The Greatest Comeback: From Genocide To Football Glory-David Bolchover 2017-05-18 Shortlisted for the William Hill Sports Book of the Year Award 2017. Longlisted for the Coutts Football Writers Association Award 2018. Before Pep Guardiola and before José Mourinho, there was Béla Guttmann: the first superstar football coach, and the man who paved the way for the celebrated coaches of the modern age. More extraordinarily still, Guttmann was a Holocaust survivor. Having narrowly dodged death by hiding for months in an attic near Budapest as thousands of fellow Jews in the neighbourhood were dragged off to be murdered, Guttmann later escaped from a slave labour camp. He was one of the lucky ones. His father, sister and wider family perished at the hands of the Nazis. But by 1961, as coach of Benfica, he had lifted one of football's greatest prizes: the European Cup a feat he repeated the following year. Rising from the death pits of Europe to become its champion in just over sixteen years, Guttmann performed the single greatest comeback in football history. This remarkable story spans two visions of twentieth-century Europe: a continent ruptured by barbarism and genocide, yet lit up by exhilarating encounters in magnificent cities, where great players would strive to win football's holy grail. With dark forces rising once again, the story of Béla Guttmann's life asks the question: which vision of Europe will triumph in our times?

Greatest Comeback-David Bolchover 2018-01-30 An extraordinary and compelling account of the life of holocaust survivor and football coach Bela Guttmann.

More Noble Than War-Nicholas Blincoe 2019-10-29 By turns tragic and hopeful, the history of Israel and Palestine through the lens of the world's most popular sport Soccer has never been apolitical. This is especially true for Israel and Palestine. The game played a direct role in shaping the politics of both countries, and the view from the stands or the pitch shines a light on key moments in the region's volatile history. In More Noble Than War, Nicholas Blincoe weaves a dramatic narrative filled with driven players and coaches who are inspired as much by nationalism as a love of the game. The Names Heard Long Ago-Jonathan Wilson 2019-09-17 The story of the vibrant and revolutionary soccer culture in Hungary that, on the eve of World War II, redefined the modern game and launched a new era. In the early 1950s, the Hungarian side was unbeatable, winning the Olympic gold and thrashing England in the Match of the Century. Their legendary forward, Ferenc Puskás, was one of the game's first international superstars. But as Jonathan Wilson reveals in *The Names Heard Long Ago*, this celebrated era was in fact the final act of the true golden age of Hungarian soccer. In Budapest in the 1920s and 1930s, a new school of soccer emerged that became one of the most influential in the game's history, shaped by brilliant players and coaches who brought mathematical rigor and imagination to the style of play. But with the onset of World War II, many were forced into exile, fleeing anti-Semitism and the rise of fascism. Yet their legacy endured. Against the backdrop of economic and political turmoil between the wars, and in spite of extraordinary odds, Hungary taught the world to play.

The Better Angels of Our Nature-Steven Pinker 2012-09 Presents a controversial history of violence which argues that today's world is the most peaceful time in human existence, drawing on psychological insights into intrinsic values that are causing people to condemn violence as an acceptable measure.

THE LIVING DEAD: SWITCHED OFF, ZONED OUT-David Bolchover 2007-07 **Market_Desc: Office workers, in particular managers, seeking escape from stale and soporific careers. Special Features:** · Author is a prominent and regular contributor to the media, with articles in *The Times* and *The FT*, among others · Author spent an entire year employed the largest insurance brokers in the world doing absolutely nothing after completing his MBA - after which he earned a healthy redundancy pay-off **About The Book:** *The Living Dead*, lifts the coffin lid on the theory that we are all time-pushed, harassed individuals slogging away in a never-ending corporate rat race. Whilst this may be the case for some of us, this book reveals staggering statistics that a large proportion of the work force are so bored and disillusioned with our jobs that we employ a range of diversion techniques to get us through the day, weeks, months, years.

