Thinking for Yourself-Marlys Mayfield 2009-04-13 Mayfield's THINKING FOR YOURSELF fully integrates critical thinking with composition and reading. Rather than teaching from the outside in of rules and imitation, the text offers students an inside out approach for improving their own thinking, perceiving, writing and awareness skills lifelong. With each chapter building upon previously developed skills, students learn how to write more detailed description as they learn to observe better, to write reports when they can separate facts from inferences, opinions, and assumptions, and finally write an argumentative research paper grounded in step-by-step skill development in reasoning and critical analysis. THINKING FOR YOURSELF is a book that students like to read; its hallmark features include interesting (and provocative) readings, cartoons, multiple options for application and testing, and a lively explanation of critical thinking concepts, and standards. Important Notice: Media content referenced within the product description or the product text may not be available in the ebook version.

Cultural Competence Now-Vernita Mayfield 2020-02-18 What will it take to create equitable educational opportunities for all students? According to veteran educator Vernita Mayfield, teachers and school leaders need to learn how to recognize culturally embedded narratives about racial hierarchy and dismantle the systems of privilege and the institutions that perpetuate them with knowledge

Downloaded from

action, and advocacy. Cultural Competence Now provides a structure to begin meaningful conversations about race, culture, bias, privilege, and power within the time constraints of an ordinary school. The 56 exercises include activities, discussions, and readings in which to engage during each of the four quarters of the school year. School leaders will discover how to facilitate learning through the four steps—awaken and assess; apply and act; analyze and align; advocate and lead—as you and your colleagues * Increase your awareness of privilege and bias. * Adapt your professional practices to meet the needs of all students. * Examine policies and practices that inhibit opportunities for marginalized populations. * Align resources to eradicate inequity in your school. Mayfield offers advice on establishing a safe environment for professional conversations, setting goals for cultural competency, overcoming resistance, reviewing school data and the school's vision and mission through the lens of race and culture, and strategically managing what can be a transformative yet uncomfortable change process. Cultural Competence Now responds to the urgent need to build the cultural competency of educators—for the sake of children and in the interest of supporting and retaining all educators. Think Java-Allen B. Downey 2019-11-27 Currently used at many colleges, universities, and high schools, this hands-on introduction to computer science is ideal for people with little or no programming experience. The goal of this concise book is not just to teach you Java, but to help you think like a computer scientist. You'll learn how to program—a useful skill by itself—but you'll also discover how to use programming as a means to an end. Authors Allen Downey and Chris Mayfield start with the most basic concepts and gradually move into topics that are more complex, such as recursion and object-oriented programming. Each brief chapter covers the material for one week of a college course and includes exercises to help you practice what you've learned. Learn one concept at a time: tackle complex topics in a series of small steps with examples Understand how to formulate problems, think creatively about solutions, and write programs clearly and accurately Determine which development techniques work best for you, and practice the important skill of debugging Learn relationships among input and output, decisions and loops, classes

and methods, strings and arrays Work on exercises involving word games, graphics, puzzles, and playing cards The updated second edition of Think Java also features new chapters on polymorphism and data processing, as well as content covering changes through Java 12.

Cultural Anthropology: 101-Jack David Eller 2015-02-11 This concise and accessible introduction establishes the relevance of cultural anthropology for the modern world through an integrated, ethnographically informed approach. The book develops readers' understanding and engagement by addressing key issues such as: What it means to be human The key characteristics of culture as a concept Relocation and dislocation of peoples The conflict between political, social and ethnic boundaries The concept of economic anthropology Cultural Anthropology: 101 includes case studies from both classic and contemporary ethnography, as well as a comprehensive bibliography and index. It is an essential guide for students approaching this fascinating field for the first time.

The Undertaker's Daughter-Kate Mayfield 2015-01-13 "The Undertaker's Daughter is a wonderfully quirky, gem of a book beautifully written by Kate Mayfield....Her compelling, complicated family and cast of characters stay with you long after you close the book" (Monica Holloway, author of Cowboy & Wills and Driving With Dead People). How does one live in a house of the dead? Kate Mayfield explores what it meant to be the daughter of a small-town undertaker in this fascinating memoir evocative of Six Feet Under and The Help, with a hint of Mary Roach's Stiff. After Kate Mayfield was born, she was taken directly to a funeral home. Her father was an undertaker, and for thirteen years the family resided in a place nearly synonymous with death, where the living and the dead entered their house like a vapor. In a memoir that reads like a Harper Lee novel, Mayfield draws the reader into a world of haunting Southern mystique. In the turbulent 1960s, Kate's father set up shop in sleepy Jubilee, Kentucky, a segregated, god-fearing community where no one kept secrets—except the ones they were buried with. By opening a funeral home, Frank Mayfield also opened the door to family feuds, fetishes, murder, suicide, and all manner of accidents. Kate saw it all—she also witnessed the quiet ruin of her father, who hid alcoholism and infidelity behind a cool and

