Social Psychology Matters-Hollway, Wendy 2006-12-01 Social Psychology Matters explores the significance of social psychology in the twenty-first century and the important contribution it can and does make to understanding ourselves and others in today's world. This book is designed to help the reader navigate the complex and ever-changing nature of the discipline and gain an overview of the key concepts, methods and theories. The authors adopt a broad approach to trace the roots and legacies of social psychology with a keen eye to the future. Each chapter provides an in-depth look at a social psychological topic of significance, ranging from self and conflict to families and embodiment. Four theoretical perspectives ? cognitive social, discursive psychological, phenomenological and social psychoanalytic ? enable students to critically analyse social psychological research. These perspectives are interpreted through the interrogative themes of: Individual? society dualism Agency? structure dualism Situated knowledges Power relations This stimulating and accessible text uses real-life experience to demonstrate why social psychology matters and how our understanding of these topics can be continually enhanced and constructively applied.

Finding Your Leadership Focus-Douglas B. Reeves 2015-04-18 In his new book, author and international keynoter Douglas Reeves addresses a major challenge faced by today's school leaders: an ever-growing load of programs and initiatives. Reeves contends that program overload not only taxes leadership resources, but actually hurts rather than improves student performance. Drawing on recent research findings, this book shows how leaders can pare down from a proliferation of initiatives to determine what is truly most important based on their local concerns, challenges, populations, and other school factors. Identifying a specific set of leadership practices that are more strongly associated with improvements in student achievement, Reeves provides explicit guidelines for how school leaders can improve their most critical leadership decisions by simultaneously engaging in three essential strategies: monitoring teaching and leadership practices, building high degrees of efficacy among staff members, and focusing on a smaller number of priorities. **Finding Your Leadership Focus** is essential reading for new and veteran principals, teacher leaders, and PLC book study groups. **Book Features:** Practical guidance to help school leaders at every level to focus on what is most important and to assess their progress. Analysis correlating three years of student achievement data and specific school leadership practices. Online video conference support by Douglas Reeves for book study groups and graduate classes who use this book. Online downloads. Douglas B. Reeves is the founder of The Leadership and Learning Center, Englewood, Colorado. He was named the Brock International Laureate for his contributions to education and received the Distinguished Service Award from the National Association of Secondary School Principals. "Finding Your Leadership Focus could not have arrived at a more timely moment in the history of reform.... Doug Reeves' conclusions and agenda for action are exactly what is needed." —From the Foreword by Michael

Fullan, professor emeritus, University of Toronto “If schools and districts model their improvement efforts on Doug Reeves’ sage advice, voluminous strategic plans will be scrapped, trees will be saved, educators will avoid the Law of Initiative Fatigue, and most importantly, students will learn at higher levels.”

—Richard DuFour, educational author and consultant “This book is a masterful combination of research and practice, and Doug Reeves is one of the few people in the country who could have written it. He has added much-needed clarity to the process of leading in a way that directly results in enhanced student achievement.” —Robert J. Marzano, CEO, Marzano Research Laboratory

Teaching the Taboo-Rick Ayers 2014 Rick and William Ayers renew their challenge to teachers to teach initiative, to teach imagination, to “teach the taboo” in the new edition of this bestseller. Drawing from a lifetime of deep commitment to students, teaching, and social justice, the authors update their powerful critique of schooling and present classroom stories of everyday teachers grappling with many of today’s hotly debated issues. They invite educators to live a teaching life of questioning—to imagine classrooms where every established and received bit of wisdom, common sense, orthodoxy, and dogma is open for examination, interrogation, and rethinking. Teaching the Taboo, Second Edition is an insightful guide to effective pedagogy and essential reading for anyone looking to evolve as an educator. What’s new for the second edition of Teaching the Taboo! A deeper exploration of issues of white privilege and racism and war and peace. A more thorough examination of the problems with math and science education, including possible solutions. An expanded exploration of the importance of creative writing for validating individual and community experiences. A more thorough discussion of Freire’s work and comparison to the radical teaching projects of African American activists in the south during the Freedom Schools. An in-depth look

at how students can be part of co-constructing historical narratives and analyses. An update on school struggles in Atlanta, Chicago, and Seattle. Praise for the first edition of *Teaching the Taboo!* “For those frustrated by the thrust of educational ‘reform’...this book provides what can be described as both a challenge and a set of alternatives.” —Education Review “Drawing from a lifetime of deep thinking about education and courageous commitment to precious students, Rick and William Ayers have given us a marvelous book. Their devastating critique of the pervasive market models in education and their powerful defense of democratic forms of imagination in schools are so badly needed in our present-day crisis!” —Cornel West, Princeton University “*Teaching the Taboo* is provocative, challenging, funny in places, wild but sensible enough to be useful, inspiring, and practical for educators who are working to negate the educational madness that is infecting the schools.” —Herb Kohl, author of *36 Children and Painting Chinese* Rick Ayers is a university instructor and founder of the Communication Arts and Sciences small school at Berkeley High School, and teaches at the University of San Francisco. William Ayers is a school reform activist and a Distinguished Professor of Education and Senior University Scholar at the University of Illinois at Chicago.