Contested Fields-Alan McDougall 2020-03-14 Interrogating the costs and benefits of the game's controversial path to global pre-eminence, *Contested Fields* shows how and why football matters in the modern world - as part of the social fabric and as a site of political power and resistance.

Bloodlands-Timothy Snyder 2012-10-02 From the bestselling author of *On Tyranny*, the definitive history of Hitler's and Stalin's wars against the civilians of Europe in World War Two Americans call the Second World War "The Good War." But before it even began, America's wartime ally Josef Stalin had killed millions of his own citizens--and kept killing them during and after the war. Before Hitler was finally defeated, he had murdered six million Jews and nearly as many other Europeans. At war's end, both the German and the Soviet killing sites fell behind the iron curtain, leaving the history of mass killing in darkness. *Bloodlands* is a new kind of European history, presenting the mass murders committed by the Nazi and Stalinist regimes as two aspects of a single history, in the time and place where they occurred: between Germany and Russia, when Hitler and Stalin both held power. Assiduously researched, deeply humane, and utterly definitive, *Bloodlands* will be required reading for anyone seeking to understand the central tragedy of modern history. *Bloodlands* won twelve awards including the Emerson Prize in the Humanities, a Literature Award from the American Academy of Arts and Letters, the Leipzig Award for European Understanding, and the Hannah Arendt Prize in Political Thought. It has been translated into more than thirty languages, was named to twelve book-of-the-year lists, and was a bestseller in six countries.

The Path of a Genocide-Astri Suhrke 2017-07-05 The Great Lakes region of Africa has seen dramatic changes. After a decade of war, repression, and genocide, loosely allied regimes have replaced old-style dictatorships. *The Path of a Genocide* examines the decade (1986-97) that brackets the 1994 genocide in Rwanda. This collection of essays is both a narrative of that event and a deep reexamination of the international role in addressing humanitarian issues and complex emergencies. Nineteen donor countries and seventeen multilateral organizations, international agencies, and international nongovernmental organizations pooled their efforts for an in-depth evaluation of the international response to the conflict in Rwanda. Original studies were commissioned from scholars from Uganda, Rwanda, Zaire, Ethiopia, Norway, Great Britain, France, Canada, and the United States. While each chapter in this volume focuses on one dimension of the Rwanda conflict, together they tell the story of this unfolding genocide and the world's response. *The Path of a Genocide* offers readers a perspective in sharp contrast to the tendency to treat a peace agreement as the end to conflict. This is a detailed effort to make sense of the political crisis and genocide in Rwanda and the effects it had on its neighbors.

You'll Never Walk-Andy Grant 2018-05-24 When Andy Grant's eyes blinked open from a 10-day coma in February 2009 he was alone in a hospital bed in Birmingham. He had a broken sternum, a broken leg, a broken elbow and shrapnel lodged in both forearms. He had a severed femoral artery, nerve damage to his hands and feet as well as deep gaping wounds in both of his cheeks. He had been blown up during a routine foot patrol in Afghanistan. Within days of coming to his senses, a doctor told Andy that because of the blast he would no longer be able to have children. *You'll Never Walk* is his story. The tale of a Scouser who had to cope with losing his mum at the tender age of 12. The story of how a dream career in the Royal Marines descended into nightmare at the hands of the Taliban. The painstaking account of how he grew back six centimetres of shattered bone in his leg and learned to walk again. However, Andy wanted to run and push himself to the very edge of his limits and so he made a colossal decision. Against doctor's advice and pleas from his father, he chose to have his leg amputated. The operation was a success, although there was a minor twist. Where once Andy's treasured Liverpool FC tattoo had carried the message 'You'll Never Walk Alone', surgery to create a stump removed a key word from the slogan. The scars of his amputation had been decorated with an ominous new motto, which read 'You'll Never Walk...' Andy would walk again - he would do much more than that. Armed with a running blade he learned to run and play football, scaled mountains in South America and Italy and claimed two gold medals at Prince Harry's Invictus Games. Through public speaking he brought hope to people right across the country. In 2016, he set his sights on a 10k below-the-knee-amputee world-record and completed the run in an unprecedented 37 minutes 17 seconds. And, most precious of all, after every obstacle placed in his path, Andy became a father to a little girl.