charismatic façade. As Kate grows from trusting child to rebellious teen, the enforced sobriety of the funeral home begins to chafe, and she longs for the day she can escape the confines of Jubilee and her place as the undertaker's daughter. "Mayfield fashions a poignant send-off to Jubilee in this thoughtfully rendered work" (Publishers Weekly).

The Engine of Complexity-John E. Mayfield 2013-07-09 The concepts of evolution and complexity theory have become part of the intellectual ether permeating the life sciences, the social and behavioral sciences, and, more recently, management science and economics. In this book, John E. Mayfield elegantly synthesizes core concepts from multiple disciplines to offer a new approach to understanding how evolution works and how complex organisms, structures, organizations, and social orders can and do arise based on information theory and computational science. Intended for the intellectually adventuresome, this book challenges and rewards readers with a nuanced understanding of evolution and complexity that offers consistent, durable, and coherent explanations for major aspects of our life experiences. Numerous examples throughout the book illustrate evolution and complexity formation in action and highlight the core function of computation lying at the work's heart.

The Myth of the American Dream-D. L. Mayfield 2020-05-05 Affluence, autonomy, safety, and power—the central values of the American dream. But are they compatible with Jesus' command to love our neighbor as ourselves? In essays grouped around these four values, D. L. Mayfield asks us to pay attention to the ways they shape our own choices, and the ways those choices affect our neighbors.

Be Your Own Hero-Annie Mayfield 2019-06-24 In a world filled with comparison, confined creativity, limited flexibility, and sustained dissatisfaction, young adults are suffering from a lack of pure passion and zest for life now more than ever. Social media makes things so easy to constantly feel your life is not as good as the person on your Snapchat feed or Instagram scroll, and today's society puts so much emphasis on being the "perfect" person that adolescents are setting themselves up for an impossible standard to reach. The youth of our generation needs to be reminded that they have the power within themselves to set their own standards and go

after their innermost blissful desires to create more thrill and purpose in their lives than they could ever deem possible. Magic in the lives of young adults needs to be reinstalled, dreams need to be reintroduced, and seeds of passion for life needs to be replanted. Be Your Own Hero cultivates a mind-set that the door to success always swings inward, not outward. In order to achieve your external goals, you must work on your inner self. This book aims to help young adults realize that their external empire only goes as far as their internal empire. By building a sense of self heroism and an ability to save themselves versus relying on external factors to do their saving for them, young adults can not only dream bigger but also love and serve bigger—leading them to a life they never thought possible.

The Art of Thinking Clearly-Rolf Dobelli 2014-05-06 Have you ever . . . Invested time in something that, in hindsight, just wasn't worth it? Paid too much in an eBay auction? Continued to do something you knew was bad for you? Sold stocks too late, or too early? Taken credit for success, but blamed failure on external circumstances? Backed the wrong horse? These are examples of what the author calls cognitive biases, simple errors all of us make in day-to-day thinking. But by knowing what they are and how to identify them, we can avoid them and make better choices: whether in dealing with personal problems or business negotiations, trying to save money or earn profits, or merely working out what we really want in life—and strategizing the best way to get it. Already an international bestseller, *The Art of Thinking Clearly* distills cutting-edge research from behavioral economics, psychology, and neuroscience into a clever, practical guide for anyone who's ever wanted to be wiser and make better decisions. A novelist, thinker, and entrepreneur, Rolf Dobelli deftly shows that in order to lead happier, more prosperous lives, we don't need extra cunning, new ideas, shiny gadgets, or more frantic hyperactivity—all we need is less irrationality. Simple, clear, and always surprising, this indispensable book will change the way you think and transform your decision making—at work, at home, every day. From why you shouldn't accept a free drink to why you should walk out of a movie you don't like, from why it's so hard to predict the future to why you shouldn't watch the news, *The Art of Thinking Clearly* helps solve

the puzzle of human reasoning.

