopher Seitz, Professor of Old Testament and Theological Studies, St. Andrews University, UK

Body, Soul, and Human Life-Joel B. Green 2008 "Are humans composed of a material body and an immaterial soul? This view is commonly held by Christians, yet it has been undermined by recent developments in neuroscience. How much of Christian theology is built on views of humanity that modern science has proved to be untenable? Exploring what Scripture and theology teach about issues such as being in the divine image, the importance of community, sin, free will, salvation, and the afterlife, Joel Green argues that a dualistic view of the human person is inconsistent with both science and Scripture"-- Publisher description (cf OCLC)

First the Antichrist-Bob Gundry 1996-06-01 "History established the pattern through world floods, Egyptian plagues, tribulations of all kinds. God leads his people through life's disasters, not around them. First the Antichrist rejects the pretribulation rapture scenario that God will open an escape route so Christians will be spared persecution. Rather, in a complex chain of events Christ will gather the church out of the world only after seven years of intense suffering, when Christ returns to rule. In this close study of church history and debated Bible texts, Bob Gundry shows that the pretribulation rapture is a recent innovation. It is wishful thinking that came to grab the pre-millennial spotlight. But serious scholars are backing away. It just doesn't accord with what the Bible says. In First the Antichrist, Gundry lays out a more biblical (and accurate) picture. First the Antichrist is a much needed contribution to apocryphal and pre-millennial prophecy studies."--Midwest Book Review