Behind the Curtain-Jonathan Wilson 2012-04-09 From the war-ravaged streets of Sarajevo, where turning up for training involved dodging snipers' bullets, to the crumbling splendour of Budapest's Bozsik Stadium, where the likes of Puskás and Kocsis masterminded the fall of England, the landscape of Eastern Europe has changed immeasurably since the fall of communism. Jonathan Wilson has travelled extensively behind the old Iron Curtain, viewing life beyond the fall of the Berlin Wall through the lens of football.

Where once the state-controlled teams of the Eastern bloc passed their way with crisp efficiency - a sort of communist version of total football - to considerable success on the European and international stages, today the beautiful game in the East has been opened up to the free market, and throughout the region a sense of chaos pervades. The threat of totalitarian interference no longer remains; but in its place mafia control is generally accompanied with a crippling lack of funds. In *BEHIND THE CURTAIN* Jonathan Wilson goes in search of the spirit of Hungary's 'Golden Squad' of the early fifties, charts the disintegration of the footballing superpower that was the former Yugoslavia, follows a sorry tale of corruption, mismanagement and Armenian cognac through the Caucasuses, reopens the case of Russia's greatest footballer, Eduard Streltsov, and talks to Jan Tomaszewski about an autumn night at Wembley in 1973...

The Racial Contract-Charles W. Mills 2014-05-29 *The Racial Contract* puts classic Western social contract theory, deadpan, to extraordinary radical use. With a sweeping look at the European expansionism and racism of the last five hundred years, Charles W. Mills demonstrates how this peculiar and unacknowledged "contract" has shaped a system of global European domination: how it brings into existence "whites" and "non-whites," full persons and sub-persons, how it influences white moral theory and moral psychology; and how this system is imposed on non-whites through ideological conditioning and violence. *The Racial Contract* argues that the society we live in is a continuing white supremacist state. Holding up a mirror to mainstream philosophy, this provocative book explains the evolving outline of the racial contract from the time of the New World conquest and subsequent colonialism to the written slavery contract, to the "separate but equal" system of segregation in the twentieth-century United States. According to Mills, the contract has provided the theoretical architecture justifying an entire history of European atrocity against non-whites, from David Hume's and Immanuel Kant's claims that blacks had inferior cognitive power, to the Holocaust, to the kind of imperialism in Asia that was demonstrated by the Vietnam War. Mills suggests that the ghettoization of philosophical work on race is no accident. This work challenges the assumption that mainstream theory is itself raceless. Just as feminist theory has revealed orthodox political philosophy's invisible white male bias, Mills's explication of the racial contract exposes its racial underpinnings.

Micky Adams-Micky Adams 2017-09-21 Micky Adams has a football CV as long as your arm, having put in 438 appearances as a full-back - for teams such as Gillingham, Leeds, Fulham and Southampton, followed by a management career that took in over a dozen clubs at every tier of English football. As a manager, Adams took the helm at some of the biggest clubs in the English football, including Leicester City, Brighton & Hove Albion, Nottingham Forest, Coventry City, Port Vale and Fulham, winning four promotions and a league title, as well as a reputation for bringing success and stability in often difficult environments. In this extraordinary autobiography, written with veteran sports writer and long-time friend Neil Moxley, Micky Adams reveals the truth behind incidents on and off the pitch, including what really happened at La Manga, where three Leicester City players were accused of sexual assault during a mid-season training break, and what it was like to play with Alan Shearer and Matt Le Tissier in one of the most enduring careers in football.