The Promise of Rest-Reynolds Price 2010-06-15 In this stunning and fully independent conclusion to A Great Circle, Reynolds Price tells the complex, moving story of a man's return home to die of AIDS and of the unexpected effect that his arrival -- and his death -- has on his family. Wade Mayfield's parents are separated, but for the remaining months of his life they and their friends come together to care for Wade with the love they can muster. They are unprepared, however, for the astonishing mystery Wade has prepared to reveal once he is gone -- a mystery that initiates the possible reunion of his parents and promises to continue the proud traditions of a complex, multiracial family.

Short Guide to Writing About Psychology: Pearson New International Edition-Dana S. Dunn 2013-10-03 For psychology courses that include a writing component. Featuring the latest APA-style guidelines, this concise guide helps students master the skills and conventions they need to write well in psychology. This brief guide takes students step-by-step through the writing process—from choosing a topic, to outlining, drafting, and revising their papers, to seeking feedback from peers. In addition, it presents thorough discussions of researching psychological literature, focusing on online and database research, and presenting those findings in written and oral formats. Special attention is given to interpreting and reporting the results of statistical tests, as well as preparing data displays in tables and figures. Introducing students to all elements of professional writing in APA style, this book is a perfect supplement for courses in the social science disciplines.

Future Shock-Alvin Toffler 1990 Predicts the pace of environmental change during the next thirty years and the ways in which the individual must face and learn to cope with personal and social change

Some Sing, Some Cry-Ntozake Shange 2010-09-14 Groundbreaking and heartbreaking, this triumphant novel by two of America's most acclaimed storytellers follows a family of women from enslavement to the dawn of the twenty-first century. From Reconstruction to both world wars, from the Harlem Renaissance to Vietnam, from spirituals and arias to torch songs and the blues, Some Sing, Some Cry brings to life the monumental story of one American family's

journey from slavery into freedom, from country into city, from the past to the future, bright and blazing ahead. Real-life sisters, Ntozake Shange, award-winning author of *For Colored Girls Who Have Considered Suicide/When the Rainbow is Enuf* and Ifa Bayeza, award-winning playwright of *The Ballad of Emmett Till*, achieve nothing less than a modern classic in this story of seven generations of women, and the men and music in their lives. Opening dramatically at a sprawling plantation just off the South Carolina coast, recently emancipated slave Bette Mayfield quickly says her goodbyes before fleeing for Charleston with her granddaughter, Eudora, in tow. She and Eudora carve out lives for themselves in the bustling port city as seamstress and fortune-teller. Eudora marries, the Mayfield line grows and becomes an incredibly strong, musically gifted family, a family that is led, protected, and inspired by its women. *Some Sing, Some Cry* chronicles their astonishing passage through the watershed events of American history. *Leading Yourself*-Patrick Mayfield 2016-10-28 The world we work in has changed. It's now more Volatile, Uncertain, Complex and Ambiguous (VUCA). And most of us are still engaging with our work in old ways. These have left many of us overwhelmingly busy and with hopeless fatigue. There is another way to work. This book sets out a new emergent way of working which helps us more than survive.

Furious Hours-Casey Cep 2020-09-29 This "superbly written true-crime story" (Michael Lewis, *The New York Times Book Review*) masterfully brings together the tales of a serial killer in 1970s Alabama and of Harper Lee, the beloved author of *To Kill a Mockingbird*, who tried to write his story. Reverend Willie Maxwell was a rural preacher accused of murdering five of his family members, but with the help of a savvy lawyer, he escaped justice for years until a relative assassinated him at the funeral of his last victim. Despite hundreds of witnesses, Maxwell's murderer was acquitted--thanks to the same attorney who had previously defended the reverend himself. Sitting in the audience during the vigilante's trial was Harper Lee, who spent a year in town reporting on the Maxwell case and many more trying to finish the book she called *The Reverend*. Cep brings this remarkable story to life, from the horrifying murders to the courtroom drama to the racial politics of

the Deep South, while offering a deeply moving portrait of one of our most revered writers.

