Uncle Tom or New Negro?-Rebecca Carroll 2013-04-03 On the ninetieth anniversary of Booker T. Washington's death comes a passionate, provocative dialogue on his complicated legacy, including the complete text of his classic autobiography, Up from Slavery. Booker T. Washington was born a slave in 1858, yet roughly forty years later he had established the Tuskegee Institute. Befriended by a U.S. president and corporate titans, beloved and reviled by the black community, Washington was one of the most influential voices on the postslavery scene. But Washington's message of gradual accommodation was accepted by some and rejected by others, and, almost a century after his death, he is still one of the most controversial and misunderstood characters in American history. Uncle Tom or New Negro? does much more than provide yet another critical edition of Washington's memoirs. Instead, Carroll has interviewed an outstanding array of African American luminaries including Julianne Malveaux, cultural critics Debra Dickerson and John McWhorter, and Pulitzer Prize-winning journalist and radio talk-show host Karen Hunter, among others. In a dazzling collection bursting with invigorating and varying perspectives, (e.g. What would Booker T. think of Sean Combs or Russell Simmons? Was Washington a "tragic buffoon" or "a giver of hope to those on the margins of the margins"?) this cutting-edge book allows you to reach your own conclusions about a controversial and perhaps ultimately enigmatic figure.

Escape from Slavery-Francis Bok 2007-04-01 In this groundbreaking modern slave narrative, Francis Bok shares his remarkable story with grace, honesty, and a wisdom gained from surviving ten years in captivity. May, 1986: Selling his mother's eggs and peanuts near his village in southern Sudan, seven year old Francis Bok's life was shattered when Arab raiders on horseback, armed with rifles and long knives, burst into the quiet marketplace, murdering men and women and gathering the young children into a group. Strapped to horses and donkeys, Francis and others were taken north, into lives of slavery under wealthy Muslim farmers. For ten years, Francis lived alone in a shed near the goats and cattle that were his responsibility. Fed with scraps from the table, slowly learning bits of an unfamiliar language and religion, the boy had almost no human contact other than his captor's family. After two failed attempts to escape-each bringing severe beatings and death threats-Francis finally escaped at age seventeen, a dramatic breakaway on foot that was his final chance. Yet his slavery did not end there, for even as he made his way toward the capital city of Khartoum, others sought to deprive him of his freedom. Determined to avoid that fate and discover what had happened to his family on that terrible day in 1986, the teenager persevered through prison and refugee camps for three more years, winning the attention of United Nations officials and being granted passage to America. Now a student and an anti-slavery activist, Francis Bok has made it his life mission to combat world slavery. His is the first voice to speak for an estimated twenty seven million people held against their will in nearly every nation, including our own. Escape from Slavery is at once a riveting adventure, a story of desperation and triumph, and a window revealing a world that few have survived to tell.

Blackout-Candace Owens 2020-09-15 NEW YORK TIMES BESTSELLER It's time for a black exit. Political activist and social media star Candace Owens addresses the many ways that Democrat Party policies hurt, rather than help, the African American community, and why she and many others are turning right. Black Americans have long been shackled to the Democrats. Seeing no viable alternative, they have watched liberal politicians take the black vote for granted without pledging anything in return. In Blackout, Owens argues that this automatic allegiance is both illogical and unearned. She contends that the Democrat Party has a long history of racism and exposes the ideals that hinder the black community's ability to rise above poverty, live independent and successful lives, and be an active part of the American Dream. Instead, Owens offers up a different ideology by issuing a challenge: It's time for a major black exodus. From dependency, from victimhood, from miseducation—and the Democrat Party, which perpetuates all three. Owens explains that government assistance is a double-edged sword, that the Left dismisses the faith so important to the black community, that Democrat permissiveness toward abortion disproportionately affects black babies, that the #MeToo movement hurts black men, and much more. Weaving in her personal story, which ushered her from a roach-infested low-income apartment to1600 Pennsylvania Avenue, she demonstrates how she overcame her setbacks and challenges despite the cultural expectation that she should embrace a victim mentality. Well-researched and intelligently argued, Blackout lays bare the myth that all black people should vote Democrat—and shows why turning to the right will leave them happier, more successful, and more self-sufficient.

Violence from Slavery to #BlackLivesMatter-Andrew Dix 2019-12-06 Violence from Slavery to #BlackLivesMatter brings together perspectives on violence and its representation in African American history from slavery to the present moment. Contributors explore how violence, signifying both an instrument of the white majority's power and a modality of black resistance, has been understood and articulated in primary materials that range from slave narrative through "lynching plays" and Richard Wright's fiction to contemporary activist poetry, and from photography of African American suffering through Blaxploitation cinema and Spike Lee's films to rap lyrics and performances. Diverse both in their period coverage and their choice of medium for discussion, the 11 essays are unified by a shared concern to unpack violence's multiple meanings for black America. Underlying the collection, too, is not only the desire to memorialize past moments of black American suffering and resistance, but, in politically timely fashion, to explore their connections to our current conjuncture.

Sugar: The World Corrupted: From Slavery to Obesity-James Walvin 2018-04-03 The modern successor to Sweetness and Power, James Walvin's Sugar is a rich and engaging work on a topic that continues to change our world. How did a simple commodity, once the prized monopoly of kings and princes, become an essential ingredient in the lives of millions, before mutating yet again into the cause of a global health epidemic? Prior to 1600, sugar was a costly luxury, the domain of the rich. But with the rise of the sugar colonies in the New World over the following century, sugar became cheap, ubiquitous and an everyday necessity. Less than fifty years ago, few people suggested that sugar posed a global health problem. And yet today, sugar is regularly denounced as a dangerous addiction, on a par with tobacco. While sugar consumption remains higher than ever—in some countries as high as 100lbs per head per year—some advertisements even proudly proclaim that their product contains no sugar. How did sugar grow from prize to pariah? Acclaimed historian James Walvin looks at the history of our collective sweet tooth, beginning with the sugar grown by enslaved people who had been uprooted and shipped vast distances to undertake the grueling labor on plantations. The combination of sugar and slavery would transform the tastes of the Western world. Masterfully insightful and probing, James Walvin reveals the relationship between society and sweetness over the past two centuries—and how it explains our conflicted relationship with sugar today.