Pay Check-David Bolchover 2012 Even amid the enduring financial crisis, sky-high salaries for top executives and bankers persist, further inflaming public anger. But nothing will change, argues David Bolchover, until we confront the root cause - a self-serving "talent myth" that justifies high pay on the ground that the recipients possess extraordinary abilities without which no company could hope to prosper. These claims are not only unfounded; they are also an abuse of free-market capitalism. *Pay Check* aims to win the system back for those who actually take the risks, and expose those who merely snatch the rewards.

Welcome to Hell?-John McManus 2018-04-26 Ask a British football fan what they know about Turkish football, and they are unlikely to describe scenes of camaraderie, hospitality and humour. They are more likely to mention banners proclaiming 'Welcome to hell'. Or Leeds United supporters stabbed to death on an Istanbul street. Frustrated by the game's distorted image back home, John McManus set out to show the Turkish football that he knew - the rich, funny, obsessive, fan culture that he had encountered on the terraces. But he hadn't accounted for the politics. Travelling from the elite training facilities of Istanbul to dusty pitches on the Syrian border, taking in visits to far-flung clubs, encounters with characterful players and experiences at riotous matches along the way, *Welcome to Hell?* offers a unique perspective on an alluring yet troubled football culture.

Mao's Great Famine-Frank Dikötter 2010-10-01 Winner of the Samuel Johnson Prize An unprecedented, groundbreaking history of China's Great Famine that recasts the era of Mao Zedong and the history of the People's Republic of China. "Between 1958 and 1962, China descended into hell. Mao Zedong threw his country into a frenzy with the Great Leap Forward, an attempt to catch up to and overtake Britain in less than 15 years The experiment ended in the greatest catastrophe the country had ever known, destroying tens of millions of lives." So opens Frank Dikötter's riveting, magnificently detailed chronicle of an era in Chinese history much speculated about but never before fully documented because access to Communist Party archives has long been restricted to all but the most trusted historians. A new archive law has opened up thousands of central and provincial documents that "fundamentally change the way one can study the Maoist era." Dikötter makes clear, as nobody has before, that far from being the program that would lift the country among the world's superpowers and prove the power of Communism, as Mao imagined, the Great Leap Forward transformed the country in the other direction. It became the site not only of "one of the most deadly mass killings of human history,"--at least 45 million people were worked, starved, or beaten to death--but also of "the greatest demolition of real estate in human history," as up to one-third of all housing was turned into rubble). The experiment was a catastrophe for the natural world as well, as the land was savaged in the maniacal pursuit of steel and other industrial accomplishments. In a powerful mesghing of exhaustive research in Chinese archives and narrative drive, Dikötter for the first time links up what happened in the corridors of power--the vicious backstabbing and bullying tactics that took place among party leaders--with the everyday experiences of ordinary people, giving voice to the dead and disenfranchised. His magisterial account recasts the history of the People's Republic of China.

Trautmann's Journey-Catrine Clay 2011 SHORTLISTED FOR THE WILLIAM HILL SPORTS BOOK OF THE YEAR Bert Trautmann is a football legend. He is famed as the Manchester City goalkeeper who broke his neck in the 1956 FA Cup final and played on. But his early life was no less extraordinary. He grew up in Nazi Germany, where first he was indoctrinated by the Hitler Youth, before fighting in World War Two in France and on the Eastern Front. In 1945 he was captured and sent to a British POW camp where, for the first time, he understood that there could be a better way of life. He embraced England as his new home and before long became an English football hero. 'Brilliant' Observer 'A remarkable story, well worth reading' The Times 'A gripping story of an unlikely redemption through football' Sunday Times 'This poignant book is a tribute to the depth of both Clay's research and her compassion' Independent The Fierce 44-The Staff of the Undefeated 2019-12-24 A dynamic and hip collective biography that presents forty-four of America's greatest movers and shakers, from Frederick Douglass to Aretha Franklin to Barack Obama, written by ESPN's TheUndefeated.com and illustrated with dazzling portraits by Rob Ball. From visionaries to entrepreneurs, athletes to activists, the Fierce 44 are beacons of brilliance, perseverance, and excellence. Each short biography is accompanied by a compelling portrait by Robert Ball, whose bright, graphic art pops off the page.