The Reckless Way of Love-Dorothy Day 2017-03-01 Dorothy Day is remembered as one of the great women of our age. Her admirers want to make her a saint, though she often protested. What hidden strength did this woman possess that continues to inspire people today? In clear, simple reflections, this little spiritual guidebook offers insights and wisdom Dorothy Day gained during many decades of seeking to know Jesus and to follow his example and teachings in her own life. Unlike larger collections and biographies, which cover her radical views, exceptional deeds, and amazing life story, this book focuses on an intensely personal dimension of Dorothy Day's life: Where did she receive strength to stay true to her God-given calling? What was the wellspring of her deep faith and her love for all humanity? "The solution proposed in the Gospels is that of voluntary poverty and the works of mercy. It is the little way. It is within the power of all. Everybody can begin here and now. . . . We have the greatest weapons in the world, greater than any hydrogen or atom bomb, and they are the weapons of poverty and prayer, fasting and alms, the reckless spending of ourselves in God's service and for his poor. Without poverty we will not have learned love, and love, at the end, is the measure by which we shall be judged." Dorothy Day, *The Catholic Worker*, April 1950

Practical People Engagement-Patrick Mayfield 2013-10-15 From research into high performers and from his own experience, Patrick Mayfield concludes that many of us leading change have prioritised and focused on the wrong things. Great change leaders understand this. Could their focus and different behaviours be the reason for their achievements? Patrick believes the evidence has been 'hiding in plain sight'. Practical People Engagement provides a better approach as well as a rich source of practices and techniques that help the reader get better results from the change they are trying to lead. As well as challenging conventional perspectives and practices on the 'people thing', Patrick provides a better way, observed in the high performers, identifying seven timeless principles of people engagement. The book considers different perspectives, 'hats', on stakeholders, story-telling as a key vehicle of engagement, how Agile relates to good engagement, the leader's favourite word, and

Downloaded from

davitmekonyan.com on

January 18, 2021 by guest

the power of collaboration. The main and final section distills the various practices and techniques into a simple five-step pathway. Whilst writing, Patrick applied the principles and practices in this book to the book itself, collaborating with a large number of specialists in related fields. As a result, 'Practical People Engagement' has now been chosen as the source reference for a new APMG International qualification in Stakeholder Engagement. "Readable, practical and written from a sound research base." Mark Withers, CIPD and Mightywaters Consulting. "Any Agile project needs to put significant effort into the way team members communicate but the most successful of those will also employ many of Patrick's tips to communicate most effectively with all who should be involved." Julia Godwin, DSDM Director. "Overall a great read and broad coverage of the subject." Stephen Jenner, author of 'Managing Benefits'.

Let Your Heart Out-Stefani Reinold 2018-02-21 When you were a little girl, you used to be fun-loving, with more dreams than you could ever fulfill in a lifetime. Then, you grew up. You got a job, had kids, learned to manage busy life. Somewhere, we lost our heart in the sea of tasks and to-do lists. This book will bring you hope for a more fulfilling experience of modern day motherhood.

The Construction of Reality in the Child-Jean Piaget 1999 "The organization of reality occurs, as we shall see, to the extent that the self is freed from itself by finding itself and so assigns itself a place as a thing among things, an event among events. The transition from chaos to cosmos, which we shall study in the perception and representation of the world in the first two years, is brought about through an elimination of egocentrism comparable to that which we have described on the plane of the child's reflective thought and logic."--P. xiii.

Before You Know It-John Bargh 2017-10-17 Dr. John Bargh, the world's leading expert on the unconscious mind, presents a "brilliant and convincing book" (Malcolm Gladwell) cited as an outstanding read of 2017 by Business Insider and The Financial Times—giving us an entirely new understanding of the hidden mental processes that secretly govern every aspect of our behavior. For more than three decades, Dr. John Bargh has conducted revolutionary research into the unconscious mind, research

featured in bestsellers like *Blink* and *Thinking Fast and Slow*. Now, in what Dr. John Gottman said was “the most important and exciting book in psychology that has been written in the past twenty years,” Dr. Bargh takes us on an entertaining and enlightening tour of the forces that affect everyday behavior while transforming our understanding of ourselves in profound ways. Dr. Bargh takes us into his labs at New York University and Yale—where he and his colleagues have discovered how the unconscious guides our behavior, goals, and motivations in areas like race relations, parenting, business, consumer behavior, and addiction. With infectious enthusiasm he reveals what science now knows about the pervasive influence of the unconscious mind in who we choose to date or vote for, what we buy, where we live, how we perform on tests and in job interviews, and much more. Because the unconscious works in ways we are completely unaware of, *Before You Know It* is full of surprising and entertaining revelations as well as useful tricks to help you remember items on your to-do list, to shop smarter, and to sleep better. *Before You Know It* is “a fascinating compendium of landmark social-psychology research” (Publishers Weekly) and an introduction to a fabulous world that exists below the surface of your awareness and yet is the key to knowing yourself and unlocking new ways of thinking, feeling, and behaving.

Building Geography Skills for Life-Richard Boehm 2004

Fostering Resilient Learners-Kristin Souers 2016-01-26 In this galvanizing book for all educators, Kristin Souers and Pete Hall explore an urgent and growing issue--childhood trauma--and its profound effect on learning and teaching. Grounded in research and the authors' experience working with trauma-affected students and their teachers, *Fostering Resilient Learners* will help you cultivate a trauma-sensitive learning environment for students across all content areas, grade levels, and educational settings. The authors--a mental health therapist and a veteran principal--provide proven, reliable strategies to help you * Understand what trauma is and how it hinders the learning, motivation, and success of all students in the classroom. * Build strong relationships and create a safe space to enable students to learn at high levels. * Adopt a strengths-based approach that leads you to recalibrate how you view destructive

Downloaded from

student behaviors and to perceive what students need to break negative cycles. * Head off frustration and burnout with essential self-care techniques that will help you and your students flourish. Each chapter also includes questions and exercises to encourage reflection and extension of the ideas in this book. As an educator, you face the impact of trauma in the classroom every day. Let this book be your guide to seeking solutions rather than dwelling on problems, to building relationships that allow students to grow, thrive, and--most assuredly--learn at high levels.

Writing on the Wall-Tom Standage 2013-10-10 Today we are endlessly connected: constantly tweeting, texting or e-mailing. This may seem unprecedented, yet it is not. Throughout history, information has been spread through social networks, with far-reaching social and political effects. Writing on the Wall reveals how an elaborate network of letter exchanges forewarned of power shifts in Cicero's Rome, while the torrent of tracts circulating in sixteenth-century Germany triggered the Reformation. Standage traces the story of the rise, fall and rebirth of social media over the past 2,000 years offering an illuminating perspective on the history of media, and revealing that social networks do not merely connect us today - they also link us to the past.

Doing Justice-Preet Bharara 2019-03-19 By the one-time federal prosecutor for the Southern District of New York, an important overview of the way our justice system works, and why the rule of law is essential to our society. Using case histories, personal

Downloaded from
davitmekonyan.com on
January 18, 2021 by guest

experiences and his own inviting writing and teaching style, Preet Bharara shows the thought process we need to best achieve truth and justice in our daily lives and within our society. Preet Bharara has spent much of his life examining our legal system, pushing to make it better, and prosecuting those looking to subvert it. Bharara believes in our system and knows it must be protected, but to do so, we must also acknowledge and allow for flaws in the system and in human nature. The book is divided into four sections: Inquiry, Accusation, Judgment and Punishment. He shows why each step of this process is crucial to the legal system, but he also shows how we all need to think about each stage of the process to achieve truth and justice in our daily lives. Bharara uses anecdotes and case histories from his legal career--the successes as well as the failures--to illustrate the realities of the legal system, and the consequences of taking action (and in some cases, not taking action, which can be just as essential when trying to achieve a just result). Much of what Bharara discusses is inspiring--it gives us hope that rational and objective fact-based thinking, combined with compassion, can truly lead us on a path toward truth and justice. Some of what he writes about will be controversial and cause much discussion. Ultimately, it is a thought-provoking, entertaining book about the need to find the humanity in our legal system--and in our society.

International Management-Helen Deresky 2003 For courses in International Management, Multinational Management, Global Strategy, and Comparative Management. This globally oriented text covers the most current research and trends in International Management. It offers comprehensive and integrative cases that illustrate the actual behaviors and functions required for successful cross-cultural management at the strategic and interpersonal level.