Bringing household names like Serena Williams and Harriet Tubman together with lesser-known but highly deserving figures such as Robert Abbott and Dr. Charles Drew, this collection is a celebration of all that African Americans have achieved, despite everything they have had to overcome.

What's the Matter with White People?-Joan Walsh 2013-04-16 A CLEAR-EYED, COGENT CLARION CALL FOR ENDING THE DIVISIVE CLASS WARS THAT THREATEN THE AMERICAN MIDDLE-CLASS DREAM In What's the Matter with White People? Walsh argues that the biggest divide in America today is based not on party or ideology but on two competing explanations for why middle-class stability has been shaken

since the 1970s. One side sees an America that has spent the last forty years bankrupting the country by providing benefits for the underachieving, the immoral, and the undeserving—no matter the cost to the majority of Americans. The other side sees an America that has spent the last forty years catering to the wealthy while allowing only a nominal measure of progress for the downtrodden. Using her extended Irish-Catholic working-class family as a case in point and explaining her own political coming-of-age, Walsh shows how liberals unwittingly collaborated in the “us versus them” narrative and how the GOP’s renewed culture war now scapegoats segments of its own white demographic. Part memoir, part political history, *What’s the Matter with White People?* is essential reading to combat political and cultural polarization and to build a more just and prosperous multiracial America in the years to come. WITH A NEW AFTERWORD

Intent to Deceive-Linda Melvern 2020-02-25 A shocking exposé of genocide denial It is twenty-five years since the 1994 genocide of the Tutsi of Rwanda when in the course of three terrible months more than 1 million people were murdered. In the intervening years a pernicious campaign has been waged by the perpetrators to deny this crime, with attempts to falsify history and blame the victims for their fate. Facts are reversed, fake news promulgated, and phoney science given credence. *Intent to Deceive* tells the story of this campaign of genocide denial from its origins with those who planned the massacres. With unprecedented access to government archives including in Rwanda Linda Melvern explains how, from the moment the killers seized the power of the state, they determined to distort reality of events. Disinformation was an integral part of their genocidal conspiracy. The génocidaires and their supporters continue to peddle falsehoods. These masters of deceit have found new and receptive audiences, have fooled gullible journalists and unwary academics. With their seemingly sound research methods, the Rwandan génocidaires continue to pose a threat, especially to those who might not be aware of the true nature of their crime. The book is a testament to the survivors who still live the horrors of the past. Denial causes them the gravest offence and ensures that the crime continues. This is a call for justice that remains perpetually delayed.

Becoming Evil-James Waller 2002-06-27 Political or social groups wanting to commit mass murder on the basis of racial, ethnic or religious differences are never hindered by a lack of willing executioners. In *Becoming Evil*, social psychologist James Waller uncovers the internal and external factors that can lead ordinary people to commit extraordinary acts of evil. Waller debunks the common explanations for genocide- group think, psychopathology, unique cultures- and offers a more sophisticated and comprehensive psychological view of how anyone can potentially participate in heinous crimes against humanity. He outlines the evolutionary forces that shape human nature, the individual dispositions that are more likely to engage in acts of evil, and the context of cruelty in which these extraordinary acts can emerge. Illustrative eyewitness accounts are presented at the end of each chapter. An important new look at how evil develops, *Becoming Evil* will help us understand such tragedies as the Holocaust and recent terrorist events. Waller argues that by becoming more aware of the things that lead to extraordinary evil,

we will be less likely to be surprised by it and less likely to be unwitting accomplices through our passivity.