Love Yourself Lighter-Suyin Nichols 2015-01-18 The diet industry tells us to focus on "Eat less, Move more" to change our bodies, but countless dieters end up sabotaging themselves because they are not addressing the root cause of their weight issue--their MIND. Barring certain medical conditions, if you struggle with your weight, you have a mindset that is driving the actions (or non-actions) that are resulting in the extra weight you carry. In Love Yourself Lighter, you will learn how your mind works, uncover the "why" behind your weight, and learn how to rewire your thinking to support the outcomes you desire. You will also learn how to address the emotional component of weight loss, which will help you end emotional eating and establish the kind of connected relationship with yourself that leads to long-term results. Written with the intention to be used as a self-coaching guide, Love Yourself Lighter is divided into eight sections that will lead you through the process of understanding your mind BEFORE you get to work on your body. You will develop a solid mental foundation to support the effective self-care routine you'll be inspired to create, as you begin shifting your mind from thoughts of self-loathing to thoughts of self-love through the lessons within its pages. Author and Master Certified Weight Loss Coach, Suyin Nichols, generously shares the knowledge she has gathered on her own weight loss journey, as well as the journeys of many clients she has coached over the years. Let their stories inspire you to believe that freedom from the weight struggle is absolutely possible for you when you apply these coaching tools to your life. You may think you have tried everything, but you haven't tried THIS. Since hating your way to health doesn't work, why not try a new approach? Open your mind and be willing to Love Yourself Lighter.

Pharmacology for Nurses-Smith 2014-11-01 A Revolutionary New Undergraduate Pharmacology Text for Nursing Students Add the 2014 Nursing Drug Handbook Mobile App Now Available on iTunes and Google Play Pharmacology for Nurses is a groundbreaking new text that teaches the basic concepts of pharmacology to undergraduate nursing students. The text focuses on critical need-to-know information and draws on the experience of fourteen contributing authors in the field of nursing. It takes a new approach to teaching the complex topic of pharmacology through its concise, digestible coverage of material, reader friendly design, and use of images and tables to reinforce content. This text is also intended as a reference for other nursing courses and as part of the nursing professional's permanent reference library. Designed to reflect real-life clinical applications, Pharmacology for Nurses also provides a fundamental introduction to pharmacology for nursing students. The basics of pharmacokinetics and pharmacodynamics explained in rel

Dream City-Harry S. Jaffe 2014-04-01 With a new afterword covering the two decades since its first publication, two of Washington, D.C.'s most respected journalists expose one of America's most tragic ironies: how the nation's capital, often a gleaming symbol of peace and hope, is the setting for vicious contradictions and devastating conflicts over race, class, and power. Jaffe and Sherwood have chillingly chronicled the descent of the District of Columbia—congressional hearings, gangland murders, the establishment of home rule and the inside story of Marion Barry's enigmatic dynasty and disgrace. Now their afterword narrates the District's transformation in the last twenty years. New residents have helped bring developments, restaurants, and businesses to reviving neighborhoods. The authors cover the rise and fall of Mayors Adrian Fenty and Vince Gray, how new corruption charges are taking down politicians and businessmen, and how a fading Barry is still a player. The "city behind the monuments" remains flawed and polarized, but its revival is turning it into a distinct world capital—almost a dream city. Harry Jaffe has been a national editor at The Washingtonian magazine since 1990. He has received a number of awards for investigative journalism and feature writing from the Society of Professional Journalists. He

He is the co-author of *Dream City: Race, Power and the Decline of Washington, D.C.* A native of Atlanta, he currently resides in Washington, D.C. and has one son, Peyton.

Critical Thinking--Brooke Noel Moore 2016

10 Steps to Fashion Freedom--Joseph O'Connor 2001 *NLP--Neuro Linguistic Programming*--explores the relationship between neurology, linguistics and behavior. A new technique for changing behavior, this guide helps readers put NLP into action. 50 illustrations.

These Wicked Waters--Emily Layne 2019-10-22 A centuries-old curse plagues the island of *Viaii Nisi* and an ancient enemy lurks beneath the depths of the surrounding water. Annie Mayfield has heard all the stories and rumors about the island that is now home to the brand new *Mayfield Villa* resort, and she is definitely not psyched about having to spend her summer working there. The island's name alone--*Viaii Nisi*, or violent island--is enough to make any sane person seriously reconsider it as a vacation destination. Then there are the mysterious deaths of every previous owner! It's a history Annie's mother is quick to shrug off, but when a guest goes missing on opening night, Annie really starts to get the creeps. And then Annie makes a truly terrifying discovery: ruins filled with bones and one skeleton that seems to be half human and half fish. Intrigued by

the strange remains and determined to help find the missing guest, Annie channels her inner Nancy Drew--minus the skirt and pearls, of course--in an attempt to uncover the truth about Viaii Nisi. But that truth is beyond anything she could ever have imagined. With her mother in complete denial and local officials unconcerned, Annie finds she'll have to face her biggest fears if she's to attempt to save everyone she loves.