From Pele to Meazza, Maradona to Socrates, you will be taken on an unforgettable journey through the good, the bad and the Hagi.

Humankind-Rutger Bregman 2020-06-02 INSTANT NEW YORK TIMES BESTSELLER. "The Sapiens of 2020."---The Guardian From the author of the New York Times bestseller Utopia for Realists comes "the riveting pick-me-up we all need right now" (People), the #1 Dutch bestseller Humankind, which offers a "bold" (Daniel H. Pink), "extraordinary" (Susan Cain) argument that humans thrive in a crisis and that our innate kindness and cooperation have been the greatest factors in our long-term success on the planet. "Humankind made me see humanity from a fresh perspective." ---Yuval Noah Harari, author of the #1 bestseller Sapiens If there is one belief that has united the left and the right, psychologists and philosophers, ancient thinkers and modern ones, it is the tacit assumption that humans are bad. It's a notion that drives newspaper headlines and guides the laws that shape our lives. From Machiavelli to Hobbes, Freud to Pinker, the roots of this belief have sunk deep into Western thought. Human beings, we're taught, are by nature selfish and governed primarily by self-interest. But what if it isn't true?

International bestseller Rutger Bregman provides new perspective on the past 200,000 years of human history, setting out to prove that we are hardwired for kindness, geared toward cooperation rather than competition, and more inclined to trust rather than distrust one another. In fact this instinct has a firm evolutionary basis going back to the beginning of Homo sapiens. From the real-life Lord of the Flies to the solidarity in the aftermath of the Blitz, the hidden flaws in the Stanford prison experiment to the true story of twin brothers on opposite sides who helped Mandela end apartheid, Bregman shows us that believing in human generosity and collaboration isn't merely optimistic--it's realistic. Moreover, it has huge implications for how society functions. When we think the worst of people, it brings out the worst in our politics and economics. But if we believe in the reality of humanity's kindness and altruism, it will form the foundation for achieving true change in society, a case that Bregman makes convincingly with his signature wit, refreshing frankness, and memorable storytelling.

The Late Age of Print-Ted Striphas 2010-08 Here, the author assesses our modern book culture by focusing on five key elements including the explosion of retail bookstores like Barnes & Noble and Borders, and the formation of the Oprah Book Club.

Blood Moon-John Sedgwick 2019-04-16 An astonishing untold story from the nineteenth century—a "riveting...engrossing... 'American Epic'" (The Wall Street Journal) and necessary work of history that reads like Gone with the Wind for the Cherokee. "A vigorous, well-written book that distills a complex history to a clash between two men without oversimplifying" (Kirkus Reviews), Blood Moon is the story of the feud between two rival Cherokee chiefs from the early years of the United States through the

infamous Trail of Tears and into the Civil War. Their enmity would lead to war, forced removal from their homeland, and the devastation of a once-proud nation. One of the men, known as The Ridge—short for He Who Walks on Mountaintops—is a fearsome warrior who speaks no English, but whose exploits on the battlefield are legendary. The other, John Ross, is descended from Scottish traders and looks like one: a pale, unimposing half-pint who wears modern clothes and speaks not a word of Cherokee. At first, the two men are friends and allies who negotiate with almost every American president from George Washington through Abraham Lincoln. But as the threat to their land and their people grows more dire, they break with each other on the subject of removal. In *Blood Moon*, John Sedgwick restores the Cherokee to their rightful place in American history in a dramatic saga that informs much of the country's mythic past today. Fueled by meticulous research in contemporary diaries and journals, newspaper reports, and eyewitness accounts—and Sedgwick's own extensive travels within Cherokee lands from the Southeast to Oklahoma—it is “a wild ride of a book—fascinating, chilling, and enlightening—that explains the removal of the Cherokee as one of the central dramas of our country” (Ian Frazier). Populated with heroes and scoundrels of all varieties, this is a richly evocative portrait of the Cherokee that is destined to become the defining book on this extraordinary people.
